Metal ceilings and wall decorations render the interior of your building fire-proof. They also add a beauty and attractiveness which wood and plaster fail to give. The expense and annoyance of constant repairing is done away with. Our catalogue will interest you. It's yours for the asking.

"Raymond Sewing Machine."

### REPORT FROM WATERLOO COUNTY.

TO THE RAYMOND MFG. CO., GUELPH, ONT.

GENTLEMEN,—I wish to make a statement that should be of some encouragement to your firm just at this time when your Company is investing a large amount of capital in shops and machinery for the purpose of manufacturing the "National" Cream Separators. I bought a "National" in December, 1898, and received some practical instructions at the O. A. College, Guelph, in the way of making good butter and putting it in neat form for market. The first year I had nine cows and sold \$45.00 worth of butter from each cow, besides keeping the house in butter and having the skim milk fresh, sweet and warm for the calves. In 1900 I received higher prices for the butter, and made \$52.00 per cow from 12 cows, or a total of \$624.73. I market my butter in Toronto and Woodstock, and can find ready sale for more than I can make. Although I am a farmer, I have sold 93 "National" Cream Separators since I got my own, two years ago. The "National" is profitable to a farmer, whether he makes the butter at home or sends the cream to the creamery. I use a Babcock tester, and find the "National" cannot be beat at close skimming. Wishing you success, and hoping you will be able to supply your agents with machines as fast as we need them, I am,

Respectfully yours,  
Tavistock, March 20, 1901. CHAS. I. ZEHR.
