Ultimately they will come into effect. The proposed changes are really based on pointers from the federal depart-ment of agriculture, and aim to give the city a supply of raw milk free from

tuberculosis germs.

The federal department is making an offer to different centres to carry on the work of inspecting herds as to tuberculosis for two years, the centre to then take up the work and continue the inspection. J. H. Saunders said that if it going to benefit the city it should by all means be adopted.

The board decided to accept the prin-

ciples laid down and the secretary will write to the department of agriculture, Ottawa, to this effect, and ask if it would be possible for the department to send a man here to go into the whole question. It was thought that possibly. while here, he could address a meeting of the farmers and outline the benefits of the scheme for the farmer as well as the city.

Report on Fair Grounds. Sanitary Inspector Sanders made a air grounds during fair week. He was not altogether pleased with what he found and suggested a number of changes. These would be costly. J. Mr. Saunders also suggested that there should be signs ointing to the location of the different

A Mr. Sauter, residing on East street, complained to the board about the stench coming from the fertilizer plant. He wanted to know what could be done about it. The board did not hold out about it. The board did not hold our much hope for him. Chairman Cunningham said that it was a legitimate industry, and J. H. Saunders said that the plant had been moved there, into the country at that time, at the request the country at that time, at the request the country at the country

the country at that time, at the request of the city, and the city had followed it out.

The same resident also objected to the wagon of the fertilizer plant going down East street with dead horses hanging out of the wagon. He suggested that it be suggested to the company that the wagons be routed down Hall street instead. The board thought that it might be able to do something along this line, but up spoke Sanitary Inspector Saunders, "And then what about my place?" He added that to ask the change down Hill street would mean that the wagons would have to go further east on the Hamilton road and would pass his place. The board dropped it like a red hot iron.

The sanitary inspector complained about the wagon of the fertilizer plant standing on the market for a coupie of hours on market mornings gathering stuff from the wholesale butchers, who sell on the market. He said that the members are: George H. Belton, A. S. Blackburn, Ald, John Bridge, Lieut. Col. W. G. Coles, Major Hume Cronyn, M. P. E. R. Pennis, Col. W. M. Garris, R. P. The varying breezes of the hot summer brought varying kicks and complaints bout the stench from this wagon Chairman Cunningham also received these objections. The board decided that from April to November in future the wagon must collect its stuff from the butchers, also the hides, and be off the market by 9 o'clock. It cannot re-

Even more wonderful and deeply hrilling is the pictured production of 'Experience' than was the stage presentation of this great play presented here last winter. As the feature offer-ing at the Grand Theatre for the bal-ance of this week, the picture, which includes many scenes not presented on the stage, should appeal both to those who have and those who have not seen who have and those who have not seen
