We notice in the St. Croix Courier of this week advertisements of N. R. CANADA'S PREMIER HONORED

His Tribute to the United States

Rt. Hon. Sir Robert L. Borden.

Manchester, April 21.—Sir Robert L. Borden, Premier of Canada, was given the freedom of the city of Manchester to-day. He predicted that after the war German industries would be supported and developed by the most thorough and powerful state organization ever known. He said that if the military autocracy remained in control the possessions and integrity of the British Empire would not remain unchallenged. Referring to the entrance of the United States into the war he said:

"The great kindred nation adjoining the Dominion from which I come, has been mpelled by the relentless and overbearing arrogance and aggression of Germany to take up arms in a common cause of liberty and humanity. From the very foundation of the Republic the traditions of American policy have been consistently opposed to intervention in any European war. They would never have committed this fateful

"Our neighbours are peace-loving people as we are, but those who imagine they are more greatly influenced by material considerations than other nations fail to realize or comprehend the true spirit of the people of the United States. Their astonishing progress and industry and their remarkable capacity in affairs may have led to a false conception, possibly they have some misconception with regard to us. "I hold that the self-governed nations of the British Empire are truly and thor oughly democratic in their purposes, ideals and aspirations as any nation in the world. It has been wittily said that the United States might be regarded as a mon archy under an elective king and the British Empire as a Republic under an heredi-
