

Stop! Look! Listen!

☐ STOP a moment!

☐ LOOK at this cut of our "CHROMNIC" Krupp Grinding Plate; study it and observe that while it is worn down to a thin edge, $7/16''$ in the center, that it shows no fractures or distortion.

☐ LISTEN to what one of the largest cement companies in the world, owning thirteen plants and who has adopted our "CHROMNIC" Krupp and Kominuter Plates as a standard, has to say about these plates:

"These plates have given us about 1000 hours extra wear, over plates supplied by the Krupp people, the Manganese Plates or any plate that we have used during the past three or four years."

☐ You can't afford to pass this up. Write us
