MINERS ENTOMBED AND SUFFOCATED

(Continued from page 1.)

and stare with terror at the seemingly fruitless work of rescue.

The Naomi mine is one of the oldest operated by the United Coal Company, which has its principal offices in Pittsburg. It was one of the biggest mines of the soft coal region, and gave work to from 200 to 300 men all the year round. The property loss will be enormous, as the mine was equipped at a cost of thousands of dollars with up-to-date appurtenances.

tenances. The explosion completely wrecked the ir system, and that alone means that air system, and that atone means that nothing can live long in the mine.

Thousands are flocking to the mine mouth, where every means known to mine operation is being exerted to reach the men. Aid has been secured from Monongahela City and other nearby towns.

towns.

While some hold torches others are pegging away with pick and shovel to reach their fellow workers. What seems an almost insurmountable mountain of debris is between the struggling workmen and the imprisoned men. Some rescuers are trying to tunuel this, while strenuous efforts to reach the imprisoned men by other means are being made. Superintendent J. D. O'Neill, of the Naoni mine, said to-day:

"The men are working heroically to save their comrades. Mine Inspector M. Loutitt was on the ground immediately after the explosion, and organized a relief corps. He soon brought order out of chaos and divided his men into crews, which were ordered to work one or two

which were ordered to work one or two hours each. In this way we will be able to make the best progress possible un-der the circumstances, keep the work up, and save the resources of the res-

Mine superintendents of all the mines along the Monongahela River volunteered their help in the work of rescue. Their efforts, however, were impeded by the throng of relatives and friends of the entombed men, who ran up to the very pit mouth and cried out in agony for their loved ones.

Special cars with many physicians and undertakers are present to-day, but so far there has been no work for either.

Another Mine Disaster.

Drytown, Cal., Dec. 2.—With smoke still pouring from the shaft of the Fremont mine, hope for the eleven miners who were entombed on Saturday was virtually abandoned last night.

Four Americans are among the victims, the remainder of whom are Italians and Austrians. Austrians.

Toronto's Jack Canuck

(Windsor Record.)

The ungroomed "Jack Canuck" who occupies the foreground in Toronto's press carteous may be like the type that is bred round about Asibridge's bay, but up this way the barber and the tailor have been abroad for a long time. That Canuck of the carteous would make a good subject for one of the Globe's interesting nature studies.

REVELATION FACTS

REVELATION FACTS

To the Editor of the Times:

Sir,—It is scarcely nexessary to reply to the long letter upon above subject signed "Helprograms," in which your cold flood-dishonoring "the statements and the statements of the Son of God made atonement for manking a transgressions by receiving, as manking's substitute, the punishment due to Elernal Justice. But as perhaps the manking substitute, the punishment due to Elernal Justice. But as perhaps the manking substitute, the punishment due to Elernal Justice. But as perhaps the may be some who are in danger of being misled by this so-called "New Theology"—which however is a heresy dating from spostolic times, which from time to time has asserted itself, and of which a recrudescence of the state of late been brought of Scripture that the of late been brought of Scripture that the late of the state of the state of the state of the state of late been brought did indeed bear the punishment for the sins of all who will accept him as their Saviour and their Redeemer. I am, of course, aware that arguments based upon the Bible, have little or no weight with those "reflecting minds" who have deserted the old paths for the heteroday of the "New Church," happily, however, the wast majority of Christians still hold fast their faith hose of elernal flies pages. And that Hold Book teems with references to the great atonement. It will, however, suffice if I quote a few; "He was wounded for our transgressions, he was bruised for our iniquities, and with His stripes we are healed," Isaiah Hill, 5. "Who His own self bare our sins in His own body on the tree," I. Pet. II, 24. "The Son of Man gave Himself a ransom for all." Matt. xx, 28, I Tim., if, 6. "Christian stripes we are healed," Isaiah Hill, 5. "Who His own self bare our sins in His own body on the tree," I. Pet. II, 24. "The Son of Man gave Himself a ransom for all." Matt. xx, 28, I Tim., if, 6. "Christian stripes of our sins, in this own body on the tree," I. Pet. II, 24. "The Son of Man gave Himself a ransom for all." Ma

on this earth who has never transgressed against any one of those commandments? And as such transgressions are recorded on high, how will a man answer the Great Judge when the Accuser brings this record against him? Happy they who having laid their sina upon Him who bore the punishment for them upon the bitter cross, can stand before the Judge cleansed and purified. For they will receive His approving welcome. Well drong sood and faithful servant, enter thanker.

Banker' was entitled to reply to the criticism, and now that it has been made there should be an end to unprofitable controversy on the subject, which cannot be decided by newspaper letters. Space is too valuable to be so wasted.—Ed.

THE APPLE TRADE.

The Montreal Trade Bulletin says: The Abrole Market at present, both here and in the United States, is in a demoralized condition, and heavy losses are said to have been made on Canadian fruit in the English market, and stocks held on this side stand to lose considerable money. There are still large quantities held by shippers and growers in the West who refused high prices some weeks ago, but who, we are informed to day, could not get within 75c or \$1 per to the condition of the following the condition of the following the condition of the following the state of the could have bad \$2.75 to \$5 per to the could not get anything near those figures. Dun's Review.

Confidence is returning, but conservation is still much in evidence, especially in manufacturing. Mills and factories are only operated to fill orders, no accumulation of stocks being permitted pending more settled conditions. Some idle plants have already resumed, however, and in many cases there are ample contracts on hand, but work is curtailed because customers requested to fill orders, no accumulation of stocks being permitted pending more settled conditions.
