THE WORKMEN'S COMPENSATION ACT.

Halifax, N. S.—Over fifteen hundred people in Nova Scotia are receiving aid from the Workmen's Compensation Act, according to the report of the board, which Hon. D. A. Cameron, Provincial Secretary, tabled in the House of Assembly last night. The total amount actually paid for compensation in Nova Scotia since the Act came into force amounts to over three million dollars. The amount paid out in 1923 was six hundred thousand dollars. Of that amount two hundred and thirty-three thousand dollars were paid to those entitled to pensions; over three hundred thousand to disabled workmen; and fifty-six thousand for medical aid. There were two hundred and eighty-seven widows, six hundred and twenty-two children; fifty-nine dependent mothers, forty-two dependent fathers, nineteen other dependents, and workmen disabled for life, partially or wholly, five hundred and fifty-eight are drawing upon the fund. There were many more accidents in Nova Scotia last year than the previous year, the increase being 1253 over the previous year, the figures showing 5841 in 1922 and in 1923, 6,734.

The report of the board say that the industrial depression apparently reached the bottom in 1922 the payrolls for that year reaching lower than any time since 1917. The improvement in 1923 was ten per cent, better than the previous year, and the industries showing improvement were coal mining, iron and steel, railroad operations, lumbering, quarries, boiler making, railway car works, ferries and harbor boats, hydro power construction.

Counting on an output of 16,000 tons today (the officials expect 17,000), the output for April will be 330,000 tons, the best month's production since pre-war days. It will exceed the March output by 15,000 tons. Yesterday 17,000 tons of coal were produced, the colliery broke all its previous records for a day's production when 1712 tons were hoisted.

TEACHING STAFF OF MIDDLETON SCHOOLS

Middleton.—At a special meeting of the school board held Monday three more appointments were made to the staff for next year. The staff is now complete except mechanic science, instructor and stands as follows: Principal—H. L. Bustin; Vice-Prin.—G. V. Jacques; Grades VII and VIII—Miss M. Fitzrandolph; Grades V and VI—A. M. Marshall; Grades III and IV—Miss M. Wright; Grades I and II—Mrs. C. H. Harlow; Household Science—Miss M. W. Harlow.
Miss Harlow an addition to household science classes, gives part time to high school work. The "A" work will be continued as it has been taught during the past two years, but for the present the work of the Kindergarten department has been discontinued.

APRIL COAL OUTPUT IN C. B. IS HIGHEST SINCE PREWAR DAYS

Glouce Bay, N. S.—The coal banking season is about over. Activity at the shipping piers and the demand at Sydney are sufficient to keep the collieries busy. Coal is already being lifted from the bank at Sydney Mines, and it is not likely that further coal will be dumped at the big No. 2 pile, where there is now a total of nearly 400,000 tons.

Counting on an output of 16,000 tons today (the officials expect 17,000), the output for April will be 330,000 tons, the best month's production since pre-war days. It will exceed the March output by 15,000 tons. Yesterday 17,000 tons of coal were produced, the colliery broke all its previous records for a day's production when 1712 tons were hoisted.
