THE FALL WEATHER

HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville Ont.

World's Record Wheat Crop

In view of various claims of world's record wheat crops for large areas, the Crowfoot Farming Company of Crowfoot, Alberta, submit a sworn statement of their results for the year 1915 which probably surpass all properly authenticated claims from other sources. From 1956 acres the Crowfoot Farming Company received an average yield of 61 bushels, 56 1/3 pounds per acre of number one spring wheat, by actual selling weight; 400 acres wheat averaged 59 1/2 bushels per acre. These records were established in the Canadian Pacific Railway Irrigation Block in Southern Alberta.

Good soup stock is made with lean, juicy, uncooked beef.

Pickles should be kept in a dark, dry place in stone or glass jars. If whipped cream is to be flavored, it should be done before the cream is whipped.
