

. . *Publisher's Announcement* . .

The Publisher of this Souvenir desires to return thanks thus publicly to The Alexander Engraving Co., of Toronto, who designed the cover and supplied the cuts; to Mr. J. H. Stanton, photographer, for his promptness in executing the views from which the cuts were made; and to the business men of Fenelon Falls, who have supported the enterprise so generously from its inception. We assure the public that any little deficiencies that may be noticed would not be possible if the time for getting out the work had not been so limited. The stock used in the work is not just what we desired, but the Toronto fire is responsible for this, the first paper ordered being destroyed in that great conflagration, since then it has been almost impossible to get the finer lines of coated paper which is necessary in order to obtain the best results from cuts of the quality used in this work.

A few little typographical errors have occurred, the most serious of which we have to apologize for to our Baptist friends, in placing the date of the erection of their church exactly 100 years earlier than correct—a 7 instead of 8 doing the damage. Then again in a few copies the paragraph relating to W. H. Church the date 1890, should read 1860.

It has been impossible for us to do full justice to our Village and the Kawartha Lakes, but we trust at a future date to turn out a second edition on a more comprehensive scale.

R. J. MOORE.

Fenelon Falls, June 18th, 1904.
