Father.

In the event of my having any objections, you would not allow me to remain quiet.

Father. Take courage at what you now tell me, for it is God who has made the land, it was him who blessed me on it, the land is ours & you require it of us, we concern you the manner of it, like God & that is the reason we cannot refuse you

Father. Take courage. Take care of our children for it is them who are ^{will be deserving} worthy of compensation -

Father. Take courage & supply us with what our men may want, especially with a Blank Smith & Iron for our accommodation.

Father. Take courage. We would wish that James Fish Hook & John Smith should compose part of the articles which are to be given to us in payment.

Father. We reserve to ourselves the right of Beaver hunting, & hunting generally throughout the extent of the land which we relinquish to you, we require this, because when the inhabitants are in the habit of destroying the Beaver when they happen to meet with their ^{huts} places of refuge.
