Aylmer has a Chinese restaurant of which any town or city might well be proud. The premises are as neat and clean as it is possible to make them, the meals served are first-class, and the prices very reasonable. It is patronized by the best citizens of the town and district, the proprietors mind their own business strictly, and pay their obligations far more promptly than many white men. We are not being paid for the above advertising, but all the same, the foreign restaurateurs deserve it. Lately the Celestials have been having some trouble with half-drunken men from neighboring cities, who, because those are at liberty to make a rough-house out of the premises. On Monday evening there was a disturbance created, and it cost the disturbers over \$12 to keep from going to jail. Another smart Aleck tried his hand on Tuesday night, and Constable King promptly collared him, and Magistrate Summers assessed the offender \$7 for his "fun." The Chinese restaurant is a respectable place for respectable people, and the Police Magistrate promises the next offender against law and order the full limit of the law, and if the case warrants it, a term in jail without the option of a fine.
