PEACH WEEK

Early peaches come along about the first of
August.

Late one last until the end of September.

But there is probably ONE week during that
time when every condition is favorable for canning.

Early fruit isn't firm. It spoils quickly, and
hasn't the proper flavor.

Late fruit is hard, small and inferior quality.
In between there is a time when the fruit is large
and ripe.

We think that time is this week. Buy them
here and get the best there is.
