

RECIPES.—(CONTINUED.)

give of Carriers' Oil 3 pts. (or enough to operate as physic). Lard has been used when the Oil could not be obtained, with the same success.

The cure will be complete, as the Milk and Molasses cause the Bots to let go their hold, the Tea puckers them up, and the Oil carries them entirely away. If you have any doubt, one trial will satisfy you perfectly. In places where the Carriers' Oil cannot be obtained, substitute the lard, adding three or four ounces of salt with it; if no-Lard, dissolve a double handful of Salt in warm water 3 pts., and give all.

RING-BONE AND SPAVIN.

RAWSON'S RING-BONE AND SPAVIN CURE.

! Venice Turpentine and Spanish Flies, of each 2 oz.; Euphorbium and Aqua Ammonia, of each 1 oz.; Red Precipitate, $\frac{1}{2}$ oz.; Corrosive Sublimate, $\frac{1}{4}$ oz.; Lard, 1 $\frac{1}{2}$ lbs. Pulverize all and put into the Lard; simmer slowly over coals, not scorch or burn, and pour off free of sediment.

DIRECTIONS.—For Ring-Bones, cut off the hair and rub the ointment well into the lumps once in forty-eight hours. For Spavins, once in twenty-four hours, for three mornings, has perfectly cured them. Wash well each application, with suds, rubbing over the place with a smooth stick to squeeze out a thick yellow matter.

Mr. Rawson, Rawsonville, Mich., has cured some exceedingly bad cases of Ring-Bones, one as thick as a man's arm, and Spavins as unpromising in size. If properly cooked, it will foam like boiling sugar.

BONE SPAVINS.—FRENCH PASTE.—\$300 RECIPE.

Corrosive Sublimate, Quicksilver, and Iodine, of each 1 oz.; with Lard only sufficient to form a paste.

DIRECTIONS.—Rub the Quicksilver and Iodine together, then adding Sublimate, and finally the Lard, rubbing thoroughly. Shave off the hair the size of the bone enlargement; then grease all around it, but where the hair is shaved off; this prevents the action of the medicine only upon the Spavin; now rub in as much of the Paste as will lie on a three cent piece only, each morning for four mornings only; in from seven to eight days the whole Spavin will come out; then wash out the wound with suds, soaking well, for an hour or two, which removes the poisonous effects of the medicines and facilitates the healing, which will be done by any of the healing salves; but I would prefer the Green Ointment to any other in this case.

Mr. Andrews, late of Detroit, who, during his life, knew a good horse, and also desired to know how to take good care of them, did not hesitate to pay three hundred dollars for this recipe after seeing what it would do. He removed a Spavin from a mare's leg with it, and she afterwards won him more than the expense.

SPLINT AND SPAVIN LINIMENT.

Take a large-mouthed bottle, and put into it Oil of Origanum 6 oz.; Gum Camphor 2 oz.; Mercurial Ointment 2 oz.; Iodine Ointment 1 oz.; melt by putting the bottle into a kettle of hot water.

Apply it to Bone Spavin or Splints twice daily, for four or five days. The lameness will trouble you no more.
