Your Daughter
Is Worthy 'a
College Education

“A residential
college is best”

ALMA Ladies' COLLEGE

begins its thirty-fifth year on September 13th. In considering your daughter's education, it is important to remember that more than ninety out of a hundred girls eventually have charge of a home. Home-making is woman's grandest vocation, and proper training for that sphere is therefore the chief end of a girl's education.

ALMA COLLEGE—a well-equipped home-school—aims to give the training that will best fit the student for life in the home. Thorough instruction is therefore provided for English and the helpful studies of

the Public and High School forms, also Household Science, Health and Hygiene, Music, Art, Elocution and Physical Culture.

In her daily life at the College residence, your daughter will receive careful attention in the important matters of manners, morals, social and religious knowledge.
