~~~~~

We are new beginners, therefore we wish to bring ourselves before you. When we say new beginners, we do not mean inexperienced, but merely to say we have started in business. We have had fifteen years' experience with the largest firms here as practical workmen, and we are now prepared to carry out any contract in this line in a first-class manner. Our aim is to lead with the style, quality and latest patterns of the century. We employ none but the best workmen in order to give satisfaction to everyone. We also carry in stock fireplace furnishings, and make a specialty of supplying fine marble tiling, bathrooms, floors, counters, and windows, and laying mosaic pavements. We will be pleased to have you give us a call, and will guarantee good substantial work and satisfaction at moderate charges.
