**DR. RACINE, Esq.**

"Having experienced the benefit from the use of Dr. Hagar's Balm, I am induced to express my opinion in its favor. For several years I have been afflicted with a severe and obstinate cough, which was not relieved by any other remedy. After using a few drops of this Balm, the cough was relieved, and in a few days it was entirely cured. I can therefore recommend it to all who are afflicted with a cough, and I have no hesitation in saying that it is a most valuable remedy. I have used it many times, and in every case it has proved successful. I have no children, with the exception of one, and I have never known it to fail in any case. It is a preparation of the most pure and best materials, and is well adapted for all cases of the above kind."

**WHOOPING COUGH**

Dr. Hagar's Balm, Aug. 21, 1886.  
I have a little daughter, aged 18 months, who has been afflicted with Whooping Cough for several weeks. I have used many remedies, but have not been able to relieve her suffering. I have used Dr. Hagar's Balm, and in three hours after the first application she was greatly relieved, and in a few days she was entirely cured. I have no case like this in my family, and I have no hesitation in saying that it is a most valuable remedy. I have used it many times, and in every case it has proved successful. I have no children, with the exception of one, and I have never known it to fail in any case. It is a preparation of the most pure and best materials, and is well adapted for all cases of the above kind."
