

# The Splendid Idle Forties

By GERTRUDE ATHERTON

*Stories of the days of Spanish rule in California "before the Gringo came."*

*New Edition, Cloth, \$1.50*

"Altogether, loving or even living must have been an exciting matter for young people in this splendid idle decade, when, if there was political peace (save for internal wrangling) there was domestic passion of incandescent intensity." — *The Churchman*.

"They are strong and interesting with the gay, brilliant, picturesque interest of that romantic period, when life in the Southern California towns was more theatrical, more like grand opera performances, than anything our busy commonplace, practical civilization nowadays knows anything about."

— *Philadelphia Telegraph*.

"Critically considered, the chief value of the stories lies in the accuracy of their historical setting. The author has got the facts and their proper correlation; but she has also seized hold of something far more precious than mere historical data. She has made captive the sentiments, the thoughts, the feelings, the passions and prejudices which swayed the governing caste in old California." — *Chicago Evening Post*.

"They are curious, bizarre creations, a medley of weird and sinister happenings, of hot love and jealousies, of dancing and merry-makings; the characters a changing throng of dark-eyed, bejewelled Spanish women and splendid caballeros in gaudy serape and jingling spurs, and Mexicans, and Indians, and dingy brown-habited Franciscan padres, with a sprinkling of the conquering coming race, the fair-haired, practical Americans. . . . One gets here a very good idea of the Spanish California, of that life which seems now so remote and so alien that one can scarcely realize that it was a part of our America not sixty years ago." — *New York Commercial Advertiser*.

## The Californians

*New Edition, just ready, cloth, \$1.50*

## Patience Sparhawk and her Times

*New Edition to be ready in the Fall of 1908*

Mrs. Atherton is one of the comparatively few writers of marked popularity whose earlier books remain in demand year after year.
