TREAMINE STOTE A SEA

THE COURIER.

MONDAY, SEPTEMBER 30, 1850.

The very important question of mileage, con-In a vary important question of mileage, con-sequent upon the acquisition of far distant regions, such as California and Oregon, could not fail to elicit some action this Semionof Congress; and we were, therefore, prepared to fours that provision had been made, restricting the mileage within reasonable bounds. To pay a member of Con-gress upon the old fashioned principle, when he can travel from California to Washington for \$500. can travel from California to Washington for \$500, would be to legalize a stupid fraud upon the re-renue. The object of the mileage system is not venue. The object of the mineage system a de-to put meney in the packet of the Representative, but to assure, by an ample allowance, against the possible contingency of suffering peculiary loss, consequent upon his discharge of a public duty. ociale, in reality, may be like of merchants, who, when they employ an agent to transact business in distant localities, either give ed sum to cover his travelling charges, ask him to keep a memorandum of In the case of Representatives, they are paid a stipulated sam per mile ; but railways and steamboats have galloped into existence since the pay-ing system was adopted ; and an amendment is tial to reduce the rights of all parties to an equality. Such a proviso was introduced into the ate, and will probably be carried into effect, though defeated for the moment in the Commit-tee. It is to the following effect :- " That no Member coming from this side of the Rocky Mountains shall receive more than \$1,000 mileage per Session ; while those from Oregon, California, nd Utah, shall receive but \$2,000.

Havana papers state, that the Cunard mers Caledonia and Hibernia were about to be purchased, under the auspices of the Spanish Government, to form a mail line between Havana and Cadiz; and that the Havanese are already excited at the prospect of a visit from Jenny Lind. They anticipate hearing her in February next, and are already discussing the possibility of the Tacon Theatre being obtained from Signor Marti for her concerts.

Humbolds and the Peace Congress. The London Times, in publishing the subjoined letter of Humboldt to the Peace Congress of Frank-

fort, remarks :--Another voice has been added to those of the Frackfort pescemakers, and it is the voice of a realities of the pattorno, patient the overt Humboldt compounded, after a fashion not uncom-mon among ourseives, between app-obstion of a principle and dislike of a demonstration, by de-patching an epistic of adherence and sympathy to be read at the projected meeting. Unfortunately the letter arrived too late to be put in evidence, but that the moral might not ee lost, it was forwarded to us for publication, and found, in due course, a place in our columns of Saturday. The idealization of a subject in G rman hands is apt to transcerd the ordinary compreh non of Englishmerk, nor is the fort, remarks :of a subject in G rman hands is apt to transcent and ordinary compreh ns on of Englishment, nor is the difficulty is any degree lessened when the result is communicated through the imperated medium of a transtation. If, therefore, the practical sugges-tions contained in the Baron's lett, r appear of less importance than might be expected, some allowance importance than might be expected, some allowane must be made for the peculiar form of his contri

is with the omera of the vessel, excited by liquor as they party on board the vessel, excited by liquor as they were from the first; and the next is with the mer-cantile house sending abroad such a party of des-paradoes without some judicious perion to control and influence them. — Toronto Globe. is about equally young; and although his profes sional acquirements are respectable, he has dis-covered some singular mental peculiarities. Opinion, so far as expressed, on the subject

a proposed constitutional Convention, seems to be about equally divided. But few of the County Sir Edmund Head and his Lady, arriv Councils have yet had an opportunity to take the question up. Prince Edward County Council assed the matter over sub silentio, and Niagar

declined to take any action upon it. Could the sense of the people be taken on the subject, I think there would be found a decided majority of Sir Edmund Head and lady, Governor or Ne

Brunswick, arrived in town yesterday in the steamer Magnet ; and are now staying at Elmsley

The Toronto Industrial Exhibition opened las night. It is neither more nor less than the An-nual Exhibition of the Mechanics' Institute under a new name. On the whole I do not think it sur passes the Exhibition of last year. After a fuller examination I may particularize some articles that appear worthy of notice. In the meantime, there is one important invention that I canno pass over: It is a machine for the application of steam to agricu'ture, not by ploughing, but by digging. In all the attempts to make use of steam

in agriculture, the power has been used in ploughing ; but the machine which I am now describing

MONDAY, SEPTEMBER SD, 1850.

A SNAKE STORT.—A paper published at Char-lestown, in Virginis, tells a story of a negro man in Diawiddia county, sho came to his death, a short time since, in a singuler manner: He was sent i to a field on an errand, and, not returning as soon as expected, search was made, and he was found lying on the ground nearly dead, his eyes atrained from their sockets, and exhibiting the ap-pearance of strangulation. On approching nearer, it was discovered that a large snake had er.wl.d down his throat. They stempted to drew ont the snake by the tail, which attended a few inches out of the negro's mouth, but the tail was drawn in, and the negro's mouth, but the tail was drawn in, and the negro's mouth an entrance in the open mouth of the snake finding an entrance in the open mouth of the negro's root the ground and fell as 'eep, end, the snake finding an entrance in the open mouth of the negro's root he mouth of the negro's mouth but he tail was drawn in,

reis at \$10,56 (# \$10,62) for Mess, and \$8,31 (# \$3,37) for Prime. In Freights the basiness is limited, and the quo-tations not very firm. Engagements of 12,000 bushels Wheat at 5d, 1,000 bules Cotton at \$16d, and Flour at Is 10 dd. To London, we notice en-agements of 1,500 boxes Cheese if 25s; 70 itans Oil Cake, 20s; 4,000 barrels Flour, and 2,500 Turpentine and Resin, Is 6d; 100 pipes Wine, 6s; and 250 barrels Oil on private terms; 1,000 boxes Cheese, 25s; other heavy Goods, 20s. To Havre, Cotton is being engaged at 3 a cent, and other Goods at previous rates. To Holtand, 100 barrels Ashes, and 200 barrels Resin, 26 (# 23); and 100 barrels Oil barrels Resin, 26 (# 23); and to Antwerp, Cotton at 3 a cent, and Ashes, 20s. To od; and 200 barrels Keain, 28 of 28 51; and to Antwerp, Cotton at 1 a cent, and Asbes, 20a. To California, engagements are being made at 60 of 80 cents by good vessels. The ship Rappakan-novk, 1,133 tons, built in Bath, (Me.,) of the best entering and a sub time to be best

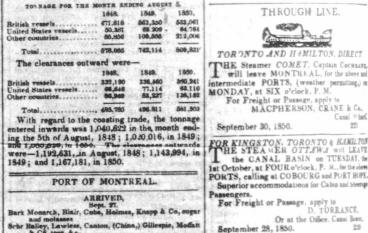

nor K, 1,133 tons, built in Bath, (Me...) of the best materials, and a very large carrier, having taken nearly, or quite, as large a cargo ol Cotton as ever was taken from the United States, sold for this trade at \$35,000. The Money Market continues easy at previous rates. - N. Y. Tribune.

Doors open at Half-past Seven. Enterta The New York Board of Trade returns for the

The New York Board of Trade returns for the month ending the 5th of August have been issued. As compared with the corresponding month of last year, they show a decrease in the declared value of exportations of £324,855. The aggregate value of exports during the first seven months of the present year bas been £37,-808 072, against £32,879,865 in the like period of 1849, showing an increase of £4,922,807. As compared also with the same period of 1848, the increase is £10,682,320. MR. ADAMS respectfully
