### Hr. Grace Notes.

A daughter was born to Mr. and Mrs. Shenstone Parsons on Saturday, Feb. 22nd, and twin daughters to Mr. and Mrs. Samuel Adams on Tuesday, Feb. 25th.

Mr. George Davis, cabman, met with a bad accident in the woods while wood cutting on Wednesday morning. He had just reached the scene of operation and while in the act of felling a tree the axe glanced off and inflicted a gash in his left foot across the instep. The men in the vicinity assisted him to remove the boot, and binding up the foot tightly, he wrapped his fur cuff about it and placed it in the hay bag so as to keep the cold out. He then drove his horse with all speed to the surgery of Dr. Parsons, where six stitches had to be made to close the wound. Mr. Davis's presence of mind saved him the loss of much blood. George's friends are sorry for the accident as it will incapacitate him for some time.

Owing to the Principal, Miss M. Butt, being suffering from a heavy cold, there is no session of Victoria Street School to-day.

A large crowd of interested spectators attended court this forenoon to hear the case brought by Head Sheppard against a prominent resident of Riverhead for sbeehoning. Owing to an important witness being absent on the way from a foreign port, the case was postponed until his return. What amount charging a small admission fee to the court room when interesting cases are on, and the money got in that way be given to the Guy Hospital Fund?

That reminds us to ask what about the Harbor Grace? Perhaps some person will rise and explain.

The British Society's flag is half-mast to-day out of respect for their late brother member, Mr. Mark Walsh, whose death took place at 5 o'clock this morning, after an illness of a couple of weeks. Mr. Walsh had reached the very advanced age of 83 years, and was well known to all our citizens. He leaves four sons and two daughters to mourn their loss. His wife predeceased him by a couple of years. The funeral will take place on Sunday and will be attended by his brother members of the C.B.B.S.

A very good-natured M.H.A., a native of this town, who was here on business a few days ago, while proceeding to his home at the noon hour, noticed a poor man hauling along a load of wood without horse or dog. The M. H. A. at once became very sympathetic and, taking hold of the load, put all his strength to it, for which the man was very grateful. A person who witnessed the kindness thought it would be a good thing to have an election every fall so as to keep the members' sympathetic feelings always to the top.

### Accidents.

Frequently there are accidents at a hockey match but they are not confined to the players alone, as last night Mr. Wilfred Ayre, an onlooker, had an ugly cut inflicted over the right eye as a result of two players hooking sticks at the side of the ice. It was at this particular juncture that Raymond Lilly met with a similar injury to his left eye.

### Hockey

The Feldmans and Victorias tried conclusions at the Prince's Rink last night and resulted in the latter winning by five goals to two.

Despite the fact that conditions were ideal and that the exhibition was excellent there was not a large attendance present. The personnel was:—Feldmans—Hunt, goal; Rendell, point; Collier, cover; Pinsent, rover; Strong, centre; Winter, left; White, right.

Victorias—Vinnicombe, goal; Morrison, point; Ford, cover; Tobin, rover; Lilly, centre; Shortall, left; Brien, right.

At the start the Feldmans got away and worked towards the Vics territory, they were prevented from scoring by Morrison but kept up a vigorous attack and inside of a minute White netted the first goal. Very soon after Pinsent passed all opponents but was unsuccessful in beating N. Vinnicombe who won the game for the Vics. After a short period in which the College boys had the best of it, Strong notched up No. 2.

On resuming play became fast and furious. During a scrimmage Lilly got foul of an opponent's stick and he had to retire for repairs. Just before the half time whistle sounded Shortall scored the first goal for the Victorias. During the next half honours were entirely in favour of the Vics and they succeeded in getting four goals, making a total of five, while their opponents did not find the net once.

Mr. Gus Herder refereed. Timekeepers—Messrs. Carmichael and Howlett. Penalty—Mr. J. Vinnicombe.

### COLLEGE CHAMPIONS.

The Methodist College team are the winners of the Championship in the Inter-Collegiate Division this season and their names are appended. Their victory is doubly congratulatory because they came through the series undefeated, not having a single match drawn with them. This is the second year they have won the Championship in succession. The players are:—A. Moores, goal; H. Wilson, point; M. Stiek, cover; R. Herder (Capt.) rover; M. Churchill, left; B. Lench, centre; W. Gear, right.

### More Light.

Our new 40 candle power lamp can supply more light at less cost than any other system of Artificial Lighting. This lamp is especially designed for use with our new ten-cent Slot Meter. Drop ten cents in the slot, and the lamp will run for 32 hours, giving light of 40 candle power.

Call and get full particulars of our "Special Fitting" Slot Meter proposition, or phone 97.

### Coastal Boats Repair.

The S. S. Prospero which is under going her annual inspection and repairs, will soon be ready to take up her route again.

The Portia will then be overhauled and the former steamer will make a trip to the westward during the absence of her consort.

**LIGHT WANTED.**—A light is badly needed in the vicinity of the old rail way yard, particularly for the benefit of people going to and from the rinks. Last night while returning from the hockey match it was very dark and the ground slippery, and two gentlemen received falls and were shaken up.

