VOL. XV.

CARLETON PLACE, C.W., MAY 31, 1865.

No. 37.

Hurrah for our Riflemen!
Hurrah for our riflemen! Men of our land,
Who have sprung with a brave heart
Not willing or eager to kindle war's brand,
But to guard what that brand might set
burning.

They have limbs for a march—they have
fronts for a blow;
Show them laurels and see how they'll
win them;
They have hands for a trigger and eyes for
a foe,
That will prove the true Briton in them.

Then here's to the Grey, and the Green and the Blue—
Never heed in what colour you find them;
Be sure they'll be dyed blood-red through
and through,
Ere the chain of a despot shall bind them.

Let them come from the plough, from the
loom and the forge,
Let their bugles ring louder and louder,
Let the dark city street and the deep forest
sore,
Prove that Labour makes valour the
pruder.

Let them dwell in sweet Peace, till a mo-
ment may come,
When the shot of an enemy rattle,
And the spirits that slung the most fondly
to home,
Will be first to rush forth to battle.

Then here's to the Grey, and the Green, and the Blue—
Never heed in what colour you find them;
But be sure they'll be dyed a blood-red
through and through,
Ere the chain of a despot shall bind them.

Queen Victoria has written an autogra-
phic letter to Mrs. Lincoln.

The St. Marys Argus states that the oil
company of that town has invited tenders
for boring a test well.

The Cleveland Herald learns that large
quantities of wood are being received from
Canada, and, as a natural consequence,
prices are coming down.

The Brockport Republic states that on
Monday morning last, Peter Krapp, of
Coneseon, C.W., a driver of the boat "Mar-
garet," was accidentally drowned while wa-
tering his team near Cayuga's Basin.

The whole American coast from Georgia
to Florida is covered by United States ves-
sels, to prevent hostile operations by the
"Stonewall," which lately entered Nassau.

Already trains of emigrants, many of
them discharged Union soldiers, have started
from Missouri and other places, to cross
the plains and settle in the Pacific mining
regions.

La Minerve has received a letter from
Rimouski stating that great distress prevails
in that region owing to the scarcity of fod-
der. The cattle have to be kept and fed in
stables. Many of them are hardly able to
stand upon their feet. At the parish of
Ebonbleme alone over a thousand head of
cattle have died from starvation.

In St. Louis, the other day, the relatives
and friends of a young lady who had died
at a distant water-cure establishment, and
whose remains had been forwarded by
express, assembled to take a parting view
of the countenance of the dear deceased,
when, upon opening the coffin, the face of a
man met their gaze. The express man had
blundered, and the body of the young lady
had gone to Chicago.

The easterly winds have brought in a
large fleet to Quebec; 112 vessels reported
from sea and 25 arrived after the Customs
House closed on Wednesday: a number
more were reported at hand. The corre-
sponding period of last year, only 27 ves-
sels had arrived. The Wellington brought
14 men of the Hope of Limerick, lost on the
voyage. The reported disasters so far be-
low the average. The Spring fleet have
made good passages; some left England so
late as the 19th of April.

OIL AT BALISTON SPA.—The people of
Baliston Spa, Saratoga county, N. Y., are
greatly excited by the discovery of petroleum
at that place. The crude article has
been found there in considerable quantities.
Lands have been sold at fabulous prices.
A gentleman from that place in town to-
day continues all that we have heard for a week
past in respect to the excitement prevailing.
—Rochester Union.

AN INCIDENT.—Among the interesting
incidents which are being related in connection
with the evacuation of Richmond, is
one which may be worthy of consideration
among the medical faculty. A colored
girl whose right hand long been defective,
became blind about five months ago,
and continued so until the terrible explosion
of the magazine, which seemed to shake
creation. Recovering herself almost immedi-
ately from her fright, she exclaimed,
"Mother, I can see."

THE FROST.—The frost of Friday morn-
ing appears to have been of wide extent,
and considerable severity. As far south as
Pittsburg, strawberries, grapes and
small fruit suffered. Ice formed at Pitts-
burg as inch thick. In this vicinity con-
siderable damage was done, but not as great
as was at first feared. Along the lake shore
it was much less severe than farther south.

DEATH OF MR. DUNBAR ROSS, Q.C.—
We exceedingly regret to have to announce
the death of Mr. D. Ross, Q.C., ex-Solicitor
General for Lower Canada, which took
place at his residence, St. Louis street,
at half-past ten o'clock, on Tuesday. Mr.
Ross had been for upwards of half a cen-
tury engaged in the practice of the legal
profession; and, during that period, had
obtained the professional rank of Q.C., and
actor as Solicitor General of Lower Canada.

Mr. Ross was well known, not only as a
most energetic public man, but as a very
successful pleader. As a lawyer, Mr. Dun-
bar Ross has ever stood in the first rank
of his profession, and the intelligence of his
death will be received with regret, not only
by the members of his own profession, but
by all who knew him. Since 1809 his in-
fluences have been the possibility of his
taking an active part either in politics
or in professional duties. —*Quebec Observer.*

Close of the Armstrong and Whitworth Competition.

