

General News.

The queen, on the 6th, reviewed six thousand soldiers at Aldershot. Her Majesty was received with great enthusiasm. New York, July 5.—Lizzie Kallita, aged 31, from Nova Scotia, was found in a state of insensibility in Washington square, on Saturday. She is delirious and violent, and has been taken to a padded cell, in Bellevue hospital. It has been discovered that Mr. Whitney, the detailing secretary of the Montreal harbor board, squandered the whole of his widow's money, and is now a pauper. He sold it and diverted suspicion by paying the dividends out of his own pocket. The St. John Globe of Thursday says: "Private telegrams received from Barbados this morning state that molasses has advanced one cent per gallon. Dealers here have advanced prices in sympathy with Barbados market." On Monday last week a school of fifteen large porpoises were driven up the Joggins river, Digby. They were blockaded by boats and canoes until the tide had fallen, when they were killed and captured. A fire in Charlottetown, P. E. Island, on Wednesday morning, destroyed twenty-two houses and two stores valued at \$400,000. It originated in the workshop of James McDonnell, Kent street, and is supposed to have been caused by drunken persons obtaining entrance to the workshop and accidentally lighting the shavings. The Chicago Journal reckons up the cost of the late strike of bricklayers in that city to the westward directly affected thereby at \$2,463,000. The chief cause of the strike was the change of the weekly pay day from Saturday to Monday. The society shows two things: the loyalty of the strikers and the lack of wisdom in their leaders. Fortify the system, by the sea of Ayer's Sarsaparilla, against diseases peculiar to hot weather. This medicine induces a healthy action of the stomach, liver and kidneys, cleansing them to prevent the accumulation of the poisons which produce disease. A fierce encounter to a finish, with skin gloves, took place just out of Boston, last week, in which Henry Moore, (color, ed), middle weight champion of Massachusetts, fought with a man named Miller, and a silver cup representing the championship was won by Moore. The men were evenly matched, but in the eighth round Miller landed a terrific blow on his opponent's forehead, after which Moore failed to respond to the call of time by the referee, and Miller was awarded the fight. RAIN WASTED.—A Marquette farmer says that if they do not have rain pretty soon their crops will be totally ruined. The ground is so dry that in a great many places it has cracked open in great seams, and even the trees are withering and fields where ten tons of hay were cut last year will be now mowing at all this year. He says it is dangerous to plant anything now, as the soil is so dry that it would be almost impossible to subdue. BOSTON LETTER. St. John, June 30.—The body of Oliver D. Smith, of Harwood creek settlement, Sumbury, who disappeared on December 8th, was found on Tuesday about three miles from Smith's home. The body was discovered a short distance from where Professor Hunter, the St. John clairvoyant, said it would be found. The body was covered with leaves and brush. The clothes seem to have been cut in the back and there is a bruise on the left cheek. Everything indicates that the man was murdered. Professor Hunter will go to Sumbury county this morning, and he thinks he will be able to point out the murderer of the man. WORTH YOUR ATTENTION.—Cut this out and mail it to Allen & Co., Augusta, Maine, who will send you free, something new, that just comes out every week. As wonderful as the electric light, as genuine as pure gold, it will prove of lifelong value and importance to you. Both Allen & Co. bear expressions of starting you in business. It will bring you in more cash, right away, than anything else you can do. Anyone anywhere can do the work, and live at home also. Better write at once, then knowing all should you consider that you don't care to engage, why no harm is done. HALIFAX MARKET.—The following quotations are dated July 5th, and are furnished by Messrs. McLeod Bros., Halifax. Butter, choice dairy, 17 to 18; rolls in boxes, eggs per doz., 15; hams and bacon, per 25 lb, best quarters, 45; dressed, 45 to 50; mutton, by carcass, 6 to 7; veal, do, 4 to 5; turkeys, per lb., 10; fowls and chickens, pairs, 4 to 5; bayonet, \$1.50; oats, bush, 35 to 40; hay, ton, \$15.00 to \$17.00; wood, skids, to; dried apples, per lb., 6. TIDE PHENOMENON IN BAY OF FUNDY.—A peculiarity of the tides of the Bay of Fundy, occasionally noted by navigators, is the increased velocity of the ebb and flow, which has been the cause of many casualties to shipping. Two coincident instances of the effect of this unusual strength of flood tide occurred last week when the barque Queen of the Fleet and the schooner Unbeaten went ashore within a short distance of each other, and the long distance north of their regular reckoning.