

THE ALUMNI OF KING'S COLLEGE, WINDSOR.

At the General Meeting of the Incorporation held at Windsor, in the month of June, 1849, a desire was expressed by many of the members, particularly those not resident in Halifax, that the Act of Incorporation, Bye-Laws, List of Donors and Annual Subscribers, and last Report of the Committee, should be printed for circulation among the members, and a resolution to that effect was passed;— In pursuance of that resolution the Committee have caused a number of copies to be printed, so that every member of the Association may now have all the information possessed by the Committee and members resident in Halifax.

For the information of those who were not present at the General Meeting above referred to, the Committee beg to state that a vote of £50 sterling, was passed towards the salary of a Professor of Modern Languages, for the ensuing year; and £40 currency was guaranteed to the Principal of the Collegiate School, towards the salary of a second Assistant, which however it is hoped from the nomination of six pupils by the Alumni, free of tuition fees, in consideration of the grant, will prove no burden on the Funds of the Society.

The several objects alluded to in the Report, were carried out at the Encœnia:—The prize for proficiency in the Modern Languages was offered and adjudged; the prizes to the pupils at the Collegiate School were provided and entrusted to the Alumni, and distributed; and the Cogswell Scholarship held by the Incorporation, was also contested and awarded.

The books are at all times open to the inspection of members, at the office of the Secretary, and the Committee will always be glad to see members from the country who may visit Halifax, at their meetings which are held on the first Monday of every month.
