Up in Owen Sound the post office staff have adopted a set of rules for the guidance of the public, which might be applicable to Athens;—"No letters will be delivered until they are received. If you don't get a letter or paper on the day you expect, have the postmaster look through all the boxes and down cellar also. It ought to be there somewhere, and the postmaster likes to hunt for it just to please you. If your friends don't write cuss the postmaster. He is to blame. If he tells you there is no mail for you, put on a grave expression and say there ought to be some. He is probably hiding your mail for the pleasure o having you call two or three times day. Ask him to look again.
