Word is expected from the agents of the company in St. Petersburg, advising of the sentiment in the sian foreign department as to future trade conditions.

A large part of the American ex port trade is in agricultural implements, manufactured by the Interna tional Harvester Company.

A stoppage of this trade, said officials tonight, would mean a serious loss to the company and would mean also the immediate expenditure of a considerable sum to supplement the manufacturing plants now maintain-ed by the International Company near Moscow. These plants were opened two years ago, but they do not supply a fourth of the Russian and Siberian trade. May Cause War With Russia.

Philadelphia, Pa., Dec. 18 .- That the action of the United States government in abrogating the treaty of 1832 with Russia may precipitate a war with that country, was declared by both U.S. Senator Reybourn, of Idaho, and Governor Mann. of Virginia, in speeches at the annual dinner of the New Jersey Society of Pennsylvania here tonight.

Senator Reybourn says that where the cause was just he stood ready to follow the American passport into any foreign land with "Our constitution. ur flag and our cannon." He declared, however, that no person should be permitted to enter this ountry and be naturalized for the purpose of making use of a passport road. Governor Mann expressed his belef that the signs of the times point

to a struggle with Russia in the near future, and he stirred the audience by announcing that if such conditions ever came to pass, he himself would be willing and ready to go out at the head of a regular troop. Appland Taft's Action.

New York, Dec. 18 .- Leaders of the recent agitation on the passport question applauded tonight the action of President Taft, hailing it as a proper step to protect American citizenship. Oscar Strauss, former ambassador to Turkey, said: "The
