The actual amount of payments agreed
to be made for land ceded to the Crown by
the Indians in upper Canada, cannot
exceed \$4155 per ann. but may be
less according to their numbers as each
individual was to receive £2.10 per
therefore should their number decrease
the payment of course become less but
should exceed the original sum, I
was instructed by Major Bowles, then
Military Secretary, that such should be
the terms. no cash payments

What half headed
Dugout is the actual
amount of payment for
land made in goods and
cash, in upper Canada
annually, to the Indian
tribes, for which Govt.
is understood to be paid
by contract with these
Nations

The annual amount of presents paid
to Indians in upper Canada, by the
Montreal Procureur is Nineteen
Thousand Eight hundred & Eighty one
pounds 2/0. Province Currency. What is the amount
of goods spent annually
in this Province to the
Indian Tribes as presents

From their fidelity to the Crown since
England had any intercourse with them
particularly since the capture of Niagara
in the year 1759. and in 1764 when the
Western Confederacy were more strongly
united to the Interest of the Crown. on that understanding
and these presents made
to the Indians.
