

THE LIGHT-HOUSE KEEPER'S STORY.

FROM the lighthouse at Lobster Cove Head, Bonne Bay, Newfoundland, Mrs. W. Young sends her experience with Zam-Buk.

"I suffered with common colds for seven years and to my great delight Zam-Buk has cured me. The disease started on my breast and spread until it extended over my back. The itching and burning—especially when the affected parts were warm—was terrible; and yet when the eruption was scratched or rubbed, it turned to bad sores and caused great pain. I went to a doctor and received various prescriptions, but seemed to get no benefit, so I tried another doctor. Again I got no relief, so I tried a third doctor, and then a fourth.

"Seven years is a long time to suffer, and I had got used to the thought that I never would be cured, when I saw a report in the Family Herald, telling how beneficial Zam-Buk was in cases of skin disease. I bought some Zam-Buk, and from the use of the very first box I was going to do me good. I persevered with it, and the improvement in my condition was really wonderful.

"To ease the itching, I stopped the pain, and the sores began to dry up and disappear. In short, I found Zam-Buk all that was claimed for it and within a very short time it worked a complete cure in my case.

"Since that time I have recommended it for several other cases, and in each it has proved its wonderful merit.

What Zam-Buk Cures: Skin eruptions, Itching, Eczema, Scabies, Ringworm, etc.

FREE BOX: This little box, containing one ounce of Zam-Buk, is sent free to any person who writes for it to the manufacturer, J. H. P. Co., Toronto.

AMBIK EVERY HOME NEEDS IT.

SNAP VOTE IN THE BRITISH COMMONS DEFEATS LIBERALS

Government Caught on Divison on Home Rule With Small Attendance—Will Not Resign

London, Nov. 11—While the house of commons was debating the financial provisions of the home rule bill in committee this afternoon, an unexpected vote on an amendment offered by Sir Frederick Banbury, a Unionist member for the city of London, resulted in an opposition victory by a majority of 22.

The Conservatives were jubilant and loudly demanded that the Liberal government resign, which according to precedent it should do, if the vote, which was 228 to 208 was a genuine test of the strength of the government on the measure.

The temporary nature of the measure caused a great political sensation, but did not result in its retirement. The cabinet held a meeting tonight and decided to present a resolution in the house tomorrow which will be practically a demand for a vote of confidence, and after some preliminary red tape, will endeavor to have Sir Frederick Banbury's amendment re-scheduled and reprinted.

The Trap Worked. The younger Conservatives prepared the trap for the home rulers and succeeded in getting a vote which many members were in the country and a number of those who were absent from the house, not expecting that important business would be taken up.

The government's average majorities on previous details of the bill have been in the neighborhood of 100, but there has been much dissatisfaction among members of all parties at the provision compelling the other section of the United Kingdom to contribute to the support of Ireland without a vote in the expenditure of the money.

Sharp divisions during the meetings of committees of the house of commons are not unusual, although this is the first experience of the kind of the present government.

The Right Hon. Arthur J. Balfour, when he was premier, suffered in this way several times during his last parliament.

TO HOLD SMOKER. At the regular meeting of the Father Mather Association last night it was decided to hold a reunion in their rooms on Monday night next. The affair will be in the form of a smoker.

The members of the St. John Power Boat Club will hold a smoker in their rooms on Thursday night next. An excellent programme is being arranged.

The best way to keep your stomach clean, strong and healthy is by drinking a glass of cold water every morning immediately after rising, and just before retiring at night.

Try This Home-made Cough Remedy Costs Little, But Does the Work Quickly, or Money Refunded.

Mix two cups of granulated sugar with a cup of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a 16-ounce bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

You will find that this simple remedy takes hold of a cough more quickly than anything else ever used. Usually ends a deep-seated cough inside of 24 hours. Sore throat, whooping cough, croup, chest pain, bronchitis, and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough.

This recipe makes more and better cough syrup than you could buy ready made for \$2.50. It keeps perfectly and tastes pleasantly.

