## Nova Scotia Mines Abandoned.

### Fourteen Thousand Besco Employees Cease Work--Conservatives Win London Elections by Increased Majority--Furness Withy Place Big Contract With Germany.

**MINES ABANDONED.** SYDNEY, Mar. 6. Following the failure of wage negotiations that commenced last December looking towards a new contract between the British Empire Steel Corporation and its miners in Nova Scotia and which passed through many stages including the appointment of a conciliation board, a hundred per cent cessation of work in practically every coal mine of Nova Scotia commenced at eleven o'clock to-night involving some fourteen thousand men. With the exception of one or two small collieries on land privately owned, not a single ton of coal will be mined in any of the great mines that constitute the most important single industry of the Province. The utmost good order marked the abandonment of the pits by the miners. As fast as the men were raised to the surface they dispersed to their homes and in a few minutes the pit-heads became silent and deserted. No pickets will be allowed at any of the collieries by U.M.W. officers unless it becomes absolutely necessary, it was announced from headquarters at Glace Bay to-night.

**100 PER CENT STRIKE AT SPRINGHILL.** SPRINGHILL, N.S., Mar. 6. Approximately 1300 miners ceased work in the Springhill collieries of the Dominion Coal Coy. here to-night, in accordance with strike order issued yesterday by the Executive of District 26, United Mine Workers of America. This number includes every employee of the collieries down to the last horse boy and the strike was pronounced one hundred per cent.

**PICTOU MINES VACATED.** NEW GLASGOW, N.S., Mar. 6. The collieries of Pictou County were vacated by the miners to-night at eleven o'clock, following meetings of U.M.W. locals, when it was decided to walk out in conjunction with the Cape Breton miners. With the exception of several privately owned collieries the strike is one hundred per cent. About 1000 men are involved.

**NO NEW DEVELOPMENT.** HALIFAX, Mar. 6. At a late hour this evening there was no indication that any new development would avert the strike of the Cape Breton miners, who have announced their intention of ceasing

Vancouver Montreal St. John's, N.S.

**PREPARATORY TO THE STRIKE.** HALIFAX, N.S., Mar. 6. At one this afternoon Premier E. H. Armstrong wired J. W. McLeod, District President of United Mine Workers of America, Glace Bay, the following: "While we deplore the outcome of negotiations with the company as intimated in your telegram yesterday, trust you and your executive will exert your good offices in safeguarding public interests at Glace Bay. To-day horses were being removed from the mines and pumps in a number of cases were dismantled preparatory to a stoppage of work. At Sydney Vice-President J. E. McLurg announced that the corporation intend to maintain their collieries to the best of their ability and might have to appeal for assistance. District President J. W. McLeod, of the U.M.W., reiterated his contention that the district had the support of international headquarters in the action taken. Measures for the relief of destitution in the coal fields are receiving the attention of various bodies throughout the province.

**A SUGGESTION AND A THREAT.** WARSAW, March 6. A German proposal to guarantee peace at a price which is understood here to consist of revising her eastern frontier so as to take away territory from Poland, has caused intense feeling in Polish official circles.

**FURNESS WITHY ORDER GOES TO GERMANY.** LONDON, Mar. 6. A contract for the construction of five 10,000-ton cargo motorships at prices so much lower than those quoted by British shipyards as to be almost sensational, has been given by Furness Withy & Coy., to the Deutsche Wert, a Hamburg firm. The quotations by the German firm were

more than £60,000 lower per ship than the tenders of the British firms. Furness Withy and Company then offered to give the contract to any British firm which would name a price for each ship £10,000 higher than the German figures. Even this proved impossible.

**ANOTHER COAL STRIKE PENDING.** FAIRMONT, W. Va., March 6. All union and non-union workers in the West Virginia coal fields will be asked to strike on April 1st, it was asserted to-day by V. A. Bittner, General representative of the United Mine Workers in this district.

**MURDOCK PASSES THE BUCK.** OTTAWA, March 6. The matter is, we understand, receiving the attention of the Nova Scotia Government, and that Government alone has authority to deal with all the questions involved, said Hon. James Murdock, Minister of Labour, this morning, in regard to the situation in the Cape Breton coal fields. Therefore, continued Mr. Murdock, no action is contemplated here.

**CONSERVATIVES WIN.** LONDON, March 6. Municipal Reformers, or Conservatives, were again re-elected on a majority for the eighteenth year, when the elections for London County Council took place to-day. Of the 124 seats the Reformers won 83. The Labourites or Socialists have gained 18 seats at the expense of the Progressives, while the Reformers have gained one seat and consequently decisively confirmed their majority.

**EARTHQUAKE SHOCKS CONTINUE.** QUEBEC, March 6. "We have not had a wink of sleep for the past three or four days, and it is getting to such a pitch that we are living in constant dread, we don't know what is coming next, the suspense is awful and if the present condition continues, we will have to evacuate our homes, that is all there is to it." Thus spoke a resident of Baie St. Paul yesterday, as he stepped off the train. He said the disturbances had gained a strong hold on the nerves of the people. There has been no let up. The shocks have been felt at intervals ever since last Saturday night, and to tell the honest truth, we are afraid, he concluded. Last reports from the St. Lawrence River substantiate these statements. There are to the effect that last evening's Lamalbal and Les Eboulements, the strongest shocks since Saturday, were felt shortly before seven o'clock. Houses were shaken but no serious damage was reported.

**TRADES UNION POLITICAL FUND BILL REJECTED.** LONDON, March 6. The House of Commons this afternoon formally rejected the Trades Union Political Fund Bill, against the adoption of which Premier Baldwin argued on the ground that a question of such importance should not be decided summarily in the manner proposed. The Premier's amendment to this effect was carried by a vote of 235 against 153. A handful of Scots members from Clydeside refrained from attendance in the House to-day in protest of a fellow member, David Kirkwood. Other Labor members who walked out were present in full force.

**WHERE EGGS MUST BE GRADED.** OTTAWA, March 6. For buying ungraded eggs, W. J. Findlay, of Listowel, Ont., was a week fined by Magistrate C. A. E. Godgrich, \$100 and costs or in default of payment, two months in jail.

**ACCIDENTALLY KILLED.** WOODSTOCK, N.B., March 6. Russell Durling, 26, was killed day in a mill at Skiff Lake, near here, when a shaft broke and struck him on the head.

**NO LONGER CHATELLES.** ST. HELENS, Jersey, Channel Islands, March 6.—The Jersey Statute Parliament has passed a new property act giving women the same legal rights as men. Since feudal days they had been legally termed chattels.

**RECEIVES DEATH SENTENCE.** MONTREAL, March 6. Will George Watkins, aged 21, was found guilty this evening of the murder of Francis Xavier Beauvais, on

## A NEW COACH

Recognizing the demand for a truly comfortable and economical car of the coach type, Dodge Brothers have provided it.

The new Coach reveals a characteristic maturity of design—in the low-slung lines of the body, in the arrangement of the interior for five-passenger comfort, and in the exceptional dimensions of the doors and windows.

The car is Duco finished in Dodge Brothers blue with a bouy stripe of groundche yellow. Fittings and fixtures are first quality throughout, and balloon tires are standard equipment.

So far as riding comfort and dependability are concerned, it is only necessary to add that the Coach is built on Dodge Brothers sturdy chassis and cushioned by Dodge Brothers slung springs.

### The Royal Garage, Agents,

LESTER & ELTON, Proprietors.  
CARNELL STREET ST. JOHN'S, Nfld.
