Paralysis Conquered.

AT LAST IT YIELDS TO THE ADVANCE OF MEDICAL SCIENCE.

The Strong Testimony of a Man Who Was a Half-Dead Paralyzed Invalid. He Now Enjoys in Renewed Health and Strength. Doctors Admit that Paralysis is No Longer Incurable.

There is nothing in life sadder than to see a strong man stricken with paralysis. Alive, yet dead to the duties and activities that belong to life, the paralytic, until a comparatively recent period, was doomed to pass the remainder of his days in a hopeless and helpless condition. But since the discovery of the world under the name of Dr. Williams' Pink Pills, those stricken with this formerly incurable disease have now the means of regaining health, strength and activity. Hundreds in various parts of the country who were helpless bedridden invalids have been restored to health by this incomparable medicine. Among those who have been thus fortunately restored to activity is Mr. Allan J. McDonald, a well known resident of Nine Mile Creek, P.E.I. Mr. McDonald says:—"In the fall of 1893 I injured my back, and during the year succeeding suffered great pain. I had no less than four physicians attend me at different times, but without any benefit. Before the end of the year I was forced to give up all active work and was rapidly falling into a condition of utter helplessness. On two occasions the doctors caused me to be placed in a piece of wood. In this half dead state I was kept getting weaker and weaker, with a twitching motion and I dragged my feet when I tried to walk. Finally I lost all power of locomotion and absolutely all power of feeling from the waist downwards, and I was as helpless as a piece of wood. In this half dead and half alive condition I laid in bed for eleven months not able to help myself in the least. Physically I did not suffer much, but mentally the agony of those long weary months cannot be described. I was at last told by the doctor that there was no hope for me, and was doomed to pass the remainder of my days a helpless, half lifeless piece of humanity. Providentially soon after this I read of a case similar to mine cured by the use of Dr. Williams' Pink Pills. It gave me new hope and my friends got me a supply of the pills. After the use of a few boxes I found that life was slowly returning to my limbs. I continued using the pills gradually getting stronger and stronger, until now, after the use of thirty-two boxes I am able to walk about smartly and can do light work, and I feel that I am gaining new strength every day. I cannot express the thankfulness I feel at again being able to go about actively after passing through that terrible ordeal, and I sincerely hope that my experience may be the means of bringing back hope and health to some other sufferer.

Dr. Williams' Pink Pills strike at the root of the disease, driving it from the system and restoring the patient to health and strength. In cases of paralysis, spinal troubles, locomotor ataxia, sciatica, rheumatism, erysipelas, scrofulous troubles, etc., these are superior to all other treatment. They are a specific for the troubles which

make the lives of so many women a burden, and speedily restore the rich glow of health to pallid cheeks. Men broken down by overwork, worry or excess, will find in Pink Pills a certain cure. Sold by all dealers or sent by mail, post paid, at 50c a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y. Beware of imitations and substitutes alleged to be "just as good."

Two "Mormon" preachers from Salt Lake City, are travelling in Leeds County seeking converts. They give themselves the name of Latter Day Saints. They were refused a lodging in New Boyne, on Tuesday last.

THAT DEAD DEMON.
Heart Disease Again Vanquished. Testimony of a Man Who Was a Victim of It in Thirty Minutes.

Mr. John Crow, son of George Crow, Esq., the wealthy and well known farmer, residing near Tara, Ont., sends the following statement, which he desires published:—"For the last ten years I have suffered from palpitation and enlargement of the heart, and during all that time I have doctored constantly, hoping in vain for a cure. Some time ago I saw a testimonial from a Tara citizen regarding Dr. Agnew's Cure for the Heart, and decided to try it. At the time of writing I have used four bottles of the remedy, and never felt better in my life. If I am not already rid of the disease, I am positive this remedy will complete the cure." Sold by J. P. Lamb & Son.

Will Pay the \$3,000.
The case of Mrs. Annie Cameron, of Arrapric, against the Independent Furriers, for \$3,000, was before the assizes at Ottawa last week. The society refused to pay that amount to her on the ground that her husband, the late Dr. Cameron, gave improper answers to questions on the application paper, and was at the time he made the application in bad health. He died of consumption. Mrs. Cameron claimed that her late husband was in perfect health when he made the application, but contracted the grippe in Edinburgh, Scotland, and that afterwards developed into consumption. The case was finally settled by the I. O. F. representatives agreeing to pay the full amount to Mrs. Cameron.

ANOTHER VICTIM OF BRIGHT'S DISEASE.
Because He Had Not Learned of South American Kidney Cure.

Locking the stable door after the horse is stolen is disappointing, and yet in the particular matter of kidney trouble it is done in many cases. Every day the papers are telling of the death of people from Bright's disease, and Bright's disease is only a development of kidney disease, which can positively be cured by South American Kidney Cure. It is not necessary to wait until one has Bright's disease to take this medicine. Why not take it when some of the earlier symptoms of kidney trouble have become manifest? There is only one way to talk of this medicine, and that is to call a spade a spade, and say that it positively and absolutely cures all features of kidney disease. It's most dangerous and it's most distressing. Sold by J. P. Lamb & Son.