Pinex is the most valuable concentrated essence of Norway white pine extract, and is rich in gualic acid and all the medicinal elements which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and sugar syrup (or strained honey) has proven so popular throughout the United States and Canada that it is often imitated. But the old successful formula has never been equaled.

NEED OF ANOTHER KINDERGARTEN

Also Training Department for Teachers in the Normal School

PUBLIC MEETING HELD

City Schools For Little Ones Turning Away The Children For Lack of Room—The Child's Protection Act

The annual meeting of the Pro Kindergarten Association last evening in the board of trade rooms, developed a very interesting discussion, and also showed that the three free kindergartens now carried on have all been compelled to turn children away, in one case more than another school.

If assured of funds the association would open another school. The need of a training department for kindergarten teachers at the normal school, and of getting the board of education to make the kindergarten a part of the regular public school, was strongly urged. The Child's Protection Act and Prison Farm were also referred to in the discussion.

W. Frank Hatheway presided, reported in feeling terms to the sympathy of all for the president, Mrs. H. H. Pickett, who was unable to be present.

Mrs. H. Roberts paid a tribute to the work of the president, and outlined very clearly the aims of the association. She made a strong plea for the kindergarten as a part of the regular school work, and told how successfully it works out in Ontario cities. There is also a training school for teachers there. Mrs. Roberts pointed out that the kindergarten was really a technical school for the little ones. The chief problem of the association was to secure sufficient funds.

Mrs. Gunn, the secretary, reported that there were three kindergartens open and 217 children. Mrs. H. H. Pickett, who was unable to be present, reported that there were 128 children in the school, with an average attendance of 87. The secretary paid a tribute to the excellent work of the teachers, and the interest of the children and their homes. She expressed the hope that another kindergarten might be started. Thanks to all helpers were accorded, and the report said the year had been very successful and the outlook is bright.

Mrs. Louis Green, who was unable to be present, reported that she had received receipts, \$2,769.95; expenditures, \$1,734.07; balance \$1,035.88. There has come into the treasury \$1,000.00 from the exhibition, but there had also been paid out over \$300 for salaries and other expenses, so that the balance was not as large as on the report above at the end of the year.

Mrs. Louis Green, at this stage, presented \$10 from the Daughters of Israel, which was heartily appreciated.

The Teacher Training. Mr. W. C. Matthews told of her work for six years training kindergarten teachers, and gave a very interesting description of the course, which lasts two years. Eight young ladies have secured diplomas, and four of them are teaching in St. John. Mrs. Matthews also reported that the Nova Scotia has had for seven or eight years a normal school for kindergarten teachers, and that they had no other school in the province.

The Child's Protection Act. J. King Kelley, K. C. discussed the Child's Protection Act. He explained that about three years ago both the S. P. C. A. and the ladies of the city sent him to Mr. Hasen, who sent them back to him with a request for a new one. This was sent up, but was not adopted. Last year it was sent up to Mr. Fleming who referred it to Mr. Grimmer, who expressed sympathy, but Mr. Grimmer pointed out that the bill involved expenditures of municipal councils and they had not asked for it. They should have some money.

The Juvenile Work. Miss Stephens gave a very interesting explanation of the work of a kindergarten class, with illustrations, and Miss Seely stirred the hearts of the audience by telling very simply and impressively one of the stories told to the children of kindergartens of old, to impress upon them the importance of being good and true.

Mr. H. H. Pickett expressed sympathy with the association and said that when a member of the city council it appeal for a grant of \$2,000 to \$3,000; the school would be able to pay its way; but until the school board took over the work, the school would not come into being. There should be more technical kindergartens, and it should begin with the kindergartens. It is a very important work, and it should be given the same respect as the kindergarten might soon be opened.

Mr. H. H. Pickett expressed very hearty sympathy with the work which he had knowledge, and he hoped it would soon be given the same respect as the kindergarten might soon be opened.

Mr. H. H. Pickett expressed very hearty sympathy with the work which he had knowledge, and he hoped it would soon be given the same respect as the kindergarten might soon be opened.

