## TELEGRAPHIC BRIEFS

A SKILFUL GERRYMANDER.

St. Petersburg, June 17.-The news ma was received throughout St. Petersburg with tranquillity, thanks to authorities. Order prevailed yester-day in this city, and in no place in Russia, so far as is known, was there any serious disturbances. News of the dissolution reached the St. Petersburg papers too late for their last charge, the provisions for public saie- creased from \$7,000,000 to \$28,000,000. ty were virtually in the hands of General Hazenkamnf the side to Grand

turned from Krasnoyezlo to assume River Rose Nine Feet on Sundaycommand of the combined garrison, including a guard crops, the 37th infantry division, a large force of cavalry and Cossacks, and several machine gan detachments. The military was chiefly disposed in the industrial section, but a strong force occupied the Tauride palace vicinity. Nobody, not even Duma officials, were allowed to enter the precincts of the palace A laconic notice was posted upon the gates announcing that "Former Depwould receive their salaries upon application to the Chancellory of the Empire. The officer in com-mand of the troops in front of the palace informed the Associated Press that he had orders to disperse crowds collecting without parley, and not to spare the bullets in case of necessity. During the night nine of the sixteen Social Democratic leaders, especially their arrest. Among those who have

named in the government indictment neluding Prince Tzertzereteli and M. Dzhaparidge, were taken into custody The other seven succeeded in eluding the elaborate provisions made for not yet been arrested are M. Ozel, the report of whose capture was unfounded, and M. Alexinsky, who has not returned to Russia. The constitutional democratic deputies, held a caucus and appointed a committee to draft an address to their constituencies setting forth the work accom-plished by the Duma, emphasizing their devotion to their parliamentary labors throughout the session, and crifor the dissolution upon the govern-ment, but it will in nowise correspond in tone with the Viborg address—an owned by McLean Bros., of Vancou-

dent. As a result of the various changes the new Duma will number 442 instead of 524, and the exten of the suffrage to the workmen for which Witte is responsible is practi cally nullified, direct representatives of workmen being retained in only six provinces. But the original ver-sion states that the new electoral law leaves the general basis of the previous law unchanged: That no single class or person possessing the fran chise under the existing class of the population, namely, landowners, pea-

Troubles of the British Government.

As Seen by an Opponent for a New York Newspaper.

New York, June 16.—A special cable to the New York Herald from London says: In offering to Ireland a first instalment of home rule, the great Liberal party has with its eyes open steered straight on to the rocks.

Pumps, where the gas will be used as an explosive power instead of under the boilers. City Engineer Morrison is corresponding with several American and old country firms, and when the pumps are definitely selected, the choice will be to the best that our money can buy. Two pumps will be installed. This will give Medicine that waterworks practically the oreakfast a la the famous Scottish Troubles of the British Government.

As Seen by an Opponent for a New open steered straight on to the rocks.
The manifesto which the Irish Nationalist leaders have issued marks the end of an era in the political history

Witness Located.

Hamilton, June 17.—John Chapman, the missing witness in the Emmerson-Crockett case, and who was a porter at the St. Lawrence Hall, Montreal, in June, 1906, left last night for Fredericten, N.B., to testify for the defence, having been served with a subpoena on Saturday.

Progress of Manufacturies.

Ottawa, June 17—The census and statistics department issued a bulle-at tin today giving the details of the manufacturing products in Canada for manufacturing products in the A visit to the filtration works does defitions but the public was quickly informed through extras, and great posters set out by the police at all street corners containing the ukase announcing the dissolution, and the imperial manifesto. Little enthusiasm or excitement was evoked, and many of the readers as they turned away spat on the ground as a sign of deep contempt. Though General Dracheffsky, prefect of police, was in the labor representatives and the the hottom through sedimentation.

It is a possible to the control of the government members are already talking about passing more stringent rules of procedure in order that the water goes to the stringent rules of procedure in order that the parliamentary business of the Empire cannot be carried on while eighty three Irish Nationalists are always eager to wreach them by obstructing all legislation.

Unionists are predicting that, with an extraordinarily active and general ailsts bent on mischief the government members are the three processes of the nation of the driving in the water goes to the mouster forty-one storey structure now going up—the tallest office building in the world.

According to Ernest Flagg, the architect, the slicing is necessary in proportion to one to sixteen hundred the eleven storey building shal conform in height and outline to end shall about the same level as the pumps. From here it is pumped into the stand pipe. This obviates the nembers are the carry of the mouster forty-one storey structure now going up—the tallest office building in the world.

According to Ernest Flagg, the architect, the slicing is necessary in proportion to one to sixteen hundred and the filtered water drains into a large cement well, where it is practically and the same level as the pumps. From here it is pumped into the construction of the plant, provision is made for flushing and cleans.

The Bankhead miner, who worked in the Transvaal as well as in the former country allows as much the architect, the slicing is necessary in proportion to one to sixteen hundred and the flustration and when the water is extremely divity as it is at this time of year when the swots is either to the business of the mation of the manyor's office at Post and Frank-lin streets. He says that for the mountains, a coagulant is added in proportion to one to sixteen hundred and the filtered water drains into a large cement well, where it is put through the world.

The lather transval as well as in th

> of home rule. They say: "Make it a part of the liberal program in order that rejection of the bill will be instantly followed by the suppression of the upper chamber." That game would be too transparent for the people of England, who after all, are to respect the great influences of great ancestral wealth and public activity displayed by so many members of water commissioners. He was not the company of Chairman Penhale, of the suppression of the filtration system on the cadets, through the ordeal of having this voice tried, and emerged triumphants. He has, indeed, a singing voice water commissioners. His opinion was for the pass. \$1,000,000 in B. C.