NOTES BY THE WAY.

News From Over the River.

A Leeds County Resident Gives an Interesting Sketch of a Short Trip in St. Lawrence County.

On the first of May I passed from Morrison to Brier Hill, and on through the town of Hammond. The grass was much higher than in Plum Hollow. Just 40 years ago, on the 15th of April, grass was high enough to move nicely in the wind. I also noticed that the fences enclosing the Blackriver & Utica R. R. were no better than those along the B. & W.

As I looked over the Comstock Mill Factory, where 125 pounds of pills are turned out and boxed daily (Morris' Indian Root Pills), the agent who furnished the boxes was present and said that almost all the pill boxes used in the United States were made by several factories in a little town called Knox, in Central New York, and this factory took more boxes than any other; that Knox supplied over 100 pill factories with boxes; that each factory would average about 100,000 pills daily. This last statement gave me 1,000,000 daily from 100 factories, and 10,000,000 daily from 100 factories. In amazement, I sublimized, what a mighty element of disturbance!—three billion and a half yearly!—one for every man, woman and child on the earth! No wonder the great American nation is more active than any other people under the sun, actuated as they are by such powerful cathartic influences. Wonder what would be the result of a factory in Ottawa—a 10,000 strong!

We drove down Chippewa street to the bay of that name, to see the white poultry of Mr. T. Allen, on his farm on the bay shore. White Brahmas, White Leghorns, and Mammoth White Wyandots, in an apartment in an immense barn, which has lean-to, etc., all painted in good taste. There are rooms for various purposes in this barn. A separating room contains a De Laval Separator—\$180. Forty easy turns of the crank to the minute separates 600 pounds to the hour, and leaves as fine as cream. Mr. Allen is very well known to a few farmers in Athens and vicinity.

The sun was disappearing behind Cedar Island. One don't soon forget such a picture as the sun presented, the hills and forests, white over all the flood of yellow, golden light, spraying with beauty even the silver-topped breakers, rolling on and on.

At a village I saw a stallion, in good condition, valued at \$2,500, sold for \$170. I wonder if this is the source of the \$2,000 syndicate horses recently sold in the vicinity of Smith's Falls. If so, there is a good field open for speculation in the horse trade. Mr. R. B. McGregor's herd of sixteen pure Frisian Holsteins, which, cures nine heifers, are all milking and are looking well. They are on pasture and get a ration of only two quarts of cream. Mr. Allen is very well known to a few farmers in Athens and vicinity. When they were giving 400 pounds he churned twice a week, each churning producing 75 pounds of butter. I saw a weighed. His Man- net, No. 716, H. F. H. B., was im-

ported direct from Holland. There is a majesty about such cows that the blindest will find opponent of blood seems compelled to admire. Her milk in an even 300 days weighed 10,000 pounds, and in the flush flow she averaged 68 pounds daily. Mr. McGregor admires Canadian stock highly. He has just received two six-months' old Yorkshire pigs from R. Giblin, Delaware, Ontario. He saw a Yorkshire pig not nine months, at the Grand Fat Cattle Show, that weighed 434 pounds. Mr. McGregor expressed a warm desire to see the Unionville exhibit and Mr. Craft Gilroy's champion herd of Holsteins. These two gentlemen's thoroughly practical work in this line will be better appreciated in a few years hence, when its benefits are more generally felt than at present.

The new road-grading machine is a dandy—canopy-topped—and does its work in fine style. It is handsome to look at, and does almost anything but to compete with the creameries. The cream separator, a simple contrivance, improves their butter greatly. Factories were selling cheese on May 5th at from 8c to 9c. A notable bee-keeper has moved in from McComb Co., bringing with him 200 colonies. He is reported to have made himself wealthy with his bees.

Our farmers in Ontario have as much chivalry and are as gallant as any in the world, but they are over-worked to a degree that depletes these elements. The glorious beauty of the sunrise—when it lifts for a moment the ethereal curtains of swiftly changing light, revealing charms that so tapestry the walls and ceiling the blue of the oriental chambers of love—is too far, far away for them to see. The hard day's work is closing. The sun goes down in an opulence of splendour—a wealth of coloring that overwhelms us with joy and transports us in reverential ecstasy to the feet of the Divine Painter. To them, it is a libation. Their backs are turned forever on the vast picture pages in Nature's Book, which God turns daily for them. They are in the Farm Workhouse for life. There is an image of beauty on all sides—in earth—in air—in the sea—their eyes work—like the clearer the beauty becomes.

Our farmers work too hard, and their noble wives and daughters do a little too much outside work. In the hard struggle for life nearly all the sentiment is soon burned out of them. They sink into their graves wearily, and feel that life has not been just what God was willing it should be.

At times, I have thought of this for years. In Michigan—in Ohio—American farmers' families work just as hard, are as busy as ours; but the division of domestic labor is slightly different. The most of the farmers in this country and the Dominion are overflowing with good-heartedness, with kindness and with numerous other laudable and desirable qualities, but, in a measure, they repeat each other. If ever a force is discovered that will bind them together in unity of purpose, so as to form a solid square, a power on earth could resist their advance nor invade and take a single right from them. W. S. Hooton. North Hammond, N. Y., May 11.

