The Mother's Reply to " Rock me to Sleep." My child, my child! thou art weary to-night Thy spirit is sad, and dim is the light;

Thou would'st call me back from the

To the trials of life, to thy heart as of yore; Thou longest again for the loving care, For my kiss on thy lips, my hand on thy hair, But angels around thee their loving watch keep,

And angels, n d:will "rock thee to sleep." "Backward?" av Onward, ye swift-rolling

Gird on thy armer! Dry up thy tears! Count not thy trias, nor efforts, in vain, They'll bring thee the light of thy childho

again. Ye should not weary, my child, by the way, But watch for the light of that brighter day Not tired of "sowing for others to reap,"
For angels, my child, will "rock thee to slee

Tired, my child, of the "base, the untrue," O, I have tasted the cup they give you, Felt the deep sorrow in the living green Of a low mossy grave by a silvery stream; But the dear mother I sought for in vain, Is an angel presence, and with me again: And in the still night, from the silence so deep, Come the bright angels to "Rock thee to sleep."

Nearer thee now than in days that are flown, Purer the love light encircling thy home,

"I should like to go." "Your mother said you might," said Lizzie,

"I asked her, and then I was sure you would." "Well, if ma said I might, I guess I will; I will hurry home now and do all the examples I can before night. What time will you go?"

"Nellie, put your hood and shawl in their dry. If I had such land, and were desirous and take the things to the kitchen

"You are late. Nellie."

"Are you going skating to-night, Nellie?" " Ves." was the short answer.

She did not eat much, but hurried " Ma, where are my skates?"

"I don't know, child, I suppose in their pro-"Henry Somers is whistling for me," said

dark, and not cotton twine.

wheat used was of a fair quality, and no more.

her brother. After considerable search, the skates were found. At the gate they met Henry and Lizzie. "How slow you were," said Henry.

In a few minutes they reached the pond where a number were already skating. They soon had their skates strapped and buckled on. The girls took har ands and were soon at the other end of the bond.

"Isn't it splendid?" said Nellie. "The best ice we've had this winter," was the

Nellie forgot all about her examples in the pleasure of skating. The time passed rapidly. "What time is it, Willie?" asked Nellie, as she passed him on the ice.

start home at nine."

" It's half-past nine!"

"Why, I didn't dream it was so late-here. Nellie, you can't unbuckle that strap, let me." When they reached home, Nellie took her 4 bushels and 32 pounds per barrel. The "renewing the chain of the past." arithmetic and slate.

"What are you at, Neilie?" her father asked. "I am working my examples." "Put them up, it's after ten o'clock: you

She comforted herself, however, by saying, "I will get through Monday morning."

Sunday-school as much as she generally did. animals to rest on the bare floor. Such persons treatment as above. She did not have her Sunday-school lesson, and her teacher had to call her attention several ilar bed, as a just penalty. Ever afterward, our be a non-conductor of lightning. So notorious

She told her brother about it, and when she had finished, she burst into tears. "Don't cry, Nellie, get up early to-morrow

This comforted her very much; still she was sorely troubled. That night she asked her father

morning and I'll help you; I guess we can get

" If I do, you won't get up," said he.

In the morning he called her.

"That's early," thought she, "I'm so sleepy I guess I will sleep just one minute."

She closed her eyes, and was soon sound tall before the season arrives for setting them asleep, and slept until roused by the breakfast- out. that they touch the sash, and I have frebell. She dressed quickly and went down quently seen the sash proped up to afford them stairs and said she did not want any breakfast. more room. A much better course to pursue is

soil unfit for a good crop after it, till it can re- and to prevent the earth being mixed with fres cover from the deleterious effects of the buck- earth, or dust blown into it by the wind, it was wheat. It seemed to create an acidity in the covered with a small metal plate, perforated with soil, for I noticed, before plowing the next Spring, that sorrel started up plentifully. I abandoned free admission of air only. After growing in the growth of buck wheat from that time, and have the earth for five years, the willow-tree was re can before night. What time will you go?"

"About seven o'clock—good-bye; don't forget."

"No danger of that," said Nellie.

"No danger of that," said Nellie.

As soon as she reached the house, she threw her hood and shawl upon the floor and put the articles she had purchased on a chair. She ran in pstairs, took her arithmetic and slate. She had hardly commenced when she heard her mother's voice—

"The growth of buckwneat from that time, sind has under the soil unfit for a good crop of corn, with proper preparation and culture. In my case, I lost more on the the tree every Autumn were not included in this weight. The earth was then removed from the vessel, again dried in the oven, and afterward her hood and shawl upon the floor and put the wheat. A crop that will create a cold acidity in the soil, so as to sensibily affect the one followard in proper preparation and culture. In my case, I lost more on the three ounces. The leaves which fell from the tree every Autumn were not included in this weight. The earth was then removed from the vessel, again dried in the oven, and afterward her heard her arithmetic and slate. She lad purchased on a chair. She ran the soil, so as to sensibily affect the one followard in the soil, so as to sensibily affect the one followard weighed; it was discovered to have lost only addition and culture. In my case, I lost more on the dabout three ounces. The leaves which fell from the tree every Autumn were not included in this weight. THE Ladies, of the Wesleyan Church at Hantsport, respectfully inform the public, that they intend holding a Bazaar, at that place, early on September 1862, for the purpose of raising funds for the completion of their Church; and take this early opportunity of soliciting the contributions of all who are friendly to their undertaking:

Due Notice will be given as to the exact day,

The Universal Cough Remedy, without the slightest restraint upon its use every hour, and containing no ingredients to debilitate the most delicate constitution, becomes the prefect enemy to all Throat and Lung Complants, from that terror in childhood, Whooping Cough, to old age with its infirmities. For Hoarseness, and Complaints so common to Public Speakers and Singers, it is without an equal.

The following Ladies nave been appointed a Committee to receive all contributions of money or articles for sale, which may be Kindly forwarded to them.

The Ioiu Anodyne, a certain Remedy for Algia, Rheumatism Tooth-Ache, Ear-Ache, Bowe complaints, St. Vitus Dance, Bleeding at the Lungs to that chief of all causes of Insanity and Depres sion, "Loss of Sleep."

For common Head-Ache, and Nervous Sick
Head-Ache, it is a certain cure, and calls for most rial substitute, and assistant to the Tolu Anodyne and Cough Remedy, when cases to which they are

adapted are aggravated by Indigestion, Biliousness &c. To produce all the requirements of a gentle and thorough Family Physic, but seldom more than one is required as a dose.

For Worms in children they are a sure cure.

Real justice to reliable preparations says, "Read the Books," to be found with all dealers, or will be

sent free by the Proprietor; and real character says, "Test them." JOHN L. HUNNEWELL Proprietor Practical Chemist and Pharmaceutist, Commer cial Wharf, Boston, Mass.
