## BRAKE SHOE SCRAP REDUCED TO THE ABSOLUTE MINIMUM

The Steel Back Brake Shoes here pictured were all worn down practically to the steel back.

The average weight of 100 shoes taken at random from this pile was about 5½ lbs.

The roads using these shoes received about twice as much brake shoe service as could have been gotten from ordinary unreinforced shoes. It paid them and it will pay your road to use Steel Back Brake Shoes.

Manufactured in Canada.
