# ONE DAY LATER FROM ENGLAND

By yesterday's mail Liverpool and London apers of the 14th and 13th June were received here, having been brought to New York by the packet ship Siddons, they furnish intelligence on day later than was brought by the Liverpool, but it is not of much importance. The subjoined are the only item of interest that we have discovered.

of interest that we have disco-vred. A war between Tu.key and Fgypt was on the point of commencing. The Tarkish atmy, 50,000 strong crossed the Euphrates. The combined British and French fleets in the Le-vant, will amount, after the joining of 30 ves-sels of war in preparation at Toulon, to 75 sail, under the command of Admiral Stopford. The fleet is to be divided into two -one to vatch the Tarkish, and the other the Egyptian naval forces. The Turkish navy is described: as very formidable ; 10,002 coldiers, acting as maines, were on board of it. The fellwing native of motion termins on

et Manchester on the 11th June. We have, by this arrival, two more days' proceedings in Patiment, but they are of little isterest—the House of Lords not sitting, and the House of Commons being chiefly occupied with the reception of petitions. A very great number of these were presented against the Government plan of national education. Friday, the 14th, was set down for the third reading of the Jamaica Bill. The Bill respecting the rating of tenements.

was thrown out, 94 to 70. A resolution was proposed by Mr. Spring Rice, and adopted, to the effect, that it was not expedient to make any alteration in the duties on sugar and molasses. The debate on the Canada Bill was to be renewed on the 13th.

renewed on the 13th. In the House of Commons, a petition was presented from the Catholic Archibishop and priesthood of Taam, in Ireland, against the national system of education in that part of the kingdon. They claimed the right to regu-late and control the education of their flocks. Mr. Law moved that the petition be rejected, on the ground that the assumption of the title "Archibishop or Tuam" was lilegal. A long and sharp debate ensued, in which Mr. O'Con-nel took a prominent part and the petition was rejected, 165 to 82.

### THE CANADIAN PRISONERS.

THE CANADIAN PRISONERS. June 13.—In the House of Lords'a petition was presented by Lord Brougham from the chandian prisoners—Parker and others— becourts of Exchequer and Queen's Bark. The had never seen a more clear, lucid and in their petition therefore he did, not think be could do better for the petitioners than to cresent that statement to the House. The had had correspondence with Mr. Par-ker, one of the petitioners, and had made his basiness to make some inquiries respecting him. In the result he had found that he had been in a most respectable station of life,

and universally admitted to be an honest and upright man. As to the others, he had been and universally admitted to be an indices any optical man. As to the others, he had been assured they were generally respectable. They were committed to price in thyper Ga-mada to a rate the end of 1857, on a there is a sub-basen, which was being the treasures de outbreak tak place in that colony, so that arey to idenot have been parties to it. Mr. Parker's offence was that of having ritten a letter containing treasonable expres-as. Some of the nationers had surrounder

ins. Some of the petitioners had surre from the terms of the proclamation, which fered a free pardon to all who should surrenoffered a free pardon to all who should surren-der, except the six persons named in that pro-clamation. The governor was not them in a situation to grant a pardon for treason, where upon an act was passed in the prevince of Up-per Conada, enabling the Executive to gram pardon to, those who should confess their of fence and petition for the same, with such conditions as the Governor should think fit to ex to

ions as the correspondences to such pardous. Petitioners stated that when in priso durers of the inprisonment-sufferin distress from the rigor of their confine issues from the rigor of their confine annex to such pardous. The Petition-rs stated that when in prison under durers, of the imprisonment—suffering great distress from the rigor of their confine-ment and the great severty of a Northern winter, they were informed that an act had been passed which they knew nothing of, hut from information representing that it was to enable the Governor to pardon freason, but positively denied, and challanged proof to the contrary, that they were informed of the con-ditions which the said act enabled the Gover-nor to connect with the pardon. They proceeded to state that having heen thus informed that if they would confers the crime where of they were induced to petition the covernor for such pardon, but were totally uninformed of the penal consequence of such a step. It was to be observed here that there was the suppression of important information Th

step. It was to be observed here that there was the suppression of important information n point of law. They list red to those gathled statements, the suppression of infor-mation being equal to a fiction, calculated to ix them with penal consequences. Royal Nory,—Portsmouth June 12th—Lady Paget and family landed on Monday from the Conwallis, 74, Capt. Sir Richard Grant, which ship left to day for Plymouth to be paid off. The Madagascar, 46, Capt. P. Walis, is hourly expected at this port from Jamaica, with a large freight on merchant's account.

We perceive that the New-York papel We perceive that the New-York papers still speak confidently of the sailing of the *British* Queen on the last July, and the adver-tisement respecting her also states that she would leave Portsmouth on that day. The letter, however, from which we published an extract a few days ago, came from very good authority, so that we are left in doubt as to the time on which this mobile stanaer will pro-ceed on her first voyage across the Atlantic. In the event of her leaving on the 1st July, the intelligence of her arrival at New-York may be now hourly expected in Quebec.

We have received Halifax and New Brunswick papers by the Eastern mail, which atrive this morning. H. M. packet Mutine, Licet, Paule, arrived at Halifax on the 7th instant, with the Eoglish mail; letters and papers by this mail, which are to the 8th ult, will be delivered at the post office, here, at 2. The sympathisers in the neighbourhood of French Creek have built a large number of fast sailing boats. As soon as they are finish-ed they are sunk, to prevent their being seized by the Authorities, of which, we think, they run but little risk.

The American flag was never so extensive-ly used by the slavers as at present. About three fourths of the slave cessels boarded by British cruisers are protected by American pa-pers.
