

THE HERALD

WEDNESDAY, JULY 9, 1884.

The Examiner as a Disposer of Justice to Catholics.

In an article last week upon the Government's... The Examiner, took occasion to remark that the selection of the Hon. A. A. Macdonald for that position is an evidence, to use its own words, "that the Government has no prejudice whatever against Roman Catholics, and would not think, as some of our contemporaries have affirmed, of excluding a man from office because he is a Catholic."

Are the Grits Free Traders? For some time past we have been anxiously looking for a definition of the Grit policy for a plain statement of what the Grits would be prepared to do in case we employed them to look after the country for us.

Editorial Notes. AFTER a careful examination of the weekly edition of the Montreal Times of July 7, we are enabled to discover the word "Exiles" more than once. This is a most favorable sign from any point of view.

Some persons complain in the Montreal Times about the impurity of the water supply of that town, whereupon he is assailed next day by several others, who accuse him of attempting to spoil trade.

This is the ninth day of July, and not a hand's turn has yet been done towards the celebration of the Dominion Day. We think it exceedingly fortunate that we have not had a complete fire in the city.

The Examiner is indirectly blaming the cause of the strike by reviving the old unpleasantness between Mr. Brecken and Dr. Jenkins, hoping thereby to damage the latter in the eyes of the Liberal-Conservative party.

The Potato Bug has made its appearance in New Brunswick, and it is too much to expect that we shall escape a visit from the pest. Either we have suffered lightly, if at all, and it is therefore that our people are inclined to be somewhat careless and unprepared for its reception.

THE HERALD lately, and, desirous of quieting its anxiety about the Grit policy, it is reported to have said that the Grits "had a distinctly laid-down policy on the tariff." Now, as this is the very thing we have been advertising for, we are glad to receive it from the lips of so admitted an authority as Mr. Charlton. We quote his speech further. He says: "He often thought it an error to believe that the difference between parties on this subject was so great as was generally represented."

The Egg Industry.

To the Editor of the Herald: DEAR Sir, Your article in HERALD of June 11 interested me, as indicating the prosperity of the egg industry in Prince Edward Island, and as an effort to console the farmers of that province by pointing out the profit there in the fruit of the hen.

Democratic Convention met three years ago, and it is now reported that that quarter, expecting information as to whom they will nominate for the Presidential Chair. Tilden is looked upon as the strongest card, and it is just possible that in spite of his nomination on Bayard, the support of the disaffected Republicans, of whom there are not a few. Yet there is an element of opposition in the party to Cleveland which may lead to the nomination of Bayard, who is, undoubtedly, an able man. Unfortunately for him, he is charged with having made a broken speech before the civil war broke out, although that should not be held against him, as he was then a young man, and the Democrats, whose own record on the question is not the clearest, yet it would be sufficient to estrange a large section of support, and would not be to his advantage.

A number of persons assembled on the Market Square on Wednesday evening last to witness an exhibition of the most valuable and useful of all the products of the human hand, the Grenade. We did our best to be present, and close upon the hour appointed started for the scene, but unfortunately when we arrived we found the exhibition was all over. We are therefore unable to speak from a personal knowledge of the effect of the Grenade. It has, however, been tried in other places, in Scotland, in Halifax, and in other places, and is highly recommended, our own Chief Engineer, Mr. Large, being very favorably impressed with it.

Dastardly Outrages. The following report received from the Grenade is a most interesting one, and one that should be read by every citizen of this province. It is a most interesting one, and one that should be read by every citizen of this province.

The Dominion Government does not intend to make any display at the forestry exhibition at Edinburgh. The Grenade is a most interesting one, and one that should be read by every citizen of this province.
