FEELS IT HIS DUTY TO TELL FACTS IN CASE

Dartmouth Citizen Says He Suffered From Indigestion But Was Finally Restored by Tanlac.

"In telling how Tanlac helped me I feel I am only doing my public duty," declared Peter Nielson, a highly respected citizen of Dartmouth, N. S.

"For nearly fifteen years I was troubled with indigestion. My food would form gas that caused me sharp pains across my chest and almost out of my breath. My kidneys also were out of order. I had a pain in the small of my back and if I stooped over I could hardly straighten up again.

"Of late years my chief trouble was rheumatism. Sometimes I could not use my arms and shoulders. Then it seemed to settle in my legs. I got so bad I could not walk to business.

"Finally I decided to try Tanlac and to-day I am a well man. My rheumatism is gone and I am able to walk back and forth to work. My indigestion has been overcome and I feel just fine. I think Tanlac is a wonderful medicine."

Tanlac is sold by all good druggists.

QUESTIONS AND ANSWERS ON FORESTRY

(By Canadian Forestry Association.)

Q. Can you give me some information as to how many trees are distributed to the prairie farmers each year from the Dominion Government Nursery Station at Indian Head, Sask?

A. The average number of applicants for young trees from the Indian Head Station of the Dominion Government is 8,000 and from three to five million seedlings and clippings are sent out annually to prairie farmers. The average number per applicant was about 500 last year.

Q. Is there any service open to the ordinary citizen by which he can promote forest conservation?

A. By all the means the foremost service that the ordinary citizen can do for the forests of Canada is to prevent forest fires. As compared with our annual forest fire damage any conceivable governmental effort at restoration by tree planting appears trivial. For example, one forest fire this year started by a cigarette carelessly thrown away destroyed twenty-five million feet of pine in one district. We are destroying our forests at least four times as fast as Nature at best can restore them and if we include forest fire damage we are probably killing off our forests each year ten or fifteen times faster than the natural regrowth. As a matter of saving our industries and retaining our forest inheritance, the business of forest fire prevention outranks every other public concern.

How do the forest resources of Canada compare with those of other parts of the British Empire?

A. Canada is the only part of the British Empire containing a really large stock of coniferous timber. This classification refers to such woods as pine, spruce, fir, hemlock, etc., of the cone-bearing trees—Australia and New Zealand and South Africa are wood-importing countries. The British Isles themselves contain a small proportion of timber growing land than any other part of Europe except Portugal. The pine, spruce and fir forests of this Dominion, therefore, represent the only reliable source of commercial timber within the Empire.

OVERWORKED NERVES

The Most Successful Treatment is Through the Blood

The early stages of nervous debility are noted by restlessness and irritability in which the victims seem to be oppressed by their nerves. As the trouble advances, common symptoms are a tired feeling; weakness in the knees and ankles; headaches, backaches and sleeplessness. The matter requires immediate attention, for nothing but suitable treatment will prevent a complete breakdown.

The nervous system governs the whole body, controlling heart, lungs, digestion and brain, so that it is not surprising that nervous disturbances cause acute distress. For troubles of this kind Dr. Williams' Pink Pills succeed when other treatment fails, for these pills make new blood, enriched with the elements on which the nerves thrive, and in this way reach the root of the trouble. In proof of this is the statement of Mrs. Dockerville, Stratford, Ont., who says: "My daughter, Matilda, was suffering from nervous debility, and the usual remedies did not seem to help her. I was advised by a friend to give Dr. Williams' Pink Pills a trial, and soon we found they were doing her a great deal of good. She complained of pains in the stomach, and a severe fluttering of the heart, with a general weakness. Under the use of these pills she continued to gain, and I believe they have saved her from going into a decline."

You can get these Pills from any medicine dealer, or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

A forest of pines and firs which took 200 years to grow, may be destroyed in half as many minutes by a forest fire.