CHARLESTON.
Mr. Jack Shea was rusticated at Cedar Park last week.

A grand dancing pavilion will be erected in Charleston on the 25th of May. It will be under the able management of Messrs Charles Flood and John Hudson. First-class music will be supplied.

Mr. Joshua Weart was a guest of Mr. John Cowan on Saturday.

Spring work is nearly finished in this locality.

LAKE STREET.
MONDAY, May 11th.—There is quite an excitement throughout the Hollow, especially on Lake Street, over the wonderful cures performed by a brand new doctor who struck this section last week. He found a man near Lake Street who had been a cripple for a long time with that dreadful disease, rheumatism. He took the case in hand, and by rubbing and anointing the parts affected, he soon had a perfect cure; for the very next day the patient was able to treat his friends to a Highland fling quickstep. The new doctor was so delighted with his success that he told his patient that he considered it necessary that he should also prescribe for his better half in order to prevent her, from catching the same disease. Consent was given, and a liberal supply of the balm applied to the crown of her head, where the Professor said the disease was likely to first make its appearance. This, he guaranteed, would prevent her from ever having the same complaint. We have always had implicit faith in Lanb's Lubricating Liniment or Indian Oil for all such complaints, but the Professor says, "Ugh! No good." The doctor is said to hail from the aboriginal town of St. Regis.

Fishing is good in upper Delta Lake. The new boss on the Stevens' farm is making great improvements in the way of fencing and tilling the soil. Lake Street never was so much alive and running in full blast as at the present. All the West End people are up early in the morning and counting the stars in order to get rich. W. T. Stevens says he is looking after the interests of what little he has. He is a firm believer in the saying that "haste makes waste," and as for him, he is going to take it cool this summer, even if he has to use it.

Rev. W. G. Henderson, of Winnipeg, has accepted the pastorate of George Street Methodist Church, Brockville, Ont., subject to the approval of the stationing committee of Montreal Conference.

POLITICAL NOTES.
McCarthy at Brockville.
A very large audience greeted Dalton McCarthy at his meeting in Brockville last week. He discussed at length the Manitoba school question and denounced the Conservatives for their attitude in relation to it. He said that Laurier would certainly be called upon after the elections to manage the affairs of the Dominion, but as he could not trust the Liberal Leader, to legislate according to his views in respect to Manitoba's schools, he wanted the country to give him about twenty members to keep the Liberals straight. On the trade question he announced the policy that farming industry demanded the Government's first attention, but he would not snap protection away at once. He would go to the United States with an honest offer for reciprocity, not as Sir Charles Tupper had done, and if they did not make terms he would keep up the tariff wall against them till they did, but he would reduce the tariff on British goods, which country gives us free access to her markets. W. J. Cluff was nominated to carry the McCarthy banner in Brockville.

Taylor Again the Choice.
There was a great gathering of conservatives at the convention held at Delta on Wednesday last, the delegates numbering 356. It was expected that there would be three candidates before the meeting, but Dr. Preston declined to accept a nomination, thus leaving the choice between A. E. Donovan of Athens and Geo. Taylor M. P. A. After speeches by the candidates, voting was proceeded with by township and resulted as follows: Donovan, 101; Taylor, 247. On the result being made known, Mr. Donovan moved, seconded by Mr. Jos. Stanton, that Mr. Taylor's nomination be made unanimous, which motion was carried enthusiastically.

The following were delegates from this section:—
ATHENS.
Jas. Duggan, Chairman; Jas. Ross, Secretary; W. F. Earl, Treasurer. Delegates—Wm. Jacob, F. France, Dr. Addison, Jas. Stinson, Sam Fowler, Geo. Pickett, R. J. Seymour, R. N. Dowley, Jas. Paterson, Wm. Karley, Wm. Gibson, John Mulvena, Alex. E. Green, Geo. Hughes, Brock DeWolfe, Joseph Thompson.

BEAR YONGE AND ESCOTT.
A. Johnston, Pres.; E. Duffield, Vice-Pres.; Thos. Moulton, Secy-Treas.; Delegates: No. 1—W. H. Davis, Robt. Ferguson, W. Spence, S. Spence, Hy. Jay, Dr. Giles, Johnston Green, W. G. Johnson. No. 2—Jas. Spence, Jas. Beale, Jno. Fortune, A. E. Moulton, Jno. Dockrill, Thos. Kavanagh, Jas. Ferguson, Jno. Godkin. No. 3—H. H. Moulton, Jno. Mackie, Fred Skovil, Jas. Walker, Edw. Bulford, Thos. Hollingsworth, G. P. Wight, Geo. Whaley.

FOR TWENTY-SIX YEARS
DUNN'S BAKING POWDER
THE COOK'S BEST FRIEND
LARGEST SALE IN CANADA.

The Hollowell, Kas., Enterprise has established a system which seems to meet the want of country journalism. Every man who pays a year in advance is written down as "colonel," the six months man is entitled to "major," the three months man gets "captain," and the party who says "send it along for a while, I'll pay for it," goes on record as the most ordinary kind of "Mr."
