## U. S. Campaign will Bankrupt Huerta Administration.

Special to Evening Telegram.

WASHINGTON, To-day. United support from the Great Powers abroad for the American policy toward Mexico is shown in a variety of quiet diplomatic activities and gave President Wilson and Secretary Bryan a confident feeling to-day that the elimination of Huerta as provisional President of Mexico will soon be an accomplished fact. An exchange of cablegrams with Ambassador Page, an agreement by Britain to leave the situation of Mexican problem in the hands of the states and the announcement that no moral or financial support would be granted by England to the Huerta regime, set forth in the London press dispatches and created a favourable impression throughout official Washington. It was felt that Britain, France, Germany and other nations now stood together in acquiescence to the plan of the States for the elimination of Huerta. "There are elements in this case," said the President, "which I cannot at present disclose, but which make it look to me very much more favourable. Asked about the word favourable, he explained that he meant favourable to settlement. The President gave no details to show upon what his optimism was based, but he made it clear that the primary condition of settlement was the ousting of Huerta and all those who stood for the kind of Government he had been conducting. It

is evident the President had received important despatches, but he declined to say whether they were from Mexico City or Nogales. Constitutionalists' headquarters. Later however it was learned from other high officials that the plan of financial isolation was bearing fruit, and that his plan for Huerta's elimination was being acquiesced in by Foreign Governments, especially some of those which have previously recognized him and upon whom he had come to rely for aid. The situation has progressed to a point in the view of many officials, where the definite rejection of American demands by Huerta would not alter his future materially. Confidence prevails that his drifting into certain bankruptcy and cannot resist much longer the pressure exerted against him. "There is a feeling among Administration officials that if the Constitutionalists are as sincere as has been represented, desiring chiefly the restoration of a Government, little difficulty should be encountered in selecting a man acceptable to both sides for President ad interim. While further arrangements for an election are made, foreign nations have made inquiry as to what might follow if Huerta did not relinquish power and the Washington Government has informally indicated this process of pacification.

## Big Banking Failure.

Special to Evening Telegram.

NEW YORK, To-day. The failure of H. B. Hallins & Co., an old established banking house with international connections, was announced on the Stock Exchange. The liabilities are estimated at \$5,000,000 with assets mostly bank loans of \$2,500,000 to \$3,000,000.

## Severe Gales.

Special to The Evening Telegram.

Three belated liners, the Cambrian, from London; the Hanover from Bremenhaven; the Parisian from Glasgow arrived, each bringing reports of terrific gales and mountainous seas. The Cambrian reported the worst passage in years; on the Hanover storm life lines were rigged to prevent sailors from being carried overboard. Passengers were not permitted on deck for several days.

## McMurdo's Store News

FRIDAY, Nov. 14th, 1913.

If your child needs something to build him up before the cold weather sets in in earnest, get him a bottle of our Cod Liver Oil Emulsion, which is not merely the pure oil emulsified—of course it is that in the first place—but is a skilful combination with hypophosphites, the brain and bone food in a form readily taken into the system and used there. The little ones like our Emulsion, and the benefits which follow its use are generally very quickly apparent. Price 50c. a bottle, small size 25 cents.

If you yourself need a tonic for the same purpose, there is always our Nutritive Hypophosphites, the crack product of our own Laboratory, a tonic of unequalled quality. In bottle, price, 50c. and \$1 a bottle—containing 50 and 100 doses respectively.

ENTERED HOSPITAL.—Mr. James Moriarty, of Salmonier, St. Mary's Bay, Miss Jean Grathwaite, of Spencer Street, City, and Miss Mary Skirrington, of Ligonville Street, entered the hospital to-day to undergo treatment for internal troubles.

## Straight Talk for the Fishermen

There are to-day in Newfoundland over 125 FAIRBANKS Morse engines, all of which were in constant use this past season.

Every one of them gave perfect satisfaction and not even one cost their owners \$1 for repairs since installation. They have been operated in all kinds of weather and have proved our claims that they run as well with water pouring over them as other makes would under ideal conditions. Quite a few have been operated on a mixture of kerosene and gasoline, whilst a considerable number gave perfect satisfaction on pure kerosene.

At the Battery, famous last year for buying engines of a certain kind, Fairbanks Morse gave perfect results this summer, and are regarded as "good engines." We make no extravagant claims or make statements that the Fairbanks cannot substantiate, and when we say that Fairbanks Morse will be the popular engine even at Pouch Cove, we know we are stating facts. Don't take seriously "hot air" selling talk, or pay any attention to abuse, as this latter mode of selling, lately cultivated by some, is the finest compliment that can be paid our engine by competitors. The Fairbanks Morse "Make & Break" engine is the sturdiest, most reliable, most accessible and simplest engine for a fisherman, and as to its durability, it will be running when other engines, even those of the dreadnought type, are in the scrap heap.

If Fairbanks Morse engines are no good, how comes it that there are over 134,000 in successful use to-day? If it is obsolete how is it that nearly 40,000 were sold last year, more than the total output of one large advanced engine? If Fairbanks Morse engines are out of date, why are they being bought now for light-houses?