—Yar. Herald. A BOYCOTT IN EASTPORT.—Hancock Assembly, Knights of Labor, of Eastport, Me., has adopted resolutions setting forth that whereas many business men have given their names, since the fire, to men from the neighborhood of Eastport, and that the members of Hancock Assembly, No. 6, 272, K. of L., do pledge themselves, to, as far as possible, ignore the claims of these men to their patronage, and hereby resolve that they will not trade with any business man who has not stood by them during the period since the fire, nor call on any professional man, either physician or lawyer, or any other man, at any time, except those who have shown themselves ready and willing to help the working men of the town of Eastport, by giving them work at fair wages. Co-operation, which has not made much progress in America has been vastly more successful in Great Britain. The British co-operative societies now possess more than 1,400 stores doing an annual business of more than thirty millions sterling. During the past year the working class have been by means of co-operation, done a business exceeding £231,000,000. In the neighborhood of Oldham, in Lancashire, there are many cotton mills at work, with capital to nearly £20,000,000, the greater part of which has been subscribed by the men who are themselves working in the mills, and out of money saved through co-operation. STORIES OF SMALL-POX.—By a Montreal despatch of the 7th inst. "The Argonaut" reports that a small-pox epidemic is now in progress at Yarmouth, N. S., of which vessel it was reported a man had died with the small-pox, arrived here this evening, and Dr. Laberge, medical health officer, at once quarantined the vessel. It was learned that the vessel left Brazil on the 18th May; that one of the crew, named MacNeil Banaant, fell ill with small-pox. He was isolated and cured in 10 days. The steward afterwards took sick and died, of inflammation of the bowels, which probably gave rise to the epidemic. Captain Leary says he did not know the regulations, and did not stop at Grossé Isle. Dr. Laberge, will have a full report on the matter, and express the belief that the officers at Grossé Isle do not do their duty. Give Them A Chance! That is to say, your lungs. Also your breathing apparatus. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them. When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do better. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are led, all ought to be got rid of. There is just one sure way to get rid of them. That is to take Bosche's German Syrup, which any druggist will sell you at 15 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. A special meeting of the Church of England at Halifax last week at which a bishop was elected a position made vacant by the death of Bishop Binney. An unusually large representation both the Clerical and lay delegates were present. Rev. Dr. Edgell, Chaplain general of her Majesty's forces, and Rev. Dr. Sullivan, bishop of Algoma, were the only non-ministers. The following is the result of the ballot:— Total votes cast, 90 Necessary to elect, 46 No. of votes, Edgell, 40 Sullivan, 20 LAY. Total votes cast, 104 Necessary to elect, 53 No. of votes, Edgell, 53 Sullivan, 48 We copy the following from a Hudson, Mass., paper. (Mr. and Mrs. Vidto, formerly resided at Paradise, of this county.) The residence of Mr. and Mrs. Theo. H. Vidto, was on the 15th inst., a scene of brilliant wedding festivities. The contracting parties were Claribel, only daughter of Mr. and Mrs. Vidto, and Mr. William Johnson, son of Dr. J. V. Johnson, of Whitehouse, N. J. The ceremony was solemnized by the bride's pastor, Rev. Homer N. Tilden, of Hudson, N. J., assisted by Rev. F. S. Bacon, of Boston, and N. C. Vidto, of Whitehouse, N. J. Mr. Vidto's son, Frank Vidto, of Boston, and N. C. Vidto, of Whitehouse, N. J., with their families were present, together with about 60 invited guests from Hyde Park and other places. The apartments were decorated in an exceedingly appropriate and tasteful manner with foliage, plants and choice cut flowers, and the marriage was solemnized by Rev. Mr. Tilden. An earnest prayer by Rev. Mr. Bacon followed, and the bride and groom were pronounced man and wife. At the close of the nuptials, an elegant repast was furnished by the well-known Boston caterer, Harvey Elliott, and served in the most perfect manner by his trained assistants. Prominent among the delicacies upon the well-filled board, stood an elaborately frosted and decorated wedding cake, manufactured by Mr. Andrew Byth, of Hudson, bearing the names of the bride and groom. This cake is not to be cut until the occurrence of their silver wedding, twenty-five years hence, but is to be carefully preserved under glass until that time. The happy pair drove to Marlboro, at 4.30, intending to take the Old Colony road at that