PROBABILITIES: Mostly fair and decidedly warm.

If a leak is suspected in your gas pipes, put soapuds over the spot. If there is a leak the soapuds will bubble.

If your meter is showing higher figures than you think are warranted by your use of gas, a leak is the probable cause.

Leaks are both wasteful and dangerous. Be sure your pipes are tight.

PRISON POPULATION DECREASES

The number of inmates of Canadian penitentiaries at the close of this fiscal year ended March 31, 1917, was 7,694, as compared with 2118 at the close of the previous fiscal year. Of these inmates 35 were females as stated in the report of the inspectors of penitentiaries for that period.

Amateur singers should not overcrowd the lungs with air. It is much harder to control the outflow of breath from completely full lungs than it is to do this when the lungs are only comfortably filled.

GROUP UNITS FORMED

Group units to secure foreign trade have been formed at the suggestion of the Canadian Trade Commission in several industries. This means they can compete with American and European firms to get the orders and then redistribute them among their own factories.

PAPAL NUNCIO MAY GO TO PRUSSIAN CAPITAL

ROME, June 6.—In Vatican circles consideration is being given to the project of the creation of a Papal Nunciature at Berlin and it is probable that Monsignor Eugenio Pacelli, now Papal Nuncio at Munich may be transferred to the German Capital. It is reported that Monsignor Pacelli is obliged to leave his post in Munich because of his connection with revolutionary elements in that city.

THE WEATHER

TORONTO, June 6.—The weather is now decidedly warm throughout the Dominion. Thunder storms have occurred in many parts of Ontario and Quebec.

Moderate winds, mostly fair and decidedly warm today and on Saturday.

Amateur fishermen report that the rock bass are biting these days and many fine catches are stated to have been made at the lock two river.

Gardeners are of the opinion that if the present hot spell continues the crop of strawberries will be ruined. The peach trees in this section are also reported as not looking any too good and prospects of a big crop are not very bright.

Hogs are bringing the record price of \$22 per cwt. in Beamsville. Twenty years ago the lordly porker only brought \$3.80 per cwt. In those days pork chops were an every day dish, but now they are more or less of a luxury.

The city hall offices will close at noon tomorrow and on every Saturday throughout June, July and August.

NEW INCOME TAX

OTTAWA, June 6.—All Canada will be interested in the Federal income tax schedule announced by the Minister of Finance yesterday. These imply a substantial increase over the present tax, but no estimate was given of the expected revenue. There is a normal rate of four per cent. upon all incomes between \$1,000 and \$2,000 for unmarried persons, and widows or widowers without dependent children, and between \$2,000 and \$6,000 in the case of all other persons. There will be a rate of eight per cent. upon all incomes above \$6,000 and a graduated surtax commencing with incomes of \$5,000 instead of \$6,000 as heretofore. The Finance Minister gave the following table to illustrate the present and proposed taxation on all incomes from \$6,000 to \$1,000,000 and over for married persons, and widows and widowers having dependent children.

IF KIDNEYS AND BLADDER BOTHER

Take Salt to flush kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passed sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects, whatever. Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

Board of Health Decide to Leave Packing House Question in the Hands of the M.O.H. and Sanitary Inspector.

A short meeting of the Board of Health was held last night for the transaction of regular business. Present were Dr. Calder, W. P. Holmes, Dr. Currey, M.O.H., City Clerk Pay Inspector Bonham and the Mayor who presided. Accounts were passed and a report was received and adopted from the Medical Officer of Health. A resolution was also passed on motion of Mr. Holmes and Dr. Calder that the question of requiring better sanitary conditions at the packing house on Frank St. be left in the hands of Dr. Currey and Inspector Bonham with power to act.

Dr. D. V. Currey presented his report as follows: "During the past month there have been many complaints about surface water and outside toilets on swerved streets. With Inspector Bonham I visited many of these places and advised the draining of any stagnant water and the Inspector notified the owners of premises having outside toilets to have these removed at once if there was a sewer on the street and if not to use dry earth closets."

I received a communication from the City Engineer in regard to the Garbage by-law and his department will co-operate with this board in making all persons use a tightly covered metal container for garbage. This Board should take some action in regard to the city meat supply and in connection with this I would ask each member to visit the market on Saturday and see the way meat for sale is exposed to the sun and many flies are able to walk over it. Much of this meat must be "fly blown" before it is bought. The wholesale butchers deliver meat in open wagons and trucks and the meat is exposed to flies and dust. The retail butchers, so far as I have seen, keep their meat pretty well covered and cool.

We have received dozens of complaints from the residents of Division Street in regard to the odor near the east end of the street. Twice during the month the Sanitary Inspector and I visited this area. We found the race way nearly empty and a great deal of blood had been run into it from Moyer Bros. Limited. This had been partly covered with lime, but not nearly enough was used as the odor was very marked and there were many flies around it. Offal and hair was kept in large barrels uncovered in the yard and there were thousands of flies there. I asked that chloride of lime be sprinkled around any place where there were flies in order to keep down these pests and to prevent the odor and that the offal be kept in galvanized metal containers with a tightly fitting top. The manure should

be kept in a proper receptacle. In my opinion no blood should at any time be allowed to flow into the race way and all windows in this establishment should be screened. There should be no odor from a pork packing plant if everything is kept clean and sanitary and this firm should not leave anything exposed that will draw flies.

Near Moyer Bros. there are two small sewers emptying into the race way and when the water is out this is bound to make an odor and draw flies. This condition should be done away with at once.

I am glad to see that the citizens are using our Complaint Department and Inspector Bonham is to be congratulated on the prompt way he has visited every locality when directed.

There are several cases of chicken pox which have been discovered and which were not reported by the physician. I have given all physicians a list of diseases which must be reported and have asked their co-operation. This Board is giving the city physicians more help than they have ever had before and I think it is only fair that we should receive the same treatment in return.

I attended the M. O. H. Convention in Toronto and many interesting subjects were discussed there and I gave them a brief outline of the work we are trying to do here.

The refrigerator for keeping serums, anti toxins, etc. has been installed in the Inspector's room and much of the equipment for the laboratory has arrived.

All citizens should unite in keeping down the fly scourge by killing every fly possible and by doing away with their breeding places. If there is no fifth around flies can't breed. Every house should have a fly swatter as each fly killed now may prevent the breeding of thousands before the summer is over.

I have not met the Finance Committee in regard to our City Nurse but have been urged by the local Council of Women, the I. O. D. E. and the Trades and Labor Unions that they
