BRIDGE GAVE WAY.

Another Fatal Accident on the Central Railway
 ---The Engineer Killed.

NORTON, July 6.—Another fatal accident has occurred on the Central railway. This time only one person was lost, and but one seriously injured. The accident occurred at what is known as Wasson's bridge, about 20 miles from here, a portion of the train from Chipman falling through a gap occasioned by the burning of the bridge. The unfortunate man was William Nodwell, the engineer, who met death with his hand on the throttle trying to save the lives of the others of the train crew and passengers. The injured man is Trackman Jackson of the road. His head is considerably cut and several ribs are broken.

The train, consisting of engine and tender, box car and passenger coach, left Chipman on time Saturday morning. In the passenger coach were Redding McPherson of Chipman, C. Purdy of Hampton, Miss H. Brand of Norton, a sister of the fireman. The train was in charge of L. B. Skilleen of St. Martins, brakeman Ernest Murphy, Engineer William Nodwell, Fireman Stanley F. Brand. Mr. Jackson rode in the box car, which was used as a baggage van. The train arrived at Cumberland Bay at 7.40 local time. About thirty yards beyond the station was Wasson bridge, formerly a wooden structure about 60 feet long and 12 feet high. Between the station and the bridge is a sharp curve, with the trees growing very close to the track, and it is impossible to see the bridge until the engine is within twelve yards of it. When the train left Cumberland Bay the fireman was busy in the tender. Suddenly he was startled by the engineer shouting "The bridge is out, jump!" He did so immediately, landing in the brook without injury. The engine crashed into the gap, the tender piling up, upside down, on top. The forward truck of the box car rested on the tender, the upper end being about level with the track. This blocked the line and prevented the passenger car from going down. Fortunately the train

was running very slowly at time of the accident.

Driver Nodwell was found fifteen minutes after the accident, buried under the coal. He had been thrown against the boiler and the water and steam gauge, he was terribly scalded. One eye was gone and the skin was off his hands and arms. The unfortunate man lived between four and five hours. He was conscious all the time, and Drs. Earle and Hay did everything they could to relieve his sufferings. Before he breathed his last he said he could have saved himself had he jumped when he told the fireman to do so, but he tried to save the passengers and after doing all he could, it was too late to jump.

Mr. Jackson, as before mentioned, was in the baggage car when the accident happened. He was sitting on a box and was thrown violently against a seat, breaking several of his ribs and cutting his head quite badly. The other people on the train escaped with nothing more serious than a bad shaking up.

The unfortunate engineer was a single man about thirty years of age, and resided at Hampton. He was a member of the Masonic order, also of the Independent Order of Foresters.

Dr. Earle empanelled a jury shortly after Nodwell's death. The inquest will be held Monday morning. Nothing remains of the bridge, and fire can be traced to within a few feet of the track, so that the disaster was caused by forest fires.

The late Mr. Nodwell will be buried at Hampton at 10 o'clock Monday morning under Masonic auspices.

The loss to the road is estimated at over \$200. It will be three or four days before the damage can be repaired.

The funeral of engineer Nodwell took place at Hampton this forenoon under Masonic auspices, a band furnishing music and was very largely attended.

CHRISTIAN ENDEAVORERS.

CINCINNATI, July 6.—The business meeting of the United Society of Christian Endeavor (the corporation) was opened by President Francis Clark, and special devotional prayers for the late Rev. Dr. Maltbie Babcock, who died recently in Italy, and for Rev. J. Wilbur Chapman, who is said to be seriously ill in Indiana. A resolution of condolence was sent to the relatives of the late Dr. Babcock and a message of good will telegraphed to Dr. Chapman.

The following officers were re-elected: Francis Clark, president; Wm. Shaw, Boston, vice-president; John W. Baer, Boston, general secretary, and F. H. Kidder, Boston, auditor.

The endeavorers made Sunday a busy day. It opened with three meetings of one hour each, held in three of the largest of the city churches and conducted by the Revs. Floyd W. Tompkins, Philadelphia, and Cornelius Wolfkin of Brooklyn.

After the business sessions of Saturday and the evangelical and other mass meetings yesterday, the regular programme of the Christian Endeavorers were held for several of the largest churches in the central part of the city were used in addition to Odeon Hall and the three largest auditoriums heretofore used. Two quiet hour meetings were held from 8 to 9 a. m., conducted by Floyd Tompkins of Philadelphia and Cornelius Wolfkin of Brooklyn. The noon day evangelical services were conducted by Dr. C. L. Wark.

When you have Headache from whatever cause BOWMAN'S HEADACHE POWDERS will be found a safe, prompt and reliable remedy. Nervousness, Biliousness, Sleeplessness frequently cause headache. Use Bowman's they are always safe. Use Opium, Bromides or other narcotics.

NORTH SHORE CROPS.

MONCTON, July 7.—Sections of the country along the North Shore are suffering greatly for want of rain. Forest fires are raging in certain sections and hay and crops are being ruined by drought. A Moncton man who returned from Richibucto Saturday says hay and crops there are burnt up and will be a total failure. They have had no rain in that section for nearly two months and hay and grain crops are now almost past benefiting.

A Strange Sect in Russia Which Practices Human Sacrifices.

NEW YORK, July 8.—The World today contains a St. Petersburg, Russia, despatch, which says: Twenty persons, 12 of them women, have been arrested and imprisoned in the Provinces of Bessand and Kherson, for having been implicated in a new outbreak of Beguny at Rodica. The Beguny is a strange sect, which kills many of its votaries, the victims willingly consenting to the sacrifice. The favorite method of death is by drowning. The sect is a religious fanaticism the Beguny was originally a political and economical organization, its agitations having always been directed towards greater personal liberty and political power for individual members of the society. The political strength of the Beguny was crushed some time ago, but its strange religious features have thrived.

B., for a trial sample box. Small pill, small dose, purely vegetable. Regular size 25 cts. a bottle at dealers.

STRIKERS EXASPERATED.

WATERVILLE, Me., July 6.—It was intended that the doings of the meeting of the Waterville division of the Brotherhood of Railway Trackmen, held in this city last evening, should be kept a profound secret, but such a feeling has sprung up with most members over the result of the recent strike, several are willing to talk tonight. One of the leaders in the strike stated to the Associated Press this evening that the meeting last night was a sensational one for the most part. A former foreman, charged that the general grievance committee which had charge of the strike had sold the strikers to the management.

THE STEEL STRIKE.

NEW YORK, July 8.—The World says: A plan has been agreed upon which will settle the great steel strike within the next five days. As the matter stands all that remains to be done is to hold a final meeting to formally ratify the plans and announce its terms. It may be stated that this early settlement is the direct result of J. P. Morgan's efforts.

THE YACHTS

NEW YORK, July 8.—The London correspondent of the Tribune says the opinion in London is that the Independence is no match for the Herreshoff boat. If she is as much slower as the race indicates, the Lawson protest against the extension act of the New York yacht club will find few supporters in London. Nor will there be much disappointment at the failure of a boat of such an undesirable type.

KILLED BY TRAIN.

ST. LOUIS, Mo., July 8.—While sketching on the tracks of the Burlington railway, near Louisiana, Mo., Miss Eva M. Reed, assistant librarian of the Missouri Botanical Garden and a well known writer on botanical and other subjects, was run over and instantly killed by a passenger train yesterday. She had been almost totally deaf for several years as a result of a fever.
