Bunnell's letter to her sister at home in this city is in part as follows:
 "Talk about excitement! I had so much of the last three or four days. Last night I don't know how long I will ever forget my experience leaving Paris in 1914.

 I knew it was hard to get across on Thursday went to the can Express Office and bought sets for England, via Rouen, and Southampton. Our plan was to leave Paris early Monday and spend the day in Rouen and to boat across at night they accept travellers checks and I was happy. The streets were outside the (French banks) crowds reached far out into the street. It all seemed so awful that I home and said to Miss Murray do you think about leaving and going straight to England usual she was quite ready to with my plans, so we began to go on the move. Every taxi was with people and luggage was high. The consignment was early in the afternoon to get us, and though the train did not
