CURED BY THE BROOKS DISCOVERY

From the battle front in Europe comes a letter written by Private John Carter, whose home address is No. 2 Shaw View, Flixton, telling of his complete cure of rupture from wearing the Brooks Appliance.

C. E. Brooks, Dear Sir:

I received your letter by first post this morning. I beg to thank you for your Appliance which was instrumental in the way it cured me of my rupture. I have now been in Kitchener's army 7 months, and I have gone through all the training and I have never felt anything and not had the slightest trouble. I remember when I passed the doctor he remarked "There is nothing wrong with you, young man, you are in the best condition," and he sounded me all over, and I again thank you for the same, and I give my consent to use my letter as a testimonial to anyone, as I have been cured. Hoping you and your firm much success.

Yours truly,
John Carter

MOTHER THANKFUL THAT SON CAN GO TO THE FRONT

And here is a letter from a mother who is thankful because a Brooks Appliance cured her boy so he could go out and serve his country.

2 Orchard Road, Richmond, Surrey, Mr. C. E. Brooks, Dear Sir:

A line to thank you for what your Appliance has done for my son. After wearing it from December to the following September I can say he is quite cured and is now serving his country in France at his own trade, a shoeing smith. You can make what use you like of these, my thanks.

I am yours,
(Mrs. E. Whittle.)

Brings Instant Relief, Perfect Safety and Everlasting Comfort.

The Brooks Rupture Appliance is beyond question the most universally endorsed appliance of any kind in the world for the retention and cure of a ruptured condition in men, women and children.

It is the result of more than 30 years' experience and the percentage of actual cures effected by its use is a little short of miraculous.

The Brooks Appliance has so many imitators that it is never sold in drug stores, or in any other way than by mail, direct from the maker. This is further necessary because every Brooks Appliance is especially made and fitted for the case for which it is intended.

Many hundreds of Physicians and Surgeons recommend the Brooks Appliance and condemn trusses as more harmful than almost any other method of retaining or treating rupture.

You may not think that a rupture appliance can ever be truly "comfortable"—but that is because you have never tried Brooks'.

Thorough Satisfaction—Worth Ten Times Its Cost

Peterboro, Ont., Can. 561 Reid Street. Mr. C. E. Brooks, Marshall, Mich. Dear Sir:

I am delighted to tell you of the thorough satisfaction I have had with your naval rupture Appliance. I bought it from you eight months ago, have worn it ever since, and now I am perfectly cured—no signs of rupture whatever. I would have willingly paid ten times what you charged for the Appliance for the cure I now enjoy. I am writing this testimonial so you may use it if you see fit for the benefit of others, as there are so many humbugs. This is written of my own free will, and I take pleasure in recommending your firm as being entirely reliable.

HARRY LONG.

Wouldn't Take \$100 for Appliance

Dear Mr. Brooks—I am pleased to write you and let you know what your Appliance has done for me. I am all right now, as I have not seen the first sign of it since last fall. I can now run, jump and lift all I like and I would not take \$100 for it if I could not get another. I do not wear it except when at hard work. Your Appliance is just as good as ever. You can use this letter as you like for the benefit of others.

Yours sincerely,
GEO. KENNEDY.

TEN REASONS WHY YOU SHOULD SEND FOR THE BROOKS RUPTURE APPLIANCE

1. It is absolutely the only Appliance of the kind on the market today and in it are embodied the principles that inventors have sought after for years.
2. The Appliance for retaining the rupture cannot be thrown out of position.
3. Being an air cushion of soft rubber it clings closely to the body, yet never blisters or causes irritation.
4. Unlike the ordinary so-called pads, used in other trusses, it is not cumbersome or ungainly.
5. It is small, soft and pliable, and positively cannot be detected through the clothing.
6. The soft, pliable bands holding the Appliance do not give one the unpleasant sensation of wearing a harness.
7. There is nothing about it to get foul, and when it becomes soiled it can be washed without injuring it in the least.
8. There are no metal springs in the Appliance to torture one by cutting and bruising the flesh.
9. All of the material of which the Appliances are made is of the very best that money can buy, making it a durable and safe Appliance to wear.
10. My reputation for honesty and fair dealing is so thoroughly established by an experience of over thirty years of dealing with the public, and my prices are so reasonable, my terms so fair, that there certainly should be no hesitancy in sending the free coupon today.

Pleased With Result

Thorold, Ont., Can. Mr. C. E. Brooks, Marshall, Mich. Dear Sir:

My boy was ruptured when he was about two years old. I tried a couple of trusses from local doctors without much success. About five years ago I sent for one of your Appliances and I never noticed the rupture come down after he wore it. When it was worn out (about a year ago), he discarded it and has not since been troubled. He is now 11 years old—skates—plays football, hockey and all kinds of games—without trouble, for which we are very grateful.
