

Rest for Mother—Pleasure for the Children

It is not always that pleasure and profit can be combined.

The **New Century Washer** affords the children an opportunity of rendering effective help—and at the same time delight themselves. Ball-bearings and strong spiral springs reduce to a minimum all the work usually necessary. Five to six minutes does a tub-ful.

If your hardware dealer does not carry them, write us for booklet. Sold by most dealers at \$8.50.

GOSSIP.

He who has courage to keep within his income, has little to fear.

Moral cowardice and lack of independence cause most of the heartaches.

Perhaps your work is of a humdrum nature, but your thoughts need not be.

He who never considers his blessings might as well not have any.

Better have little and appreciate what you have than to acquire a feverish desire for more than you can use.

"When I was touring in the south last fall," said Lew Dockstader, "Barnum & Bailey's circus was booked to pitch tents in Macon, Ga. Walking along the street one day, I came upon a group of colored men gazing open-mouthed at a yellow and red poster, which bore in letters of green this announcement: 'Wait. Wait. Wait. The Greatest Show on Earth, Sept. 1.' 'Ah ain't agoin' to dat show,' remarked one husky mulatto to his yellow companion. 'Whah foh you ain't goin'?' was the response. 'Ah's gwan to wait foh de othah show wot's bettah,' he said. 'They ain't no baltah show,' said she. 'Yes, they is,' was the rejoinder. 'It say so on dat bill. Caint' you read? 'Greatest Show on Ea'th' 'cept one.'"

They were from up the State, and were newly wed. Part of the bridal tour included a visit to the aquarium. The fish hatchery exhibit interested the bride, who was of frugal disposition. After watching the embryo water denizens in various stages of development, she said:

"John, dear, you know we agreed to raise our own poultry to save expense. Don't you think it would be a good idea to do the same with fishes? Suppose you see the man in charge here and buy a dozen trout eggs. That will be enough for a start, and you can ask him for directions for raising them. We might put a pan of water in the incubator with the eggs. It looks easy and I'm awfully fond of fish."

Sir Archibald Geikie, in his recently-published "Scottish Reminiscences," says that when he came to write down the many good stories and personal anecdotes which he had received by word of mouth, he was surprised to find there was hardly a single one of them that had not already appeared in print. For example, the Scottish story about the man who snored so loud, in church that "he wakened us a'," he discovered in an epigram of the Restoration, about a sermon by South:

The doctor stopped, began to call:
"Pray, wake the Earl of Lauderdale!
My lord, why, 'tis a monstrous thing,
You snore so loud—you'll wake the King!"

AFTER THE GERMANS.

Mr. Richard Euler, a German farmer, who came from North Dakota and settled in Dryden township, in the Wabigoon district, last spring, is advertising the advantages of the district in papers in the rural constituencies of Germany. He is doing so entirely at his own expense, and upon his own responsibility, and in a recent letter to the colonization branch, said that a large correspondence has resulted, and he is confident that a number of excellent settlers from Germany will come to Ontario. There have been a few additional arrivals at Dryden lately from German settlements in North Dakota, principally owing to the correspondence maintained by Mr. Euler.

A German mechanic from Rome, N.Y., who is going to take up land in the Temiskaming district, called on the Director of Colonization recently. His attention had been attracted by the Department's literature regarding the region, and he said that, having a little money of his own, and not being afraid of work, he was determined to set up for himself. His family accompanies him. His conversation and bearing stamped him as a man of intelligence, just such an other settler as those who at Dryden and in the newer parts of the Province are forming the nuclei of thriving German settlements.

IT PAYS TO RAISE HOGS

as well as other live stock, and by a little judicial forethought and expenditure you can materially increase the profits on them.

The day of saying "Anything is good enough for the hog" has passed away, and now it is, "Nothing is too good for Mr. Hog." Shrewd stock-raisers have demonstrated from experience that good warm pens, sanitary floors and clean troughs pay good profits. It has now been amply proven that our

Patent Steel Hog Trough

fills a long-felt want for a convenient, clean, indestructible trough. It is honestly made, heavy and strong, and fully warranted. The users are our strongest advertisers.

THE RAZOR STEEL, SECRET TEMPER, CROSS-CUT SAW.

WE take pleasure in offering to the public a saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge, and holds it longer than by any process known. A saw to cut fast "must hold a keen cutting edge." This secret process of temper is known and used only by ourselves. These saws are elliptic ground thin back, requiring less set than saws now made perfect taper from tooth to back. Now, we ask you, when you go to buy a Saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other Saw is as good, ask your merchant to let you take them both home, and try them, and keep the one you like best. Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand. It does not pay to buy a saw for one dollar less, and lose 25 cents per day in labor. Your Saw must hold a keen edge to do a large day's work. Thousands of these Saws are shipped to the United States and sold at a higher price than the best American Saws. Manufactured only by SHURLY & DIETRICH, GALT, ONT.

The Low-Down Oxford Cream Separator

is without a doubt the only new and up-to-date machine on the market. The Oxford is a perfect skimmer, easy to wash and turn, and has all parts and bearings interchangeable.

Don't be persuaded into buying an old-style or out-of-date separator when you can get an Oxford for the same price. Write for catalogue.
