

**SCARLET.**—(Very superior.)—Three ounces of cochineal, three ounces of cream tartar, and four ounces of solution of tin; powder the cochineal, and rub through a bag into blood-warm water sufficient to cover the yarn; when it is a little warm put in the cream of tartar, and simmer, then add the solution of tin—your yarn must be wet with clean water—steep in the dye till the yarn is properly dyed. Dry your yarn before you wash it. This will color three pounds.

Some dyers say that a brighter scarlet may be made by using a weak dye of quercitron bark to make the wood a light orange as a preparation for the cochineal scarlet.

**Cochineal, Powdered do, Cream Tartar, Solution of Tin, Nickwood, Quercitron Bark, etc., to be had at Hart's.**

**A FINE WINE COLOUR.**—One pound of wool, half pound of red wood, one ounce of madder compound. Soak the powdered wood in warm water all night; mix the madder compound with about half a pint of water (in a glass), and add it to the rest; rinse the wool in warm water, and put into the dye, boil about half an hour, take out the wool and rinse in cold water.

A colour almost as fine may be had by using quarter pound of alum, and boiling in the same way.

**TO DYE A SALMON COLOUR.**—Take one pound of wool, quarter of a pound annatto, and a quarter of a pound of soap. Take water sufficient to cover the wool, in which dissolve the annatto and soap; rinse the wool in warm water, put it into the annatto mixture, and boil it about half an hour. The shade may be made lighter or deeper according to the quantity of annatto used.

**YELLOW.**—One pound of wool or cloth, three quarters of a pound of fustic, quarter pound of alum—put all into an earthen vessel and pour on sufficient hot water to cover the wool and keep it warm all night; give it half an hour's boil in a brass kettle and then rinse in cold water. A much deeper and richer yellow may be made by using turmeric powder instead of fustic, and proceeding in the same manner.

Annatto, fustic, turmeric powder, alum, and the following dye stuffs of the best qualities always in stock:

**ANILINE COLOURS, IN CRYSTALS OR LIQUID.**

Magenta, scarlet, mauve, purple, blue, brown, green, yellow, and other colours, in bottles and by the ounce.
