EAGLE PASS, Texas, Oct. 1. Six carloads of injured Constitutionalists were moved across the border this afternoon, and the local authorities are at a loss as to what disposition to make of these men.

CONSTANTINOPLE, Oct. 1. It is estimated that 250 persons were drowned or killed as the result of a cloud-burst on Monday night and early Tuesday morning, which resulted in the worst flood ever remembered here.

LONDON, Oct. 1. The Belfast correspondent of the Daily Mail claims high authority for the statement that if Ulster is excluded from the operation of the Home Rule Bill, the present virulent hostility of Irish Unionists will be withdrawn, and the physical force movement cease.

MANCHESTER, Oct. 1. The Lancashire cotton employers decided today to close all mills from October 5th until the strike in the Beehive Mill, Bolton, is settled. The men struck against the advice of their Trades Union, owing to their objection to the personality of one of the over-seers.

MINNEAPOLIS, Oct. 1. Mrs. Ida Teckwood, arrested on a charge of murdering two of her children has confessed, and also to the murder of four others. She acknowledges administering liquid fly poison, but how she got the children to swallow it she refuses to tell. The woman is 35 years of age.

LONDON, Oct. 1. It is stated that Lord Alverstone's resignation is in the hands of Premier Asquith, to take effect on Oct. 12th, the end of the Long Vacation. Sir Rufus Isaacs will probably succeed him and Sir John Simon become Attorney-General. If Isaacs succeeds he will be the first Jewish Lord Chief Justice. The Unionist papers all acknowledge his ability, but condemn the appointment on account of the Marconi scandal.

LONDON, Oct. 1. Mrs. Parnell, widow of Charles Stewart Parnell, is collecting her husband's letters, which will be published in book form. They number 800, and are expected to create considerable discussion. On the day after her announced intention to make the letters public she received over ninety inquiries from various people. The Irish gentleman intimated in threats, should his name be mentioned. The letters are very pungent in all references to political matters.

LONDON, Oct. 1. Extreme Protestants were started by a sermon by the Rt. Rev. Arthur Barran, Bishop of London, delivered

in the services of the Church of England at Southampton yesterday, in which he dealt with the invocation of the Saints. He made a plea for the restoration of that aspect of the doctrine of the Communion of Saints, to which every Christian reciting the Apostles' Creed is pledged. The Bishop said it was a mistake to regard the invocation of Saints, as a question which merely divided the Roman and Anglican churches. It was that, he said, which concerned what was deepest in human nature, and which was agitating the minds of many people at the present time, and also occupying the attention of men of science. It would have to be reckoned with, as much as anything else, if there was going to be a reunion of Christendom. He knew men to whom the invocation of Saints meant everything in life, next to belief in the Trinity. He suggested that the proposed supplement to the Prayer Book should contain some form, recognizing fellowship in prayer between the living and the faithful dead. Nevertheless, he did not wish to run the risk of leading any from good, in order to give comfort to those who would receive a wider vision through reading more completely the Communion of Saints.

LONDON, Oct. 1. The Aurora, a light cruiser of an entirely new type, was launched at Devonport yesterday, and added to the British navy. She was described by Churchill as the destroyer of destroyers. The Aurora displaces 3,500 tons, and was designed for a speed of 20 knots. She uses oil fuel for motive power, is protected with a five inch belt of armour over her whole length, and is armed with guns sufficiently powerful to deal with the most formidable destroyer. Eight of this type of vessel are now under construction, and eight more will be laid down next year.

Practically farmers may easily minimize the loss, due to a backward and cold season, by the judicious use of Sulphate of Ammonia as a fertilizer. Sulphate of Ammonia contains over 20 per cent of nitrogen, as against 15 per cent in Nitrate of Soda, and is therefore more than 25 per cent better than nitrate of soda as a means of quickening and increasing the growth of crops. The use of Sulphate of Ammonia has increased enormously of late years and it is recognized to be the most valuable fertilizer obtainable. By its judicious use the production of root crops per acre may be doubled, and the growth of late crops stimulated. We invite the attention of Farmers to our special pamphlet on the best methods of using Sulphate, copies of which will be forwarded free to any address on application. The price of Sulphate is moderate, and our terms are accommodating. ST. JOHN'S GAS LIGHT COMPANY, Board of Trade Building, St. John's, July 24/13

Triumphant March Through Trinity District

Special to The Evening Telegram.
HANT'S HARBOR, Oct. 1. The "F. P. U." arrived here at 7 o'clock last evening from Ireland's Eye, where a public meeting was held yesterday afternoon which was very successful and where a splendid reception was given the President and party. The people rushed to the waterfront with their guns and in ten minutes the whole town was ablaze with musketry and skyrockets and illuminated with gun powder. The Union men escorted the visitors to Mr. Targett's home where refreshments were partaken of. A torchlight procession was one of the novel features of the occasion; musketry belied forth its welcome for over an hour and was resumed after the meeting closed at midnight. The meeting was held at the Orange Hall which was filled to overflowing, many ladies being present. Not an inch of spare space remained. Mr. Coaker spoke first and delivered a two-hour speech which was eloquent and fluent and carried every hearer and wonderful enthusiasm prevailed. The ovation tendered the speaker as he rose to address the audience was indescribable. The speech was a masterpiece and had great effect. John Stone spoke for half an hour and his speech was much appreciated and applauded. He is popular here and is highly regarded by the people along this shore. Dr. Lloyd spoke for an hour and brought the meeting to a close after midnight. He scored point after point against Graballism. His words were continually applauded. At the close the cheering was wonderful not a dissenting sound being heard. People from various places attended. Hant's Harbour will be true to the ticket and will vote for Lloyd, Stone and Targett. Graballism is done and will be buried on the 30th of October. President Coaker has addressed some 2,400 electors and he states that not more than 300 graball votes will be cast out of that number at the places he has visited. The Ishermen are solid for the F. P. U. and resolved to save their Union on October 30th.

Best Liver and Bowel Cleanser and Stomach Regulator in the World—Work while you sleep. Get a 10-cent box. A Cascaret-to-night will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Bloating, Coated Tongue, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

Rossley's Star Theatre.

There was another crowded house at Rossley's last night to witness the big company in one of their best vaudeville shows. Most of the show was repeated by special request, but new songs and different dresses were introduced. Tommy Levine received great applause. Indeed for a few minutes he could not make himself heard. He has certainly made himself a great favorite in St. John's. Dave Harris also made a great hit. The same show will be given to-night and a complete change is promised for Friday and Saturday—a special farewell show. There are also some new pictures just received from England by the a. S. Digby, and an entire change of pictures will be shown to-night.