place for Fall River, thence by boat to New York, arriving at Dr. Johnson's on the following day, where an elegant reception awaited them. At the close of the bridal tour they will make their home for the present in Malden. The bride presents them being many rich and costly gifts. LITERARY NOTICES. Under his new editor, Mr. T. A. Kennet, The Decorator and Furnisher bids fair to add to its already high reputation. The July number is exceptionally interesting, and contains over fifty engravings, covering almost every department of decorative art. Madge Hopworth, Dixon, has introduced a new paper on Painting on Wood, Marion Foster Washburne begins a series on Wall Decoration, and the editor in "The Lair of the Bachelor" pleasantly introduces three fine illustrations which begin a series of sketches of the most noticeable and interesting persons in the great city. The range of artistic ability shown in this issue is very unusual, and a number of new contributors add to its variety and interest. Published at No. 30, 32 East Fourth Street, New York. THE CENTURY FOR JULY.—In The Century for July, the lighter material is of a sparkling out-of-doors character, and naturally takes precedence in attractiveness at this season. The opening paper, by John Burroughs, on Wild-Flowers is profusely illustrated, and is likely to set many a young man and woman to pondering; and another by W. J. Henderson on "The Sportsman's Music," giving pictures of live game birds and recording the musical notes of their songs, appeals more to the other sex. A third paper, by Talbot Williams, treats of "An Animal Locomotion in the Hymenoptera," with a lot of drooping illustrations of pictures exhibiting in progressive series familiar phenomena not fully seen before in nature—a mole working in the earth, pigeons flying, horses galloping and leaping, athletes jumping and throwing, ball-players batting, etc.—a paper which is in the nature of an excursion into new worlds. The Lincoln History closes up the Kansas troubles and discusses the "Lincoln-Douglas Debates." Interesting and hitherto unpublished letters by Lincoln and Greeley are given. The War Series, followed since the start by the closest attention of thousands, commences this month the hundred days of battle in "The Struggle for Atlanta," "Christian Science" and "Mind Cure," by Dr. Mary Melvern, of Lake La Rose. PHILIPS—BOWLEY.—On July 6th, 1887, by the Rev. W. H. Thomas, at Cambridgeport, M. E. Church, Miss Rev. W. Phillips, of the N. S. Conference, to Carrie E., daughter of Mr. John E. Bowley, of Alliston, Mass., formerly of Lawrenceville, Annapolis Co., N. S. WHELOCK—BROWN.—At Torbrook, on the 6th inst., by the Rev. J. Clark, assisted by the Rev. S. Welton, G. W. Wheelock, to Annie M., daughter of John Brown, Esq., all of Torbrook. DEATHS. SCUR.—At Lequille, on the 5th inst., after a lingering illness, Agnes Spurr, beloved wife of John W. Spurr, aged 72 years. GATES.—At Millville, Annie E., beloved wife of John W. Gates, and only daughter of Mr. and Mrs. Edward Payson, age 39 years. She slept in Jesus and is blest. How calm her slumbers are. BENT.—At Belleisle, on Monday, the 4th inst., after a comparatively short illness, Elizabeth Steadman, beloved wife of Mr. Joseph Bent, in the 73rd year of her age. GLENCOCK.—At Bridgetown, on the 11th inst., Ida May, infant daughter of W. J. and Abigail Glencock, aged 7 weeks. THE Beauty of Woman is her crown of glory. But alas! how quickly does the nervous debility and chronic weakness of the sex cause the bloom of youth to pass away, sharpen the lovely features, and enslave the rounded form! There is but one remedy which will restore the faded roses and bring back the grace of youth. It is Dr. Pierce's "Favorite Prescription," a sovereign remedy for the diseases peculiar to females. It is one of the greatest boons ever conferred upon the human race, for it preserves that which is fairest and dearest to all mankind—the beauty and the health of woman. SIR GARNET.—THE Jersey Bull, "Sir Garnet," No. 111, will stand for service during this season at the stable of CHAS. B. WHITMAN, in LAWRENCE TOWN. Parties desiring to purchase such an animal will have an opportunity of inspecting him at 10 o'clock on Monday. Sir Garnet is two years old, bred by S. B. Murray, Esq., of Yarmouth, was sired by "King of the East," bred by J. D. by Pat Tyler, 4, G. G., dam by Bruno, No. 3, G. G., dam by Dick Swivel 3rd, No. 2, particularly to England raised on a good stock and they will be careful for a good pasture until served, at reasonable charges. JAMES H. WHITMAN, Lawrence town, June 21st, '87. 51116 GEORGE W. BELL, M. D., PHYSICIAN and SURGEON, Graduate of College of Physicians and Surgeons, NEW YORK. Office at His Residence, Kingston Station, Kingston Station, April 16th, '87. 5m Frederick Primrose, M. D., Graduate of Edinburgh, Glasgow and New York. OFFICE.—Mrs. Ansley's, Bridgetown.