C. N. R. OVER THE I. C. R. TO THE SEA

Also Plans For Line To Give a Boston Outlet

GRAND TRUNK MATTER

Facts About Alliance With New York, New Haven and Hartford—C. P. R. Directors Declare Usual Dividend

Ottawa, Nov. 11—The Canadian Northern Railway will, it is understood, seek legislation this season providing for its maritime outlet for through traffic from the west. The final eastern link of the Canadian Northern system from Sudbury to Quebec, now under construction, will be completed within a year or so. But as yet there is no provision for turning out to the seaboard and the road naturally wants to be in a position to secure the through land instead of having to turn its traffic to rival roads at Montreal or Quebec, when the St. Lawrence navigation season closes.

The company has two outlets in view. For some years Mackenzie & Mann have been considering the selling of the Intercolonial system from Montreal or Quebec to St. John and Halifax. Proposals for giving the C. N. R. running rights over the government line or of leasing it to the C. N. R. system, and the latter line, giving a through outlet for export grain and commodities via Boston.

It is stated that the question is now being considered as to whether the government is likely to meet sympathetically any request of Mackenzie & Mann for a working arrangement over the Intercolonial.

As a second string to the C. N. R.'s bow is also contemplated, the company is applying for legislation this session authorizing the construction of a line from Montreal to Nova Scotia with a branch running down to the seaboard and the road naturally wants to be in a position to secure the through land instead of having to turn its traffic to rival roads at Montreal or Quebec, when the St. Lawrence navigation season closes.

Thus the C. N. R. would be in position to compete with the C. P. R. and G. T. R. for the coast and would be entirely independent of either of these roads or the Intercolonial.

With the Grand Trunk Pacific applying to parliament for an additional loan of \$15,000,000 to finance the completion of the mountain divide and with the C. N. R. also applying for legislation noted above, the usual subsidy requests attached with the whole question of routing traffic via Canadian or American Atlantic ports is likely to come up for long and lively discussion this session.

Boston, Nov. 11—The Grand Trunk Railway of Canada is negotiating with the New York, New Haven & Hartford Railway for the right not only to reach Boston and Providence over the lines of the latter road, but to carry its business into all the stations of the entire New Haven system, including the Boston & Maine road, according to a statement given out by Vice-President Timothy E. Byrnes, of the New Haven, tonight.

The statement is issued to explain the reasons for discontinuing the work on the Southern New England Railway, a Grand Trunk subsidiary, as announced yesterday.

An agreement has been reached between the two roads for the joint use of the Vermont tracks between Windsor and White River Junction, Vermont. The withdrawal of the petition by the Boston & Maine for a branch from Clairmont to Lebanon (N. H.), paralleling the Central Vermont line, was announced Saturday.

While it is stated that the exact reason for ordering a suspension of work on the Southern New England is not known to President Melton, it is admitted that joint negotiations are under way and have been some time looking to a joint use of the New Haven lines by the New Haven and Grand Trunk roads.

At a meeting of the directors of the Canadian Pacific Railway Company, held today, a dividend of two cents per share was declared on the common stock for the quarter ended September 30 last, being at the rate of seven per cent annum from revenue and three per cent per annum from interest on the proceeds of land sales and from other sources. The dividend was payable January 2 next to shareholders of record at 3 p. m. on December 2 next.

Mr. J. Hurlbert. It is so easy to overlook the warning given by headaches, indigestion, falling memory, lack of power to concentrate the mind, irritability and worry over little things, that many a man has reached the verge of breakdown, only to find that the writer of the letter quoted below, you can call a halt to the wasting process and restore vigor and energy to the nervous system by using Dr. Chase's Nerve Food. This great food cure has a wonderful record of cures.

Mr. J. Hurlbert, 23 James street, Brantford, Ont., writes as follows: "I was very much run down in health and as a consequence my nervous system was very much exhausted. Close confinement at my work, I think, brought on the trouble. I started using Dr. Chase's Nerve Food and by the time I had used up one box I felt a great improvement. The continued use of this preparation has thoroughly restored my system so that I feel strong and vigorous and fit for any amount of work. I have also used Dr. Chase's Kidney-Liver Pills and Ointment with splendid satisfaction, and recommend them every opportunity."
