THE DREIBUND.

ITALY'S ATTITUDE AND BRITAIN'S SITUATION.

France's Armaments are bankrupting her. The Alliance-Lorraine case. Rome, April 13.—Premier (Cassinari), in an interview to-day in regard to the Dreibund, held that the renewal of the triple alliance was of secondary importance as compared with a constant treatment with England. On many occasions, he said the policy of the Dreibund alliance had been perfectly correct, but the ideas, yet Lord Salisbury for special reason had never adhered to the Dreibund treaty.

It was difficult to imagine that England and Italy would remain passive while war was being waged by Russia and France against Germany and Austria, even if the Dreibund did not exist.

Italy might find it entirely to her interest to range herself on the side of Great Britain. She would refrain from interfering in the affairs of the other powers, thus securing the neutrality of Great Britain. Italy would not act under contingencies provided in the Dreibund convention. If Austria attacked Russia or Germany declared war on France that action would not imply that Italy was not to join in the movement. By the terms of the contract she was entitled to a neutral position and to remain so. The case was different if any one of the contracting powers was made the object of special attack. Premier di Rudini declared he was convinced that France, despite her excessive armaments, would never allow a war of aggression while the Dreibund continued to act as the safeguard of Europe. In view of the prevailing temper in France it was perfectly idle to discuss the question of a dissolution of the Dreibund. Neither Austria nor Germany dreamed of making an attack.

PARIS, April 13.—Approve of the French increase of the effective of the French army and of the Minister of War's demand on the Budget committee of the Chamber of Deputies for further appropriations. Senator Barthélemy St. Hilaire, ex-minister of foreign affairs, said to-day: "It becomes more and more evident that France is on the high road to bankruptcy. France is one of the richest countries in Europe. So, too, we would call a man rich who had an income of a million francs a year. But suppose he spent each year 1,200,000 francs, and kept on doing so year after year? What would his wealth amount to after ten years? And yet this is just what France has been doing for a very long time. 'The upshot of the whole thing must be that we shall have to repudiate our debts, as we did in the first revolution, and start fresh. I greatly admire the magnificent manner in which the United States has gone on paying off its enormous debt in a period of two years. But in the first place the wastefulness of our great departments of government is something frightful. While our debt amounts to \$1,000,000,000, we are spending \$1,000,000,000 in the public funds, the extravagant expenditure of the government, and no government dares incur the anger of the politician in cleaning out the Augean stable. Then, again, our military system is very expensive and keeps on growing more so every day, so that it seems an almost hopeless task to try to stop this suicidal financial policy.

We cannot reduce our army, for there stands that Alsace-Lorraine difficulty still undischarged. For the time being we are for Germany to take those provinces. We would willingly have paid any sum for the return of Alsace-Lorraine. But France will never abandon Alsace-Lorraine without a struggle which will cost her more than she can afford. France must not be seduced from the map of Europe like Poland. She will fight to the last man, for she will see that her very existence as a nation depends on victory, and if she comes off the victor in what an exhausted state she will probably be left. Then the ordinary financial situation, rendered more oppressive by the increased expenditures of the war, will weigh down the bleeding nation and bankruptcy will then be inevitable."

SCHOOL TRUSTEES MEET.

Applications, Improvements and Changes in the Schools.

The board of school trustees met last night. Applications for appointment to the teaching staff were received from Miss Mary K. Tibbets, B. A. Parker, Miss Lizzie S. Hughes, M. C. Donovan and Miss Mary Elliott. The committee on schools and teachers recommended the principals of the various schools be located in rooms on the ground floor of their respective buildings, and where possible, overlooking the play grounds; that Miss Ada Armstrong be appointed teacher of the seventh standard in the Indian town school for the current year, at a salary of \$200; that all school prizes be given under the provisions of regulation 34 of the board of education; that the Douglas avenue school be immediately opened on May 1st; that an assistant be employed in the first department of St. Joseph's school for the remainder of the current term; that the closing exercises of the grammar school and high school be held conjointly in the hall in the Centennial building. This report was adopted and the secretary was directed to confer with the board of education with regard to the question one school session of less than four hours for standard one and two. The report of Superintendent Hayes was then submitted. It showed that the enrollment of pupils in March was 2,221, and the average attendance 4,621. During the month twelve teachers were ill. New appointments had been opened in the Albert and St. Peter's schools. Miss Burke (Sister Edith) had been placed in charge of the new department in St. Joseph's school. The superintendent recommended that standard one and two be held two sessions on and after Monday the 22nd inst., and that the city be divided into districts for school purposes. This was adopted.

Senator states that there is no such thing in the world as a purely black cat, if any person will call at St. White's on Charlotte street they will see this statement confirmed. Also they see the Parrot's Cigars Havana filled, forty five cents per ten in a bunch.

ACTONOLITE.

VALUABLE MINERAL DISCOVERY IN HALIFAX TOWNSHIP, ONTARIO.

SPECIAL TO THE GAZETTE.

An Abandon Property to be Worked.

The Grand Trunk Mining—Manitoba Legislation.

Actonolite, a very valuable mineral has been discovered at Kalar, Nisby part east of the mine, is used in the manufacture of paper. An Abandon property in the same township, known as the Hill Mine, has been sold to Senator Campbell of Ohio who has formed a company with one hundred thousand dollars capital to work the mine.

The Grand Trunk Mining. Monday, April 14.—G. S. Sargeant, general manager of the Grand Trunk, was seen this morning with reference to the defect of Sir Henry Tye's check at the meeting in London yesterday. He says he believes it is only a temporary defect and that when the poll is taken today Mr. Tye will be reinstated. Mr. Sargeant has received a communication from Sir Henry Tye amounting to that he is expected to get the poll, and being very tired left the office again early in the summer. There is considerable uneasiness among the officials and were regarding the result of the poll, as it is considered certain that should Sir Henry be defeated, much change would be effected.

Manitoba Legislation. WEDNESDAY, April 15.—Two of the Manitoba bills recently introduced by the Governor general have been passed by the legislature by attorney general Martin.
