FREDERICTON JUNCTION, July 7,-in Monday last Walter Scott observed a commotion among his neighbor's cattle. Seizing his rifle he made a reconnaissance of the situation and found that a bear was killing a heifer belonging to Daniel Mott. The bear was of large size and the skin measured seven from the tip of the proboscis to the

A Hot Wave Sending People to the Country.

Business Reaction Following the Boom of Last Spring-Many Factories Shutting

eaths of Former Residents of the Maritime Provinces - P. E. Island People in the Divorce Court-Lumber Market Demoralized - Fish Quotations.

(From Our Own Correspondent.) BOSTON, July 9.—The hot wave which reached here Saturday morning resulted in the partial depopulation of the city. The mercury at the government bureau here reached 94, and in shady places along Washington street ran up as high as 97. The heat continued Sunday and drove enormous crowds to the beaches. The travel eastward is very heavy. Many persons who waited for the national holiday on Wednesday last are leaving for country, with the result that the ransportation lines have all the traffic they can handle with convenience. The summer rush to the provinces is well

General business in the United States is rapidly decreasing in volume, prices of commodities are falling and many mills are either idle or about to shut down. Among the reasons advanced for the slump are the reaction following the boom of last spring, when retailers were stocked up, the presidential campaign, the Chinese troubles and the advent of hot weath-

In New England manufacturing circles there is little demand reported. There is no inquiry for cotton goods, the prices of which have been on the decline, and many of the mills are about to close for at least one month Thirty of the corporations of Fall River are included in this list, and their 20,000 employes will have a long vacation. Many of these, who are French Canadians, will probably go to Canada for a while. Cotton mills in a number of other places will also close, and if the curtailment of production does not sufficiently remedy the trouble, it is thought a general reduction of wages will be ordered, although strong efforts will be made to avoid this

step. Some of the largest mills of the American Woollen company (the trust) in placed on the new boat purchased by New England are closed. The iron, steel, tin plate and glass industries are also in unsatisfactory shape and 150,000 persons in Pittsburg alone are idle. The general reaction will in a er, Mrs. Thos. R. It is more apparent than ever to the average citizen that presidential campaigns are too long and command too much of a monopoly on general busi-Every four years the country ress. from the Atlantic to the Pacific is rent and torn with political strife, which paralyzes trade and puts to flight everything else in the public arena What would be a good remedy for this undeniable evil is a puzzler to most people. At the present time it would appear that the chances for the reelection of President McKinley are good, but the republicans have a heavy load of misdeeds, blunders and shortcomings to carry, and the leaders fully realize that they will have no walkover. The democrats and their allies in the west appear to possess more elements of solidarity than was the case in 1896, and under the generalship of their remarkable leader they will make a good fight. If the Germans and other foreigners decide to oppose McKinley on account of imperialism and militarism, elements which draw many of them from Europe, then it may be good day to republican success, but hitherto a large percentage of Europeans here has opposed Bryan on the silver issue. It is yet too early, however, to size up the situation reliably

Mrs. Lillie May MacKinnon, formerly of Summerside, P. E. I., has petitioned the superior court of Suffolk county for a decree of divorce from Daniel MacKinnon, to whom she was married at Summerside in 1893. Desertion and non-support are the grounds alleged. The case is to be heard or the first Monday in September.

The Maritime Provincial club held its annual picnic and athletic meeting in Roxbury on July 4. A. Mc-I'hail, Alexander McDonald, J. A. Mc-Pherson, C. F. McPherson and T. L. Williams all captured first prizes. The Societe St. Jean de Baptiste held a big celebration July 4 at Natick, R. I., at which 19,000 French Can adians were present. Hon. the principal speaker. Miss Christine Winnifred Todd St. Stephen was one of the graduates this year at Abbott Academy, Andover, Mass.

what demoralized on account of the cutting of prices by dealers. Trade is quiet on account of a lack of building, although there is some business doing on account of the fall in values. Nominally prices are quoted at the \$2 per thousand reduction made by the car mill men's association two weeks ago. It is the general belief here that a great mistake was made in not reducing prices in April. Hemlock lumber is in quiet request, with the offerings small at \$15 to 16 for Canadian boards. Cedar shingles are dull and rather easy. Extra cedar are quoted at \$2.99 to 3, clear, \$2.60 to 2.70; second clear, 32 to 2.10; clear white, \$1.75 to 2: extra No. 1, \$1.50. Spruce here is nominally quoted as 9 in. and under, \$14; 10 x 12 in. and under, \$15.50; 2 x 3, 2 x 4, 2 x 5, 2 x 6; 2 x 7, and 3 x 1, \$12.50; other randoms, nine inches and under, \$13.50: laths 1 5-8 in , \$2.75; laths, 1 1-2 in., \$2.75 to 2.80; 5 in. and up boards, \$13; extra

clapboards, \$28 to 29: clear, \$26 to 27:

second clear, \$23 to 24. Mackerel are easier under heavier arrivals, the market having declined 11 a barrel at wholesale. The last sales out of vessel were made at \$10.50 to 19.75. The demand has improved under the decline, and the outlook for a large season's catch is excellent. The jobbers have reduced new large 3s. to \$12 to 13; New large 2s. to \$13 to 13.50, and medium 3s. to \$12 to 12 50. This season the vessels have landed 16,877 barrels, against 1,545 barrels during the same time one year ago. The codfish market is steady at \$5.50 for large dry bank; \$5 for medium: \$5 to 5.12 1-2 for large pickled bank, and \$5.50 to 6 for large shore and Georges. Nova Scotia split herring are quiet at \$6 to 6.50 for large split and \$5 to 5.50 for medium. Sardines are firm, with higher prices asked. For quarter oils the price is \$3.87 1-2 and for three-quarter mustards about the same. Canned lobsters are scarcer than ever. Prices are very firm at \$2.50 per case for cans, picnic size; \$3.25 to 3.50 for flats, and \$3 to \$3.20 for tails. Live and boiled lebsters are also scarce and high. The former are worth 16c. and boiled, 18c.

Kicked in the Breast by a Horse-Celebrating the Twelfth.

CODY'S, Queens Co., July 10 .- Court Washademoak, No. 1,394, I. O. F., are making arrangements to hold a festival near Armstrong's wharf during August.

The Orangemen of Goshen and district will have a parade and sports, etc., on the 12th. This annual affair is generally largely patronized. An accident occurred this morning to

Fred, the son of Rev. David Patterson, Baptist minister, who resides at Jenkins. One of the horses was in the grass, and when the boy went to catch it, it turned suddenly round and gave him a severe kick under the left breast. It is hardly known yet how serious his injury may be. Dr. Armstrong was summoned to attend him.

The Church of England annual picnic was held today on the grounds of Wm. M. Pearson at Highfield. Sports were indulged in during the afternoon A merry-go-round was in attendance. Tea was provided in the hall for visitors. The attendance was not so large as usual owing to so many other picnics being held in the surrounding disrict on the same day.
