# WOUNDS

To Be Minimized and Counteracted By An Antiseptic Treatment.

By Courier Leased Wire. Paris, Nov. 22.—(New York Times Cable)—Miss Maria Davies, bacteriologist for the Robert Walton Goelet Research Fund, has just completed experiments at Ris-Orangeis Hospital, which marks another advance in minimizing wound infec-tions contracted on the battlefield. One of the greatest causes of in-

fecion found in all military hospitals has been pieces of uniforms shot into the body. Miss Davies' experiments consist in treatment of cloth by antiseptic substance so that afmonths of subjection all forms dirt and germs remains absolutely sterile. sults of the experiments are now in the hands of the French and British authorities with a view of having all uniforms at the front treated with the Davies preparation. In England the preparation has had the approval of David Lloyd-George. so for the next consignment of clothes sent to the Tommies such

sterilization has been ordered. Aside from preventing infection of wounds the preparation has another great advantage. In the words of Miss Davies:

"Body lice, which are the greatest discomfort of trench life, will hence-forth find these antiseptic substan-ces entirely inimical to their weil

These whiskies are manufactured at our distillery at Corbyville, Ontario, where we have been making whiskies for the past 57 years. Our plant, with a capacity of 17,000 gallons daily, is the largest in Canada and is also recognized as the most modern and up-to-date. We distill and bottle under government supervision, and guarantee our whiskies to be pure and conforming with all the requirements of the law.

These whiskies have been examined by Dr. Milton Hersey, consulting chemist to the Quebec Government, and found to be pure and of excellent flavor. They are highly recommended for Medicinal Purposes.