You are doubtless thinking about buying an engine, so remember we ask you to buy without first inspecting an engine, so remember we don't accept a dreadnought, and then come and look at the Fairbanks Morse running with water pouring over it. You will then realize which type is the fisherman's engine.—Nov. 14th

## Here and There

WEATHER.—The weather up the country to-day is calm and fine with a temperature from 25 to 40 above.

Rt. Hon. Sir Robert Bond was a passenger from Whitebourne by the local, which arrived in the city at 12:15 p.m. to-day.

TRUE BILL.—This morning, the Grand Jury were addressed by the Chief Justice on the bill of indictment against James Hare, for an attempt to murder. The Grand Jury retired and afterwards found a True Bill. James Hare is charged with shooting at Bishop March.

THAT WRONG COUNT.—The operator of Bon-A-Bay has offered to the Superintendent of Postal Telegraphs, Mr. D. Stott, the following explanation: "I inquired from Returning Officer why they didn't send counts to this office. He said it was on blackboard. I got it from people coming from station to office. That's where the miscount came." We thank Mr. J. R. Bennett for sending us for perusal the original messages sent in to him on the investigation.

Last night the police were acquainted of a disorderly scene being on in a house in the East-End, and two constables were despatched there. On arrival they found a young man crazed with liquor, flourishing a knife and attempting to cut his mother's throat. The officers arrested the would-be slayer, who appeared before court to-day and was remanded for eight days. "This is only one of a series of mad acts that have been reported in the city within the past few days."

## Household Notes

A very good filling for layer cake is made by mixing a pound of finely minced shelled almonds with two eggs a cupful of confectioner's sugar and a teaspoonful of vanilla.

Try rubbing the scorched marks on linen with half a raw onion, then wash in the usual way, and if the scorch is not a very bad one the linen will be white again.

Delicious sandwiches for the afternoon are made of raisins and nuts chopped together very fine, moistened with a little whipped cream and seasoned with a little salt.

Stains on blankets and other woollen goods can often be removed by using a mixture of equal parts of glycerine and yolk of egg. Spread this on the stain, leave half an hour and wash.

Cream cheese lends itself to garnishing as well as being palatable. Its softness makes it easy to mold in any shape, and it can be mixed with various condiments into delicious sandwich paste.

A fresh mildew spot can be removed with lemon juice and exposure to the sun. If it is an old spot, dissolve a tablespoonful of chloride of lime in four quarts of cold water and soak the fabric.

Blankets should be washed in cold water, then hung on the line. When nearly dry beat them with a furniture beater. They will be soft and fluffy like new.

There are two leaks in the household which will bear watching: First, the cooking of too much each meal, having a little to throw out; second, the desert habit—rich cakes, and pies, and puddings are expensive and indigestible.

London, Nov. 10.—Chancellor of the Exchequer Lloyd George, in the third of his speeches on his onslaught on landlording, speaking at Middlesbrough Saturday evening, outlined the Government's policy as affecting tows.

Mr. Lloyd George said it was proposed to organize a complete national survey of housing accommodation including an inventory of all slums and insanitary streets and districts lacking cheap and quick transit facilities. The Government intends to empower the municipalities to acquire land at its real market value and also to reform the leasehold system and put an end to unjust rating assessments.

NOTICE.—"Be Sober and Watch."—Members of the St. John's T. A. & B. Society are requested to meet at their Hall on Sunday, the 16th inst., at 2 o'clock sharp, for the purpose of performing the Jubilee at the Cathedral. A large attendance is particularly requested. By order, GEO. J. COUGHLAN, Sec'y.

## Your Duty.

Nothing to do with the Custom House, good friend. Its only reference just now is to yourself. Let us suppose that you are a man of family with sufficient of the world's goods to keep them in comfort. Very well. You did not reach this satisfactory state of affairs without care and labour—few men do. Suppose you are awakened some night with shouts of alarm ringing in your ears. Too late then to talk of prudence; too late then to say: "If I had only, etc., etc." That "If" means too much to many forgetful people. Is it not always the duty of a self-respecting citizen to protect his home and thus provide for those within it. Is it any more than his duty to those depending on him to protect them as far as possible? Can you call your property your own when it is not insured? The answer to this argument is to carry insurance with Percie Johnson's agency, the most popular office in Newfoundland and the least expensive.

On Ground that Rink is a Nuisance to Neighbours.

London, Ont., Nov. 4.—Claiming that curlers are a noisy lot and that in the ecstasy of battle they give vent to war-whoops that offend and ruffle the neighbours, Mrs. Jennie Taylor, of Strathroy, has entered action here for \$500 damages against the officers of the Curling Club of that city. Her residence adjoins the curling ring and she asserts that the curlers are so bothersome during play that the rink is a positive nuisance and should be removed if necessary by the mailed fist.

The suit will be tried with several others at a special session of county court to be held here on Wednesday.

## Action Against Curlers.

Obituary.

The Hon. P. Templeman received a message to-day conveying the sad intelligence of the death of his sister-in-law, Mrs. Levi Templeman. The deceased lady had been suffering from typhoid fever the past six or eight weeks and no doubt her demise was due to this malady.
