A Message To The Young Men of NANAIMO

Thomas A. Edison Says:

"I have watched the progress of the I. C. S. almost from the very beginning, and, while your rapid growth might be marveled at by some, to me it is easily understood because I realize the practical value back of the I.C.S. training."

Most of your time is mortgaged to work, meals and sleep. But the hours after supper are yours, and your future depends on how you spend them. You can fritter them away on profitless pleasure, or you can make these hours bring you position, money, power, real success in life. Thousands of splendid good-paying positions are waiting in every field of work for men trained to fill them. There's a big job waiting for you, in your present work, or any line you choose. Get ready for it, as many ambitious men (names furnished on application) have done through the

International Correspondence Schools

No matter how limited your previous education, the I.C.S. textbooks make it easy to learn. No matter what career you may choose, some of the 280 I.C.S. Courses will surely suit your needs.

UNIQUE TEXTBOOKS

More money has been invested in the preparation of I.C.S. textbooks than upon any other textbooks ever published. The Course in Architecture cost \$98,000; the Course in Civil Engineering \$88,000; the Course in Textiles \$78,000; the Agricultural Courses over \$225,000. The superior service is always at your command.

I.C.S. textbooks are used for reference and instruction in colleges and universities, in government schools, institutes of technology and vocational schools, in America, by the U. S. Navy Department in its Ship Board Training Schools, and by many of the largest industrial corporations in their training classes for apprentices and employees.

Facts worth Knowing About I. C. S.

Some idea of the great work of the I.C.S. may be had from the following:

First student enrolled October 1891; total enrollment now more than 1,850,000; 7 Home-office buildings—7½ acres of floor space; 3000 employees—25 branch offices—32 foreign agencies; 280 Courses taught; daily postage bill \$700; 32,000 pieces of mail handled daily; 5½ tons of paper used by the Printing Department daily; 600 completed textbooks turned out by the Printing Department daily; advertisements run in 100 national magazines and technical trade publications each day; 250 new students enrolled daily; 250 railroad and industrial companies have entered into agreement with the I.C.S. for training their employees.

Jesse G. Vincent, Designer Packard "Twin Six"

"I take great pleasure in recommending I.C.S. courses to any young man who is ambitious and anxious to get the necessary education to enable him to make the most of his opportunities. I found your system thorough. If the student is conscientious, there is no reason why he cannot accomplish what he set out to accomplish when he enrolled."

"My I.C.S. Course enabled me to obtain the training that was absolutely necessary in order that I might be in position to take advantage of opportunities for advancement as they presented themselves."

JESSE G. VINCENT, Vice-Pres. of Engineering, Packard Motor Car Co.

SERVICE TO STUDENTS

A large department is maintained by the I.C.S. for the sole purpose of helping students to obtain every possible benefit from their studies.

Many of the largest employers in the country are interested in the work of the I.C.S., and, at their request, are being informed regularly concerning the progress of I.C.S. students among their employees.

Successful efforts are also made to secure good positions for deserving students, and competent employees for employers.

When everything has been made easy for you—when one hour a day spent with the I.C.S. in the quiet of your own home will bring you a bigger income, more comforts, more pleasures, all that success means—can you afford to let another priceless hour of spare time go to waste? Make your start today by marking and mailing the coupon in the corner.

There are Some I.C.S. Students in Your Section

In every city in the United States there is a representative body of I.C.S. students. Besides, there are thousands of students in other parts of the world. Our representative will tell you the names of the students in your neighborhood.

Proof Positive That It Pays

Advanced \$100. a Month

I am now receiving \$150 per month; when I enrolled was receiving \$50. This increase was made possible by your splendid instruction. My only regret is that I lost ten years of opportunity by not enrolling when I first went to work in the electrical field.—EDWARD G. CAMPBELL, Municipal Light and Water Works, Crete, Neb.

Chief Engineer at \$2,100 a Year.

I was a machinist at \$3.25 a day when I enrolled. Two years later I accepted a position as chief engineer with the Bowie Lumber Company. My salary is \$2,100 a year. I feel certain that I would never have been able to fill the position satisfactorily without the knowledge received from my I.C.S. Course.—ERNEST LeBLANC, Bowie, La.

Employer Finds I.C.S.

Students Most Efficient

I was a salesman when I enrolled. Am now treasurer and general manager of the F. A. Nauffus Company, Inc. I have thirty employees twenty have taken I.C.S. Courses, and I find these twenty the most efficient. I always advise men to take your Courses.—F. A. NAUFFUS, 220 W. 42nd St., New York, N.Y.