### Fishermen's Free Entertainment.

The free entertainments projected next week in the Grenfell Hall for fishermen promise to be a splendid success, as they will be very interesting. Some of the city's leading performers will appear and the management deserves great credit for thus catering to our hardy toilers. These entertainments will be held for the benefit of fishermen, sealers and sailors only, and it will be well for city residents to remember this. Only these can be admitted and it is hoped that no city residents will try to occupy seats to the exclusion of the fishermen. There will be ample opportunity later for city folk to benefit by these entertainments and the sealers should now be given preference. We would suggest to Mr. Jones that to ensure the presence of sealers only in the hall, each man be asked to show his ticket guaranteeing him a berth on a sealer as he enters the door of the institution.

### 'Cascarets' for a Sick, Sour Stomach.

Gently but thoroughly cleanse and regulate your Stomach, Liver and Bowels while you sleep. That awful sourness, belching of acid and foul gases; that pain in the fit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any. Try Cascarets; they immediately cleanse and regulate the stomach, remove the sour, indigested and fermenting food and foul gasses; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. Then your stomach trouble is ended. A Cascaret to-night will straighten you out by morning—a 10 cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

### Items From Fox Harbor.

I see by the ravings of the henchman in the 'Herald' that Morris has done one hundred good things for the Colony, but he never attempts to point out one of the two hundred bad things that he has done.

One of the good things he gives Morris credit for is the advance in the price of fish; but fish has not reached as high a figure under his administration as it did under Sir R. Bond's.

Seven years ago under Bond's administration a fisherman could buy his salt for eighty-five cents per hundred and get seven dollars and ten cents for his fish. To-day, under Morris, a fisherman is compelled to pay two dollars per hundred for his salt and get \$6.00 per qt. for his fish. This, Mr. Editor, is No. 1 of Morris's bad things.

Seven years ago a fisherman could buy 18-thread St. Peter's lines for \$2.60 per doz., to-day he is compelled to pay \$3.25 for his lines and get \$6 per qt. for his fish. This is No. 2 of Morris's bad things.

Seven years ago a fisherman could buy a suit of Tower's Oil Clothes for \$2.00 per suit and get \$7.10 for his fish; to-day he is obliged to pay \$3.50 for his oil clothes and take \$6 for his fish. This is No. 4 of Morris's good things.

Yes, Mr. Editor, I could go on enumerating this sort of bad things for a week, but Patry is very careful not to refer to one of them.

I also notice amongst his bunch of good things, that the Chief has increased the Educational Grant, but if he did so people here in Fox Harbor do not feel the effects very much as we have no school here for the past six months.

We consider it a great piece of imposition perpetrated on us, to have such an important settlement so long without the advantage of a school for our children.

The last day-school taught here, which is just six months ago, there were 72 pupils present, which are compelled to go without schooling ever since, and I do not think this treatment good enough for Fox Harbor at this age. We do not know whose fault it is, but anyhow, we mark it down as No. 6 of Morris's bad things.

We haven't got a school board here, and the writer does not know whether our school comes under the supervision of Argentina Board or not; but if it does, we would be much obliged to that august body if they would supply us with a competent teacher. We also call Mr. Burke's attention to the matter and ask him to interest himself in our behalf and get a teacher for us. It grieves a man, and is actually painful to him, to have five or six children growing up in ignorance through no fault of his own.

I have four children who should be in school, running around the streets, but I cannot remedy the evil as my finances will not allow me to send them where they can get education.

Ship Harbor is another important settlement without the advantage of a school for its rising generation. I was speaking to a Ship Harbor man not very long since and he seems to be in the same box as myself. He does not know what to do with his children, as he cannot teach them himself and he cannot afford to send them where they can be educated. There are four teachers in Argentina and I would not consider it doing too much if our worthy pastor would give us one of them.

Thanking you for space, Mr. Editor, I remain, Yours truly,

INTERESTED.

### Baseball.

The Wanderers' Baseball team met last night and elected officers as follows: President, C. E. Hunt; V.P., A. H. Salter; Secretary, T. V. Hartnett; Treas., Percie Johnson. Messrs. Wallace and Hartnett will represent the club as delegates, when the general meeting of the League comes on. Messrs. Bears, Wallace, Benefield, Montgomerie and Dowden were appointed a committee to make rules and bye-laws. At a meeting of the League, it was announced by Mr. J. O. Havermale, who presided, that a large field had been obtained for the team to practice on. Rooms will

shortly be erected for the accommodation of the players and as soon as the weather permits, the players will get into training. The uniforms and other outfit such as gloves, etc., will be imported. The controlling members of the League are: President, R. G. Reid; 1st Vice-Pres., J. O. Havermale; 2nd V.P., W. J. Higgins; Secretary, P. J. Grace. In addition are the delegates of the teams, namely, Messrs. Power and Treesties, representing the Shamrocks; Messrs. Morris and Hitt, the R. N. Co.; Messrs. McGrath and Summers, the B.I.S.; and Messrs. Hartnett and Wallace, the Wanderers. All information desired can be had on application to the Secretary.

### Bankers Not Returned

The Board of Trade have received information that no bankers have returned to Port aux Basques or Chantrel. For some time past the weather has been story which together with heavy ice has prevented operations. On February 20th it being a fine, clear day a number of boats left for the grounds. Suddenly a strong tide sprang up and a couple of the fishermen lost their trawls.
