

Stock-raisers Getting Better Results Than Ever Before.

If the stock-raisers that are making their stock food at home with Barnes' English Compound did not get the very best results, would they keep on buying it, would they send in for from one to six cans more and tell me that it is the best they have ever used?

If your friends find my formula right, why won't you keep away from the secret preparations and know that you are using the purest medicine in concentrated form? Make a stock food at home that will fatten and condition your stock as it has never been before.

Thoroughly mix one pound of Barnes' English Compound with six pounds of corn meal and three pounds of linseed meal.

I will send postpaid one-pound can of Barnes' English Compound for 50c., or 6 cans for \$2.50, with full directions.

S. G. AMSDEN, Box 668,
Windsor, Ont.

James Douglas, Caledonia, Ont.

Do you want a SHORTHORN bull cheap?

19 months old. Weight 950 pounds. Dam, good milker. Also choice cows and heifers. Write: A. M. SHAVER, ANCASTER, ONTARIO.

QUESTIONS AND ANSWERS. Miscellaneous.

(Continued from page 919.)

Oesophageal pillars and the anti-peristaltic action of the oesophageal walls, are returned to the mouth to be remasticated and again swallowed. Any coarse portions again fall into the rumen to be reacted on, the remainder passes down the oesophageal canal to the omasum, whence liquids flow into the true stomach, while solids are drawn between the leaves of the omasum to be further prepared.

7. It is usually well to purge after an attack of acute indigestion, using 1½ to 2 pounds Epsom salts. Follow up with 2 drams each sulphate of iron and gentian twice daily in a feed of bran, with a handful or two of oil meal added.

SCROTAL HERNIA.

Colt foaled April 24th has rupture in the scrotum. What would you advise doing with it? The colt is strong and all right otherwise.

H. G.

Ans.—Colts generally outgrow this trouble without treatment, but some never get all right. Indeed, treatment is of little avail until castration is performed, which is generally most safely done at one year old. In the operation, which should be performed by a qualified practitioner, the covering or tunics cut through in letting out the testicles are included in the clamps, and the swelling will fill the opening, and the contraction will close it.

DRYING EWES—GARGET.

1. What will help to dry the milk off ewes after selling or taking the lambs off?

2. Two of my sheep took caked bags and lost their lambs. What is cause and cure? If bred again, would they be liable to go the same way? I have been told it is caused by not milking out after lambs are taken off.

G. J.

Ans.—1. Keeping the ewe on dry feed for a few days, and milking her out once a day. Rubbing her udder with spirits of turpentine will help.

2. There is nothing better for caked udder than spirits of turpentine and lard, or goose grease well rubbed in after bathing with hot water. The cause is generally too much milk, or not being milked out. When lambs are weaned in summer, they should be left on the same pasture for a few days, then given the freshest pasture on the farm, and the ewes kept on short or dry pasture for a week or two, and, if need be, milked out a couple of times. Lambs should be weaned at about four months old.

GOSSIP.

Mr. A. A. Colwill, Newcastle, Ont., writes: "I have recently sold the two Shorthorn bulls advertised. Mr. Frank Henry, Jr., of Calderwood, was the purchaser of the roan Lavender bull. Mr. Henry, who never saw this bull until he took him out of the car, writes us that he arrived in good shape, and is highly satisfactory. The other bull went to Mr. John Gordon, of Elizabethtown. He got the red Syme, sixteen-months-old bull, sired by the same bull as Mr. Henry's calf, namely, Donald of Hillhurst, son of Imp. Joy of Morning; this is also a good, thick bull of the right kind, and should be well patronized in the neighborhood. I have a few choice heifers for sale at reasonable prices.

"In Tamworths, I have been selling quite a number all through the winter, and as spring opens out, and the price of hogs improved, my inquiries and sales have increased; but I still have a lot of choice stock to offer, including a dozen boars, from 4 to 6 months old, and a similar number of sows, same age; several sows due to farrow in May, others recently bred, and about 50 pigs, both sexes, from two weeks to two months old. In fact, I never had such a good lot of young stock to offer as at present, and they are nearly all sired by my imported boar, Cholderton Golden Secret, and out of sons sired by Colwill's Choice and Newcastle Warrior, both Toronto sweepstakes boars."

You Want rich milk and plenty of it.
More milk means more money. Better quality means a good reputation.
