July, 1918.

In bringing the records to a close at the end of two complete years, it is most fitting that reference be made to an opportunity which occurred for fraternizing between our benefactor, Mr. John Walter, and Major-General Foster, C.B., Director Medical Services, Overseas Military Forces of Canada.

An accidental meeting of Major-General G. L. Foster, C.B., Director of Medical Services, Lieut.-Col. Amyot, C.M.G., Professor of Hygiene, University of Toronto, and adviser of sanitation to the D.M.S. Canadians, with Col. Rudolf, C.B.E., Professor of Medicine, University of Toronto, Consultant of Medicine, Canadians, and Lieut.-Col. John Stewart, Professor of Surgery, Dalhousie University, Consultant in Surgery, Canadians, on the same morning as Mr. John Walter, donor of the Mansion, returned from British Propaganda work in Spain, afforded the impetus for a memorable luncheon at the Officers' Mess of this Unit. It was the only occasion on which Mr. Walter had honoured the Mess with his presence in two years, owing to his absence from England, and the presence of our Director

with the three other Canadian Medical Leaders was a happy coincidence. Mr. John Walter was very courteous in his remarks as to the surprisingly excellent state of his property as he found it after such a long occupation, and expressed his great pleasure and deep sense of gratitude he felt in having been granted the opportunity of having Bear Wood used for such magnificent work, the present magnitude of which had never been anticipated. Major-General G. L. Foster, C.B., assured Mr. John Walter of the sincere appreciation of the Canadian authorities of the generous hospitality afforded this Unit by their happy occupation of his residence, and remarked in a feeling manner upon the entire absence of friction of the slightest nature during our residence here. He referred to the individual gratitude of the thousands of Canadian patients who had been fortunate enough to enjoy the beautiful haunts of nature at Bear Wood, and stated that they would carry home to Canada indelible impressions of goodwill recorded while in his home, which would do much to strengthen the Imperial ties that bind Canada to the Motherland.
