DEATH OF MRS. GEO. BERRY

The late Sarah Nickles, beloved
wife of George Berry, who passed
away at Camlachie on March 31st,
was born in 1839, in the parish of
Bishop's Nympton, Devonshire, Eng.,
where with her husband, they raised
a family of twelve children, seven of
whom are still living. Two sons died
in infancy; one in 1897, in India,
serving Queen and Country, and two
daughters, who remained in England
after their parents left their native
land. Mr. and Mrs. Berry came to
Canada to a home provided for them
by their eldest sons and lived at
Ravenswood, for six years, and then
they moved to the 6th line of Plym-
pton. After living there until three
years ago, they moved to Camlachie
to spend the rest of their days in
peace and quietness. She leaves to
mourn her loss, her husband, three
daughters and four sons, Mrs. Rich-
ard Hosegard, of East Jordan, Mich.,
Mrs. Walter Johnson, Mary and Ern-
est, of London; Henry of the 6th line
of Plympton; John of Sarnia town-
ship and Edwin at home. She was
laid to rest in Wyoming cemetery on
April 4th.

Some Sarnia physicians announce
that they will not give liquor prescrip-
tions to any patient not in bed sick.
Some people will now take to their
bed on very slight provocation.

CHILDHOOD INDIGESTION

Nothing is more common in child-
hood than indigestion. Nothing is
more dangerous to proper growth,
more weakening to the constitution
or more likely to pave the way to
dangerous disease. Fully nine-tenths
of all the minor ills of childhood
have their root in indigestion. There
is no medicine for the little ones to
equal Baby's Own Tablets in reliev-
ing this trouble. They have proved
of benefit in thousands of homes.
Concerning them Mrs. Jos. Lunette,
Immaculee Conception, Que, writes:
"My baby was a great sufferer from
indigestion, but the Tablets soon set
her right and now I would not be
without them."—Baby's Own Tablets
are sold by medicine dealers or by
mail at 25 cents a box from The Dr.
Williams' Medicine Co., Brockville,
Ont.

A Man is just as Young and Strong as his Blood

No man can fight the battles of
life and hold his own if his blood
is not pure, for rich, red blood
is what strength is based upon.
When you see a strong, vigorous
man, who never knows when he
is licked, you may wager that
such a man has coursing through
his veins rich, red blood. Many
people have thin, pale blood.
They are weak, tire easily, be-
come discouraged quickly, and
sometimes feel like giving up the
struggle. Such folks need Dr.
Pierce's Golden Medical Discov-
ery, which is sold by druggists
in liquid or tablet form.

Send 10 cents to Doctor Pierce's
Invalids' Hotel in Buffalo, N. Y.,
for a trial package of the tablets.

NIAGARA FALLS, ONT.—"I have used
Dr. Pierce's Golden Medical Discovery
at times for the past three years with
wonderful results, and I take great
pleasure in saying a word to boost the
cause of 'Freedom from Illness.' I
am a pressman by occupation, which
is quite fatiguing and injurious to the
system, but since taking the 'Discov-
ery' business has no drawback for
me. Three cheers for Doctor Pierce's
medicine!"—WILLIAM H. DEMPSEY,
Jr., 32 Bridge Street.

AGRICULTURAL INSTRUCTION IN ONTARIO

From the grant of \$1,000,000 made
annually by the Dominion for agri-
cultural instruction, the Province of
Ontario receives \$336,303 for the
purposes contemplated. Of the latter
amount, \$115,000 was devoted in
1919-20 to the agricultural college
and to the agricultural school and
farm at Kemptville, \$126,000 to the
agricultural representatives, and
\$40,000 to elementary agricultural
education including household science
and manual training as applied to
work on the farm. The remaining
\$55,303 is used in various ways, such
as demonstrations and instruction in
vegetables growing, the encourage-
ment of co-operation and instruction
in marketing, the development of
Women's Institute work, the exten-
sion of short courses, demonstra-
tions with vegetables and hardy
fruits in New Ontario, and in other
ways, all tending to the advanc-
ment of agriculture and improve-
ments in rural life. How the progres-
sive work coming within the province
of the Act has been fostered is
illustrated by the fact that while five
years ago there were no live stock
shipping clubs in the province, there
are now three or four hundred; by
the creation of egg circles and the
extension of co-operation in the mar-
keting, not only of eggs and poultry,
but of many other farm products; by
the extension of the agricultural
representative system to practically
every country in province; by the
increase of agricultural co-operative
associations, from 102 with a mem-
bership of 2,850 and a business turn-
over of \$281,355 in 1914, to 329
associations with a membership of
15,123 and a business turnover of
\$5,278,106 in 1918; by the expendi-
ture in five years from the grant of
\$691,313 on the Ontario Agricultural
College and the Agricultural School
Kemptville; by the extension of short
course teaching; by the development
of school and home gardening; and
by the greatly increased number of
school fairs. In 1914, only 264
schools with 208 school and 56 home
gardens qualified for grants, but
five years later, 1,020 schools with
588 school and 432 home gardens
qualified, while 1,500 public and sepa-
rate schools conducted classes in
agriculture and qualified for grants.
Also in 1919, 33 high schools had
adopted agriculture as an optional
subject as against only 11 in 1914.
In 1914, the number of schools in
the province engaged in garden work
was but 208. In 1918 it was 588,
and in 1919, close upon 700. In 1909
there were only three school fairs
held in the province; in 1919 there
were 357, with 11,823 entries. It is
estimated that only 250 people saw
the first school fair with 58 children
taking part, whereas in 1919, no
fewer than 92,600 children and 107-
590 adults attended the fairs.