On Wednesday, at Shoburness, two
armor-plates, 4½ inches thick, the manufac-
ture of Messrs. Pettit, Gaudet & Co., near
Lyon, were laid on separate timber frame-
works, without backing, at an angle, not of
38 degrees, but of 45 degrees, and secured
to the frameworks by detached edge-bolts.
The one armor-plate thus secured formed the
Whitworth target, and the other the Arm-
strong target. Against their respective tar-
gets the Whitworth muzzle-loader and the
Armstrong shunt muzzle-loader were laid at
200 yards, the Whitworth firing 12th
charges, and the Armstrong 14th. Changes
at the option of the competitors. The re-
sults were:—

First round—Whitworth steel shot, pen-
etration 3 inches; plate slightly bulged be-
hind; Armstrong steel shot, penetration
entire; hole in rear of the plate 3 inches
square, with extensive area of destruction.

Second round—Under precisely the same
conditions. Whitworth steel shot, penetra-
tion 2½ inches; plate slightly less bulged
than before. Armstrong steel shot, penetra-
tion entire; hole in rear of the plate and
area of destruction the same as before.

Third round—The Whitworth gun now
fired at the Armstrong target, and the Arm-
strong gun at the Whitworth target, for the
verification of the sameness of the quality of
the armor-plates. Whitworth steel shot,
penetration 3 inches; plate slightly bulged
behind. Armstrong steel shot, penetration
entire; hole in rear of the plate and area
of destruction the same as before.

Fourth and last round—This round of
shell was drawn from the guns, owing to
the discovery that a portion of the Arm-
strong shot of the previous round, weighing
about 60 lbs, had dropped near a cottage
500 yards off, burying itself four feet in the
ground. Had it been possible to remove a
bed-ridden female from the cottage, the fir-
ing would have proceeded, but Col. Wil-
mot, the commandant, declined the respon-
sibility of risking the woman's life. The
terrible showers of splinters from inclined
or sloping targets will be a new and unan-
swerable argument in favour of ships with
inclined turrets.

Oil on Big Creek.

A correspondent, writing to the Napo-
les Ledger on the 12th instant, says that last
fall a gentleman, noted in the Wyoming
regions, when upon a visit there struck with
what he believed were indications of oil,
and was rewarded by having discovered a
"leak." The depth reached is about a
hundred feet, but so promising is the pre-
sent yield that the Company have ordered a
pump and intend to commence pumping at
once. Ultimately they intend to sink the
shaft 1,000 feet, as it is supposed that at
that distance from the surface an abundant
flow of oil will be obtained. The facilities
for shipping oil are far superior to those of
any other oil region in the world, being within
five miles of water transport, and about two
by railway, in addition to which it is situ-
ated in a country thickly peopled by wealthy
farmers.

What Constitutes a White Man.

A very important and peculiar case has
been tried before the Wayne Circuit Court
at its present session. It appears that a
man named William Dean was indicted by
the Grand Jury of Wayne County for
illegal voting in the township of Bonelus
at the spring election of 1863. The ground
taken for the indictment was that he was
part negro. On the day of the election he
appeared at the polls and offered his vote,
but was challenged. He took the requisite
oath that he was a voter, claiming that he
was of Indian descent and under the con-
stitution of the State was entitled to the
franchise. The judge, in his charge to the
jury, said that if they considered from the
evidence that the defendant had more than
one-sixteenth part of negro blood in his
veins, he should be considered guilty of the
charge in the indictment; but if he had
reason to believe that the defendant had
no negro blood in him, and that he was a
legal voter, he should be acquitted; and that
if the jury believed him to be a person of
Indian descent, not being a member of any
tribe, he was entitled to vote under the
constitution of the State. The jury, after re-
tiring a short time, brought in a verdict of
guilty on the charges specified. The case
will be taken up to the Supreme Court for
them to decide what constitutes a "white
inhabitant," as the term appears in the
State Constitution.

One of the heaviest run distilleries in
New England has been seized for evasion of
the tax law. The proprietor begged for a
compromise, offering to pay seven thousand
dollars and lose all the liquor seized, but
the Department takes of confiscating the
entire establishment.

A girl forced by her parents into a dis-
agreeable match with an old man, whom she
detested, when the clergyman came to that
part of the service where the bride is asked
if she consents to take the bridegroom for
her husband, said, with great simplicity,
"Oh, dear, no, sir; but you are the first per-
son who has asked my opinion about the
matter."

Mr. Robson, of Little Crosby, won a pe-
culiar wager the other day. He was to
fire and to hit nine out of ten oranges
thrown up in the air. The conditions were
up an orange, throw it up, stop for a
moment and fire at the orange in the air.
Mr. Robson not only succeeded in winning
the wager, but hit eleven oranges in suc-
cession.

The Birmingham Post says that at Bos-
ton, in Lincolnshire, England, there is an
old character or custom, whereby the mayor
of the borough is at liberty, during Lent, to
take a couple of eggs out of every household
exposed for sale in the market. For many
years the mayors have refrained from ap-
preciating this privilege, and it was thought
best, however, to insist on his rights, to the
great indignation of the people, who re-
solved to disregard the ordinance and put
all their eggs in one basket.

A Child Shot.

A little girl between ten and eleven years
of age, daughter of Mr. Thomas McDermott
of this city, was accidentally shot last night,
and lies in a dangerous state. McDermott
came home late, rather the worse for drink;
having a pistol with him which he fired off
several times, after which he lay down and
went to sleep, when his wife took the pistol
from him and hid it under a bed. The child
was in bed at the time, and she saw the
pistol being hidden, and she went to the
bedroom, and she saw the pistol being
hidden, and she went to the bedroom, and
she saw the pistol being hidden, and she
