the sale. F. M. Logan, Victoria, B.C., Secretary of the British Columbia Association, is managing the sale.

### Canadian National Exhibition

The twenty-seventh annual meeting of the Toronto Industrial Fair Association was held on Feb. 27th. The report of the board of directors showed that the Canadian National Exhibition of 1905 was a marked success. Special mention was made of the exhibits in the live stock and agricultural classes, being greatly improved in quality over previous years. The daily attendance at last year's exhibition was in advance of any previous year. The total revenue for the year was \$182,163.56 and the total expenditure \$144,868.64, of which \$35,967.68 was given in prizes, showing a net profit of \$37,294.92.

The dates for this year's exhibition will be August 27 to September 10th.

A new process building is being erected at a cost of \$81,000 and plans are also being prepared for the erection of a splendid steel and brick building for the agricultural products at an estimated cost of \$70,000. It is also hoped to have a new live stock arena ready for the exhibition of 1907.

The following directors were elected for the agricultural section: Lient-Col McGillivray, H. R. Frankland, Dr. Andrew Smith, John G. Kent, Colonel Lessard, R. J. Score, W. H. Pugsley and Hon. John Dryden.

### The Supply Exhausted

In the last issue of *FARMING WORLD* we published the announcement of the Canadian Rubber Company's calendar, and subjoined a blank that our readers might use when sending for one. The Canadian Rubber Company advise us that the supply has become exhausted. If you have sent in for one and have not yet received it this will explain the reason.

### CURES

by the thousands—profitable herds and vigorous calves by the score testify to the efficacy of KOW-KURE. It is not a "food"—it is a medicine, and the only medicine in the world for cows only. Made for the cow and, as its name indicates, a cow cure. Barrenness, retained afterbirth, abortion, scours, caked udder, and all similar affections positively and quickly cured. No one who keeps cows, whether many or few, can afford to be without KOW-KURE. It is made especially to keep cows healthy, and healthy cows give more milk, make richer butter and with less care. If you are having any trouble with your cows you can cure them with KOW-KURE. Our book, "The Cost of a Lost Cow," contains many helpful hints, free. Write for it. Dairy Association of the U.S.A., Lynchville, Va., U.S.A.

### FREE

substitutes. If you don't we'll take back any watch and give a handsome refund for the number you give. Write at once to The Home Specialty Co., Dept. 1136 Toronto
