CANADIAN CLUB TO MEET THIS AFTERNOON

The executive of the Canadian Club will meet this afternoon at 6 o'clock in the Times building, when several matters of interest will be discussed, among them being the observance of Dominion Day, July 1, and the convention of Canadian clubs to be held in Winnipeg, on July 18. It is possible that the local club may be represented at this convention, and this will probably be decided this afternoon.

The Montreal Canadian Club last year observed Dominion Day by a trip to Fort Beaujeu, and this year the members of that organization are contemplating a visit to River Glade, the site of the Jordan sanitarium. There is a possibility that the matter of the local club members also paying a visit to this interesting place on July 1 will be considered along with other propositions.

Five Per Cent and Safety

The man who saves with an eye to future need must eliminate all risk as far as possible, investigate thoroughly his proposed investment and invest in such a way as will yield the best return.

Public Utility Bonds

almost invariably offer the investment of a sound security of principal coupled with a good interest yield. The equity behind such securities is not affected by panic or depressed business conditions. People must under all circumstances use light and heat, must utilize power, must travel.

Take for an example

Cape Breton Electric Co.

An investment in the 5 Per Cent. BONDS of this company will yield 5.35 per cent.

MAY RECORD MONTH IN CAPE BRETON COAL AND STEEL PRODUCTION

(Sydney Record).

May was a record month at both the open hearth furnaces at Sydney and at the collieries of the Dominion Coal Company.

The output of steel ingots for the month totalled 28,570 tons, which is 250 tons better than the best previous record. In steel blooms the output while not a record one was above the average. The output on the whole was well above the average while the shipments were also very satisfactory, aggregating 27,139 tons. The months production were as follows:

Fig Iron	27,139
Steel Ingots	28,570
Blooms	25,437
Rolls	15,222
Shipments	27,139

For the five months since the beginning of the year the output aggregated 1,524,529 tons. While not quite up to the amount produced during the same period in 1908, during which a record was made, these figures are an advance over those of the last two years. The figures for the first five months for four years past are as follows:

1908	1,885,994
1909	1,273,670
1910	1,108,917
1911	1,524,529

DULL OUTLOOK IN SARDINE CANNING AT EASTPORT FACTORIES

(Bonjour Commercial).

Calais, June 8.—Andrew Clark, head of the sardine packing firm of L. D. Clark & Sons, Eastport, was in the city on a business visit yesterday. He said that the outlook for the sardine packers at Eastport, and, in fact throughout Washington county, is very dull at this time. No fish have been received for several days and there is but little prospect of them being taken in any quantity until late in August. The supply of fish on hand, that is packed fish, is nil, and from present indications the total pack for the season of 1911 will be away behind the average. The season started with a rush and it looked as if there was going to be a banner crop for the first two months but with their usual idleness and uncertain action the little fishes so necessary to the prosperity of Eastport and other shore communities dependent to a large extent upon the supply of fish for canning purposes entirely, or almost, disappeared. The present condition of affairs is discouraging alike to the packers and their employees, who were looking forward to steady work during the early months of the packing season.

Moncton to Have Bonfire

Moncton, N. B., June 9.—(Special)—At a meeting of the bands and fireworks committee held evening in connection with the coronation day celebration, it was decided to follow the old English custom of having a huge bonfire in the evening after the display of fire works.

"Here's a nickel" said a thrifty housewife to a tramp at her door. "Now, what are you going to do with it?" "Well, mum," replied the hungry man, "if I buy a touring car, I shan't have enough left to pay my chauffeur; if I purchase a steam yacht, there won't be enough left to defray the cost of mooring her; so I guess, mum, I'll get a man and handle it myself."—Everybody's Magazine.
